J. A. TITSWORTH LOCAL RECEIVER

Appointed on Application of Creditor of American Paper Products Co., of Carthage

ALLEGATIONS ARE ADMITTED

Judge Sparks Overrules Motion to Quash First Count in Affidavit Against Silverton Miller

In the litigation filed Monday in circuit court against the American Paper Products company of Carthage, by the St. Maurice Paper company of Quebec, the defendants admitted the allegations concerning the receivership, and Judge Sparks appointed John A. Titsworth, local attorney, as an ancillary receiver.

The federal court has appointed Ley P. Rexford of Missouri as the ancillary receiver for this state, and the action was also filed in this county in order to obtain some one locally to look after the interests of the concern.

In the appointment of Mr. Titsworth and Mr. Rexford, the two receivers each gave bond for \$50,000.

The action was filed to seek a receiver, alleging that the Carthage concern was insolvent. The allegation admitted by the manufacturing company was to the effect that a receivership had been named in Missouri, where they own and operate another plant.

Among the new business in court today is a suit filed by the Rushville National bank against the Weeks Fresh Meat and Provision company and Jacob L. Steinmetz, demanding judgment for \$1,400 on a note.

R. A. Smith has filed suit against Alva D. Eakins seeking to foreclose a mechanics lien for lumber furnished the defendant in the construction of a barn. The demand is for \$1,000 judgment.

Allen Lunsford is plaintiff in a suit against Guy Russell, seeking judgment for labor and work. The complaint alleges that the plaintiff was a farm hand employed by the defendant and that he has coming to him 500 pounds of meat as his share of butchering, or he seeks its equivalent, \$60 in cash.

A suit has been received here on a change of venue from Greensburg, the action being by Edward A. Porter against George W. Bruce. The plaintiff is a physician and the defendant an attorney, both residents of Greensburg.

Judge Sparks has overruled the motion to quash the first count in the affidavit against Silverton Miller, charged with assault and battery with intent to kill. The case will be set for trial in a few days.

Motions to quash charges against Ed Herbert and Cleve Holt have been filed. They are held on charges of conspiracy and grand larceny, being charged with stealing corn from John Gray.

The jury has been ordered to report for Wednesday. The suit of Levi M. Thomas against Sheldon B. Cooper, receiver for the Mohawk elevator company, is set for trial. The action was sent here from Greensburg on a change of venue, and the demand is for \$4,151.50 on a claim against the receivership.

The case of Pitman & Wilson against Earl Winslow, a suit on an account, has been dismissed by the plaintiffs.

A ruling has been entered in the case of Grover Kyser against Melvin D. Seely, et al., proceedings supplementary to execution, which was heard several days ago. The court found the defendants, and against the plaintiffs.

CANDIDATE WILL BE HERE

Dr. McCulloch, Gubernatorial Candidate, to Speak Saturday

The first democratic speaking in the present campaign will be held Saturday afternoon at 4:30 in the assembly room of the court house, when Dr. McCulloch, candidate for governor will be the speaker.

He was announced to speak here while enroute to fill a night engagement in Brookville. He speaks at Shelbyville earlier in the afternoon, and from there will drive to this city for the 4:30 address.

FOR THEFT AT GWYNNEVILLE

Frank Martin, 17, is Arrested at Connersville Monday

Frank Martin, age 17, of Connersville, was arrested Monday in that city and given over to officers of Shelby county on a charge of larceny, contained in a complaint by J. P. Auxier of Gwynneville. The youth was working for the Gwynneville man, when he disappeared recently, and after he left, the theft of a watch, fountain pen, coat, hat and other articles was discovered.

He was traced to Connersville, and when arrested yesterday, he admitted the theft, and the stolen articles recovered, according to a dispatch from that city. He will be tried in the circuit court at Shelbyville.

COUNTY INSTITUTE IS DELAYED A WEEK

Regular Session This Week Conflicts With State Meeting—New Instructor is Added

FUTURE MEETINGS IN SCHOOL

The regular teacher's institute for the Rush county teachers will not be held this week on account of the conflict in date with the state teachers' association meeting in Indianapolis.

The regular session for the county institute is held the third Saturday of each month, and hereafter the regular date will prevail. On account of the conflict for this week end, the institute will be carried over until the following Saturday, October 25.

A new instructor has been added to the list of institute speakers on account of the large class in silent reading. It was found necessary to divide the class, and Dr. Alderman will be assisted in the work by Miss Kaufman, both of the Indiana university faculty.

Another change was made in the holding of the institute. The sessions in years past have been held at the court house, but beginning with the next meeting, October 25, the institute will be held at the Graham high school, where ample room is provided, and no outside disturbance to bother them.

HOTEL BUILDING IS ORDERED TORN DOWN

State Fire Marshal Serves Notice This Morning, Giving Owners and Occupants 30 Days

WITH A PENALTY THEREAFTER

Orders, condemning the Grand hotel building, First and Main streets, as a fire hazard were received this morning from Newman T. Miller, state fire marshal and served on the owners and occupants of the building by Joe Williamson, local fire chief.

The building is owned by the Roxana Petroleum company, a Missouri corporation, who expect to erect a filling station at once. The only occupant in the building is Howell Brothers, who have a portion of the main floor. The order condemned the building, served notice on the occupants to vacate, and a period of 30 days given to level the building.

The order from the fire marshal's office is issued in triple form, one copy being returned to the state office with the date of the summons signed. Fire chief Williamson served the notice as soon as it was received. The order carries a penalty on a per diem basis for failing to have the building wrecked within 30 days.

Howell Brothers contend that their lease does not expire until next August.

HYLAN WRITES COOLIDGE

New York, Oct. 14.—In a letter to President Coolidge in regard to the German loan which he made public today, Mayor John Hylan of New York city, asked the president if he does not "think" it time the American investing public was told exactly what may be expected in the event of default of monies advanced under the Dawes plan.

SMOKING HIM OUT

RUSHVILLE WILL BE HOST TO PHYSICIANS

114th Semi-Annual Meeting of Union District Medical Society Will be Held Oct. 30

SESSION AT COURT HOUSE

The one hundred fourteenth semi-annual meeting of the Union District Medical association will be held in this city, Thursday October 30, in the court house, J. E. King, M. D., is president and E. E. Holland, M. D., secretary-treasurer of the association. They both practice in Richmond.

The program begins at 10:30 o'clock and opens with a talk on "Treatment of Fractures of the Neck of the Femur" by Ralph G. Carothers of Cincinnati, Ohio, followed by a discussion by H. M. Lowell of Hamilton, Ohio. Others on the program are V. C. Griffiths of Richmond, L. G. Bowers of Dayton, Ohio, J. E. King, of Richmond, John H. Oliver of Indianapolis, Mark Millikin of Hamilton, W. A. Thompson of Liberty and G. B. Jackson, of Indianapolis.

With very few exceptions, physicians of this city and county are members of the association and will act as hosts when the meeting is held here.

COLUMBUS DAY IS CELEBRATED LOCALLY

Knights of Columbus Install Officers at Observance—Address on "Duties of American Citizens"

L. M. VANIER IS SPEAKER

The Knights of Columbus celebrated Discovery Day with a fitting program in connection with the installation of officers, Monday evening, at their hall in West Second street. District Deputy Madden and P. T. Doyle of Indianapolis installed the following officers for the ensuing year:

Grand Knight, Richard Byrne; deputy grand knight, Edward Hood; financial secretary, George McCoy; treasurer, James Mullins; recording secretary, Ebert Myers; chaplain, Bernard Madden; warden, Thomas Kirk; advocate, S. C. Kirkpatrick; inside guard, Bernard Joyce; outside guard, James Keating; trustee, Mark Purcell.

L. M. Vanier of Indianapolis gave a short address, his subject being, "The Duties of American Citizens". His address was well received.

HIGH SCHOOL GYM IS BEING REPAIRED

Balcony is Being Extended Over Main Floor in Order to Provide 500 More Seats

GETTING READY FOR OPENER

First Practice Held Tonight For October 31 Game—Financial Report is Published

With the basketball season for the Rushville high school schedule for the opening game in less than three weeks, the gymnasium has been undergoing changes and Coach John Swain issued first call today for the players to report for practice.

The gymnasium will seat an additional 500 persons this season, according to the changes that are being made. The entire balcony is being extended out over the lower floor and built even on both sides to conform with the portion that used to be occupied by the band stand.

The band stand has been removed from the west side and is being built high up in the north end. This change alone will accommodate 100 more people, and the other 400 can be seated around the new portion of the balcony.

Basketball is one branch of high school athletics that is self sustaining, as evidenced by the annual report made public today by E. B. Butler, high school principal. The door receipts last year totalled \$3,025.37 and the team received \$412 on contracts from other cities. The total receipts for the season were \$3,749.69. The total expenditures were \$2,909.91 leaving a balance on hand for this year of \$839.78, with which the improvements are being made.

The report of Mr. Butler is interesting in every respect, because the public that supports the sport is anxious to know what becomes of the money. The entire report is as follows:

RECEIPTS
From preceding year—\$221.82.
Door Receipts from Basketball games and share from tournaments—\$3095.37.
From contracts for games—\$412.00.
From sale of used Basket Balls, locker deposits, refunds for damages to property—\$20.50.
Total receipts—\$3749.69.
DISBURSEMENTS
To Referees, Umpires, etc.—\$317.92.
To Visiting Teams per contracts—\$389.00.
Traveling expenses of R. H. S. teams meals incidentals of trips—\$469.43.
Maintenance of R. H. S. Band, etc.—(Continued on Page Five)

SENATOR BRANDEGEE APPARENTLY SUICIDE

Member of Upper House of Congress From Connecticut Found Dead in Bathroom of His Home

GAS HOSE IN HIS MOUTH

Washington, Oct. 14.—Senator Frank Brandegee, Connecticut, Republican, was found dead in the bathroom of his home here today, apparently a suicide.

Brandegee's body was found fully clothed in a sitting position on the bath-room floor with a tube leading from a gas jet to his mouth and the gas turned on.

He apparently had been dead several hours.

Discovery of the body was made by W. D. Lundy, Brandegee's secretary and George Jones, chauffeur who were attracted to the bathroom by the odor of gas. They called a doctor but Brandegee was beyond medical aid.

The Senator lived alone except for a staff of servants, in a large old brick house near Farragut square a few blocks from the White House.

New York, Oct. 14.—The suicide of Senator Frank Brandegee of Connecticut was due to "personal financial troubles," caused by investments in real estate, Secretary of War Weeks said here today.

ASKED TO LOOK FOR WOMAN

Police Informed That Mrs. Walter Adams, Jr., Has Departed

Police were asked today to search for Mrs. Iva Adams, wife of Walter Adams, Jr., who disappeared Monday night. She was last seen near a grocery store in West Second street. She left without taking any wraps or what, according to the information given the police. She was married recently to the local man, and no cause for her departure could be assigned.

Police here called the officers at Elwood, her former home, but they investigated this morning and stated that she was not in that city.

TO ARGUE GAS TAX

Indianapolis, Ind., Oct. 14.—Oral arguments on the case of Bruce Gaff and others, representing South Bend motor bus interests who appealed to the supreme court to prevent State Auditor Robert Bracken from collecting a two cent gasoline tax, will be heard tomorrow morning.

TO INVESTIGATE SEED POOL

Party of Corn Growers Going to Franklin Thursday

A party of Rush county corn growers is going to Franklin Thursday to investigate the seed corn pooling plan that has been in use in Johnson county for several years and has proved very successful.

The seed corn is selected and pooled by farmers, who sell it as Johnson county seed corn, rather than seed coming from some farmer.

All Rush county corn men who are interested are urged to go. The party will leave the county agent's office in the court house in time to reach Franklin at one o'clock.

ZR-3 HEADED STRAIGHT FOR NEW FOUNDLAND

First Direct Message From Dirigible Indicates Course Was Changed as Surmised

MARTIAL LAW AT LAKEHURST

Aboard the ZR 3, (4 p. m. GMT), Oct. 14.—"We are headed directly for New Foundland, making seventy-five nautical miles per hour. All on crew are well and the engines are in perfect condition."

Shortly after 1 p. m. today the above message was relayed to the United Press from the Zeppelin ZR 3 by the Radio Corporation of America, stationed at Chaffin, Mass.

The report, the first direct one received from the on-coming dirigible this afternoon, indicated that previous surmises were correct and that Dr. Eckner has abandoned the flight by way of Bermuda and is streaking for the northern coast.

Lakehurst, N. J., Oct. 14.—Martial law will go into effect at Lakehurst naval station, the moment orders are given to the landing crews on the edge to receive the ZR-3, become effective. The Zeppelin now is expected between 6 a. m. and 11 a. m. tomorrow, according to Commander Pierce. His estimate was based on the changed course of the ZR 3, which now is headed for New Foundland, whence it will swing down the coast to New Jersey.

Weather conditions are ideal, with a brilliant sunshine and a northwest breeze. Elaborate precautions for the safety of the warship and its passengers will be taken. The hanger has been cleared and only a couple of small airplanes, which will act as observers during the landing, are at the station.

SPICELAND MAN IS REMOVED TO HIS HOME

Elmer Pidgeon, Who Was Shot Accidentally by Two Boys Near Rushville is Recovering

SHOT TAKEN FROM SHOULDER

Elmer Pidgeon, the Henry county man who was shot by young boys while riding in his machine east of Rushville a week ago Sunday, was removed to his home in Spiceland Monday from the St. Vincent's hospital in Indianapolis. His condition is said to be improving.

A small piece of lead from the rifle found through his shoulder and imbedded itself deeply into the flesh which caused an operation for the removal of the lead at the hospital in that city.

It was thought at first that he was fired upon by someone from behind, but officers traced the shooting to two boys who lived in a farm house near the scene of the shooting, and the boys admitted that they fired the shot at a bird on an ear of corn, and the charge carried across the road to the passing machine.

WIGGINS ASKS PARDON

Indianapolis, Ind., Oct. 14.—Application for a pardon for Charles (Chuck) Wiggins, Indiana pugilist, was on file with the state pardon board today. The appeal is based on an alleged repudiation of charges on which he was convicted, made by a 19-year-old girl.

SCHOOLS ENTER INTO MOVEMENT

Excellent Response Found in Tour of County in Interest of Field Seed Corn Selection

COUNTY SHOW IS EMPHASIZED

Russell East, Who is Speaking in Schools, Addresses Rotarians and Corn Grower Guests Today

The campaign for the selection of seed corn from the field and in the interests of the Rush county corn show, which will be held in Rushville January 6, 7 and 8, 1925, had a most auspicious start Monday, when six schools were visited and at each school short talks were made to the boys of the seventh and eighth grades and the high school.

The campaign is in charge of Russell East, former Shelby county agricultural agent, who is now associated with the Pennsylvania railroad in agricultural extension work. Accompanying him on the tour of the county schools are Birney D. Farthing county superintendent of schools, and Herschel VanMatre, county agricultural agent.

The Glenwood, Gings, Raleigh, Carthage, Center and Jackson township schools were visited Monday and this morning the party was at Arlington, Manilla and Homer. The speakers returned to Rushville for the noon meal and Mr. East spoke to the Rotary club and thirty leading corn growers of the county, representing each township, who were guests of the club at the noon luncheon.

Mr. East recalled it would be 432 years November 5 since Columbus discovered corn in Cuba and that in 1611 the first corn was planted on the coast of Virginia by a group of settlers. Two Indians were the first county agents, he said.

The Pennsylvania agricultural agent explained what was being attempted in the schools of the county. He said that the value of selecting seed corn from the field, when it was possible to determine whether the corn was healthful, was being impressed upon school children and being carried by them into the homes of the county.

"If we could get each boy to pick one ear of corn from the field for seed," he said, "it would amount to enough to pay the salary of the county agent and a large part of his expenses."

The tour was continued this afternoon at Webb, New Salem and Circleville schools. Wednesday morning the Gehimer, Moscow and Milroy schools will be visited and in the afternoon the tour will end at Richland and Freeman schools in Richland township.

Mr. East spoke to 221 pupils Monday, emphasizing the importance of (Continued on Page Two)

TO RESTRICT USE OF ABSENT VOTER BALLOTS

State Board of Election Commissioners Announces More Stringent Rules in Force

12TH TICKET ON BALLOT

(By United Press)

Indianapolis, Ind., Oct. 14.—Restriction on the use of the absent voters ballots in the fall election were announced today by the board of election commissioners. The restricted use of the absent voting privilege was imposed, it was announced by clerk of the board, George Healey, in an effort to curb abuse of the method of casting ballots.

Voters using this method this fall must apply for the blanks in person or by mail to the county clerks of the different counties, Healey announced.

Healey said it has been a practice of party workers to solicit voters to use the absent ballot. In this manner the workers often witness the casting of the ballot and usually has an opportunity to influence the voter.

The possibility of a twelfth ticket on the ballots in November appeared today with the filing of a petition of the worker's party of America with Governor Branch by Arne Swaback of Chicago. Petitions for places on the ballot had been filed by eleven other parties, previously.

SAID BRANDY WAS PUT IN HIS COFFEE

Anderson Police Question J. F. Shepherd, Said to be U. S. Secret Service Agent

HE BECAME VIOLENTLY ILL

Anderson, Ind., Oct. 14—Police today questioned a man said to be J. F. Shepherd, 34, New York, ill with poisoning here who is supposed to be a United States Secret Service agent.

Shepherd became violently ill here after dining with Mr. and Mrs. James Childs in a restaurant. He clutched an identification card in his hand when he collapsed on a street car.

It said, "J. F. Shepherd, USSS. In case of death notify Washington or New York offices."

When he rallied from the first effects of the poisoning he told hospital attaches that someone had put brandy in his coffee.

The man had no badge to substantiate the supposition that he is a secret service agent, and he had only a small amount of money.

G. O. P. INHERITANCE IS TOPIC FOR HUGHES

Secretary of State Speaks Tells Indianapolis Audience Troubles Came From Democrats

DUE TO UNWISE FINANCING

Indianapolis, Ind., Oct. 14—The present national administration inherited millions of unemployed and hard times from the Democrats, and by wise administration restored confidence and prosperity, Charles E. Hughes secretary of state declared in an address here last night.

The cabinet officers remarks were accepted as an answer to the charges of John W. Davis, democratic presidential candidate that the administration was wrecking business. "The serious conditions of 1920 and 1921 were due to the unwise financing policy of the Democrats," Hughes said.

KILLED IN FALL DOWN STEPS

Elkhart, Ind., Oct. 14—Mrs. Mary Elizabeth Schmidt, 66, is dead today from injuries sustained when she fell down the cellar steps at her home.

The First division of the Ladies Aid Society of the First Presbyterian church will hold an exchange next Saturday. The place will be announced later.

SUPPOSED MURDER VICTIM IS ALIVE

Ida McCutcheon, 27, of Hammond, Thought Dead Walks Into Salvation Army Headquarters

HER BODY WAS IDENTIFIED

Hammond, Ind., Oct. 14—Police today reopened investigation of the slaying of a young woman following the return, alive, of the woman they had identified as the murder victim.

While police searched for solution of the mysterious murder of a woman about 27, who was beaten to death and her body hidden in an empty box-car, Ida McCutcheon, 27, renewed acquaintances after an absence of two months.

When the body of a young woman was found in the local yards two months ago it was identified as the body of Miss McCutcheon. Her close friends made absolute identification.

She walked into Salvation Army headquarters here last night to the astonishment of some of the friends that had identified her as the murder victim.

Police are seeking identification of the young woman who was buried as the key to solution of the murder.

JUDGMENT IS WITHHELD

Carl Murphy of Milroy Settles Alleged Bad Check

Carl Murphy of Milroy was arrested this morning on a charge of issuing a bad check, and when arraigned he made good the check, paid the costs, and the judgment was withheld. The check was for \$3, given to J. C. Ellman. The costs amounted to \$13. The warrant was served by Frank Nicholson, special constable.

The case of Andrew Jackson Jackson against Cliff Brown, a suit on an account before Justice Stech, was continued from Wednesday until Thursday, when it will come up for trial.

The Christian's mission:—
Preach, saying, The kingdom of
heaven is at hand. Heal the sick,
cleanse the lepers, raise the
dead, cast out devils; freely ye
have received, freely give. Mat-
thew 10:7, 8.

Prayer:—

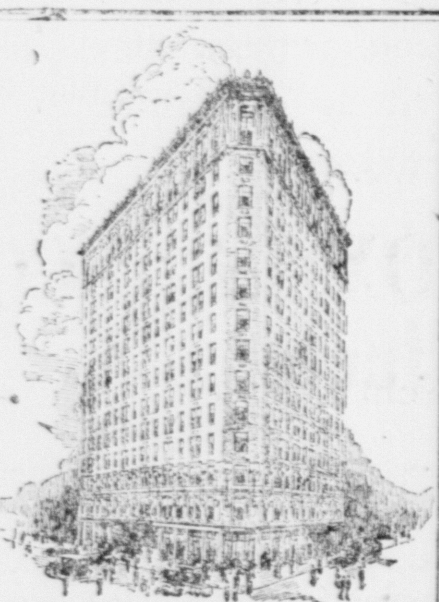

"O Lord of Heaven and earth
and sea,
To Thee all praise and glory be:
How shall we show our love to
Thee
Who gavest all so graciously?"
By serving freely, faithfully,
with Thee, for all!

What a LaFollette Vote Means

Republicans and democrats alike
who do not wish to see the pros-
perity of the country halted; men
and women who detest the soviet
form of government are elated by the
speeches that have been delivered by
LaFollette on his long heralded tour
for, by his talks on the tariff, he
has shown that he is more in favor
of Europe than he is of our country,
where high wages rule. He has
shown that he would break down the
barriers that protect the farmer and
labor. He has shown that he would
add millions and millions of dollars
in taxes by his public ownership
plan; he would create several million
more government office holders; he
would take away the protection of
the courts from the weak; he would
destroy a decent profit for the farm-
er, labor, dairyman, stockgrower,
cattlemen, beet sugar growers, in
fact, he would bring down the wages
of all industries; he would place
the standard of living on the level
of that in Europe.

People are now asking what laws
of a beneficial nature to the people
are on the statute books that bear
LaFollette's name and his most ar-
dent supporters dodge the question,
they would be delighted to name some
but they cannot, he has talked but
that appears to be all.

LaFollette is the best friend La-
Follette has, he is the best press
agent that LaFollette has ever had.

for they realize what his socialistic
theories would do to this country.
That does not appear, however, to
worry him overly much, but there are
several dozen million American vot-
ers who stand for the United States
first and last. A vote for LaFollette
means voting for low wages, failures
and general hard times.

Keep the Money at Home

Several financial newspapers and
magazines have been warning the
American investing public against
being lured into buying German se-
curities, with which this country is
now being flooded.

There never was a time when it
was necessary for an American to
seek investment elsewhere. There are
plenty of opportunities in this coun-
try and they are worthy of support
because money invested in American
securities will build up American en-
terprises.

Many investors are persuaded to
place their money in foreign secu-
rities with the promise of large re-
turns. But there is danger for the
United States if Americans in any
considerable number invest their
money in stocks and bonds of Ger-
many or any other foreign nation.

If the investments should prove
unprofitable, there is a chance that
international bankers and influential
investors might seek to compel our
country to enforce their payment.

If they proved profitable, Europe
would be even more infuriated at the
United States and would set up the
cry that she was being robbed. A spir-
it of hostility for this country,
which exists to some extent already,
would be increased and the seeds of
discord that lead to war would be
implanted in the minds of the people.

Thus there is a double danger and
loval Americans, even though prom-
ise of returns, may be especially
bright, will not dabble in foreign
securities, especially German, Aus-
trian or Hungarian.

FIFTEEN YEARS
AGO TODAY

From Daily Republican

Thursday, Oct. 14, 1909

While painting a barn two miles
south of Milroy, Joe Mills fell thirty
feet to the ground this morning and
sustained severe injuries. In the fall
the ladder on which he was standing
also fell, striking Mills on the head.

The automobile carnival this af-
ternoon was a near success from the
standpoint of the events and hardly
that much from the crowd stand-
point. The attendance was very poor
and although they seemed to enjoy
it, it was just a bit chilly for this
thing of standing on the side lines
and watching somebody trying to
break a record on a track which
is not in good condition and which
is not calculated for auto racing.

James E. Watson on his return
from the East yesterday morning im-
mediately subscribed for five lots in
the People's addition and said that
he would take more if necessary.

The promoters of the horse show
this year are very enthusiastic about
the prospects for the second annual
show and think that it will be larger
and better than ever.

Mr. and Mrs. Jim Robinson, Mr.
and Mrs. Dr. Warfield, Mr. and Mrs.
George Caldwell and Rev. S. A.
Morrow were entertained at O. C.
Macy's for dinner Sunday. (Summer
correspondent)

Frank Reed of Indianapolis and
George Reed of Fairland visited their
brother Jack here Sunday. He has
typhoid fever. (Gowdy correspond-
ent.)

By the latter part of the week it
was declared by a local grocer this
morning, eggs will be selling at 30
cents a dozen and it was estimated
that the price would steadily climb
then until the 35 cent mark would be
reached.

Arthur Trader suffered a severely
mashed finger while working at the
L. & C. Power house this morning.

Mrs. Laura Wolverton and grand-
son Forrest went to St. Mary's, O-
hio, today for a visit with her son,
Clayton, who is giving a short en-
gagement with his talking picture
company there.

Miss Nell Pierce and Arleigh Of-
futt will leave tonight for Pittsburgh
to attend the Christian church cen-
tenial there.

Miss Helen Black went to Lebanon
today to visit with Misses Madge and
Joy Selby for a few days.

A nine pound boy was born to the
wife of Frank Rogers in Jersey City
Tuesday night.

Speaking of presidential candi-
dates recently, a University of Mich-
igan professor referred to them as
the silent one, the handsome one and
the other one.

HUNT'S DAILY LETTER

BY HARRY B. HUNT
NEA Service Writer

WASHINGTON—For the hu-
morously inclined there is
a vast range of possibilities
in the situations that will inevi-
tably arise as a result of the ap-
proaching election.

No matter who is elected—Cool-
idge and Dawes, Davis and Bryan
or La Follette and Wheeler—the
United States Senate is certain to
be the setting of some situations
that for sheer humor will out-
reach the wildest imaginings of
the burlesque librettist or the
comic supplement artist.

For those who do not take their
politics and their congressmen and
senators too seriously Washing-
ton during the next Congress will
be better than a sideshow.

CONSIDER the situation in the
Senate should the Coolidge-
Dawes ticket come through a
narrow.

Dawes becomes vice president.
His sole duty is to preside over
the Senate, to decide points of
order in accordance with the rules
and precedents and to be an im-
partial arbiter in the matter of
procedure. He has no vote except
in case of a tie and no voice in
debate.

Down on the floor on the Re-
publican side of the aisle will sit
Senator Brookhart of Iowa, who
fought Dawes as the candidate of
his own party and demanded that
he be removed from the G. O. P.
ticket.

Will Dawes recognize Brookhart
when the Iowa senator arises to
make some remarks? If he does
or if he doesn't interesting and
explosive things may happen.
Match and powder keg will be in
 juxtaposition. The possibility of a
blowup will be ever present.

CONSIDER too the dramatic
possibilities underlying an av-
erage speech of Caraway of
Arkansas. Caraway is the Demo-
crats' most expert skinner and he
specializes in taking the hide of
the G. O. P. elephant.

Students of the effect of mind

The Hodge - Podge

By a Paragrapher with a Soul

Some people are so inclined to think
that just about everybody is crooked
that we are bound to wonder if at
times they don't feel inclined to sus-
pect themselves.

The downtrodden masses, about
whom some of the candidates speak,
are never in that condition except
when they get in front of a speeder.

Some whirlwind campaigns stir up
so much dust that the fellow at the
helm can't be seen for the dust.

Hot-headed people generally wind
up with cold feet.

If the meek are wise, they will step
in and get theirs while the belligerents
are fighting for the earth.

Most of us would like to know who
is going to put the "fist" in pacifist.

Over 19,000 persons died from
snakebite in India last year. Let's
see, and India has no Volstead law or
eighteenth amendment either.

A warning has been issued to young
men not to marry girls who can't cook,
sew, wash and iron. And if they only
obey this mandate, just how will they
find a wife?

From The Provinces

That's Sacrifice for You!!!

(Cleveland Times Commercial)
Perhaps William J. has gained
wisdom, concluding to help Brother
by saying nothing.

Foolish Question 71144000

(Philadelphia Record)
Why not retire General Dawes and
put Brookhart up for Vice Presi-
dent?

Blame it on Prohibition

(Houston Post-Dispatch)
Now they say young Teddy isn't a
mixer like his father. But, then, there
is nothing worth mixing now, as
there was in the Colonel's time.

How Do They Get That Way!

(Macon Telegraph)

First thing you know a baseball
player will think he has as much
right to be crooked as a politician
has.

You Can Bet on That

(Chicago News)

Japan and the league assembly to
the contrary notwithstanding, Amer-
ica's immigration laws will continue
to be America's own business.

Be Harder For Them to Do

(Kansas City Star)

Then bribing the Phillies to lose a
ball game, there is only one financial
venture more spendthrift. That
would have been to attempt to bribe
them to win a ball game.

over matter will crowd the Senate
galleries to watch the physical and
emotional reaction on Dawes as
Caraway slips his knife through
the Republican cuticle and pro-
ceeds to lay bare the carcass be-
neath. Caraway carves with a
careless hand which has pricked
the risibilities of much more re-
pressed men than Dawes.

Can "Hellan Maria" Dawes in
such a situation be expected to
follow the traditions of vice presi-
dential ethics?

No stage drama will have any
thing on the tenseness of that
time. Repressed emotion might
bring on apoplexy. Unleashed
emotion would bring real fire-
works.

ON the other hand should the
Davis-Bryan band wagon
bring the Democratic candi-
dates to Washington consider for
a moment the agony of soul and
spirit that would tear at the very
vitals of Henry Cabot Lodge when
he arose in his chair and sought
the privilege of recognition from
"Brother Charles."

Next to having to appear on
bended knee to the Council of the
League of Nations for permission
to run for re-election one can
think of no pill quite so bitter, no
humiliation quite so complete as
for this blue-blooded dean of the
Senate aristocracy, long the sage
and intellectual leader in the
upper house to be compelled to
address this newcomer from Ne-
braska. "If the president please."

There indeed would be a real
drama of soul or melodrama.

IN either case whether Bryan or
Dawes presides in the Sixty-
ninth Senate there will be on
the floor a thorn in the side of
either or both parties as the situ-
ation may decree La Follette and
Wheeler.

They will be there as senators
unless one of them is there as the
presiding officer while the other
sits at the White House.

Suspense? Human interest?
Drama?

That's what Washington is
going to be full of nothing else
but as Tom Heflin would say.

One sign of winter is when the
frost is on the pumpkin and the
shock is in the corn price.

Many a man reads auto adver-
tisements when he should be read-
ing shoe advertisements.

A wife is a great comfort during
all those troubles which a bachelor
never has.

One thing wrong with our homes
is too many couples think a pair
beats a full house.

Efficiency means doing two things
at once because you are too lazy
to do them one at a time.

One nice thing about having ene-
mies is you can blame things on
them instead of on yourself.

Just when women were doing
nicely in politics someone springs
the report that it makes them fat.

Business hint: Many coal dealers
are interested in cash registers and
adding machines.

The bathing beauties have left the
magazine covers. They are busy
posing for 1925 calendars.

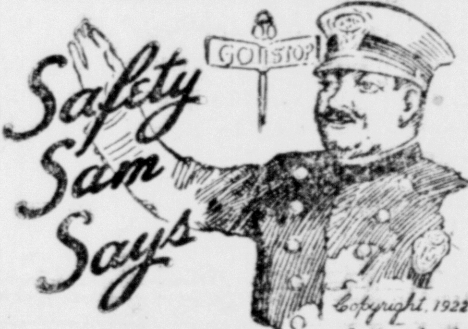

Skirts are getting short again be-
cause some women had no show
with them long.

Time these politicians get through
talking about it our constitution cer-
tainly will be run down.

These melancholy days certainly
are fine.

(Copyright, 1924, NEA Service, Inc.)

Children with Rickets
Need Cod Liver Oil

For weak, puny, under-developed
children—and especially those that
have rickets, and need a sure builder
that promotes the growth of teeth
and bones, cod liver oil is the one
medicine supreme—nothing helps like
it.

But it is nasty and repulsive and
evil smelling and nearly always up-
sets children's stomachs—so now
up-to-date chemists advise McCoy's
Cod Liver Oil Tablets.

Children love them as they do can-
dy, because they are sugar coated
and easy to take. One boy gained
11½ pounds in seven weeks, and is
now healthy and happy—thousands
of other children have grown strong
and robust.

Sixty tablets for 60 cents at F. B.
Johnson and Co., or Pitman and
Wilson and druggists all over
North America—but be sure and ask
for McCoy's—the original and genu-
ine.

Pulling
Together

THE outward and visible manifestations of
the Standard Oil Company (Indiana) orga-
nization consists of certain refineries, buildings,
storage depots, service stations, tank wagons and
quantities of crude petroleum and its products.

These tangible things any oil company may copy.
The refineries of this Company, efficient as they
now are, nevertheless may be copied by others.
Its system of distribution may be copied. The
design of its service stations, with their infinitely
practical arrangements for service, may be copied.
For all these things are but the work of hands.

But back of all these material possessions is
something else—something fundamental, intan-
gible—whose workings cannot be imitated. This
is the will and the energy to create; the ideal
which inspires and animates intrinsic service.
This determination, this will and enthusiasm of
heart cannot be copied. It is the unique posses-
sion which gives character to the Standard Oil
Company (Indiana).

This character is expressed in ideals of manage-
ment. A prominent industrial engineer well
says: "It is the part of management to manage.
It is the part of science to overcome difficulties.
Anybody can accept things as they are."

The Standard Oil Company (Indiana) has never
been content to "accept things as they are." It
will never be satisfied until petroleum is made
to yield the greatest possible number of products
which shall render a useful service to society.

This Company believes that an industrial orga-
nization exists and is permanent only because it
renders an essential service.

It is the enthusiastic, wholehearted determina-
tion to serve, on the part of the 27,160 employees,
which has made this Company a constructive
force.

It is the harmonious pulling together of this in-
dustrial army that has enabled the Company to
build a great business upon a foundation of fun-
damental service.

This spirit, which is imbedded in the heart of every
Standard Oil employee, is the key to the success
of the Standard Oil Company (Indiana). You
will find it manifest at every point. It is inherent.
It is inimitable.

INQUIRY WILL GO
ON INDEFINITELYCommissioner Landis, Head of Base
Ball, Will go to Bottom of Rumors
of Other Scandals

IS BUSY FOR THE MOMENT

Time Taken up With Distribution of
Proceeds From the World Series
and Other MattersBy HENRY L. FARRELL
(U. P. Staff Correspondent)New York, Oct. 14—Investigation
into the New York Giant baseball
scandal will be continued indefinitely.Commissioner Landis, head of
baseball, before leaving for Chicago
last night said most of his time after
the finish of the world series
had been taken up with the distribution
of the million dollars among the
various share-holders.He did not comment on the rumor
heard during the series that he was
going to withhold the Giant players'
share of the money but it is assured
that Cozy Dolan and Jimmy O'Connell
were the only Giant players
who did not get their pay."The business of sending out the
players' share has been cleaned up
practically," Landis said. "Investigation
into the scandal is still under
way. As I said before the case will
am satisfied as far as I have gone
already. The future will tell that."In addition to the Dolan-O'Connell
attempt to bribe Heinie Sand,
Landis also may investigate stories
of Red Dooin and Lou Crigor, former
players, who said Giant players
had offered them bribes. There also
are charges of Ban Johnson, president
of the American League, that
other players are involved and the
accusation of Barney Dreyfuss,
owner of the Pittsburgh Pirates,
that his players were tampered with.The opinion has been expressed
here that the investigation may be
dropped or indefinitely postponed as
many of the Giant players, including
several who were implicated by
Jimmy O'Connell in his confession
are now on their way to Europe and
will not be back until December.If he has not done so already,
Landis may investigate the report on
Broadway that an immense sum of
money was wagered, that the Giants
would win the National League pennant
by two games.Landis and other officials of the
game said they had been impressed
chiefly by the "appalling stupidity"
of Dolan and O'Connell, in trying to
the Phillies to throw a game and

Double-Play Wizards

LEFT TO RIGHT, PECKINPAUGH, HARRIS AND JUDGE

THE whole baseball world acclaims this Washington infield trio the
fastest double-play combination on the diamond today. In fact, a lot
of experts think that the Nationals, in Peck and Harris, have the fast-
est keystone combination in the history of the sport.Time was, in the height of the old Chicago Cubs' glory, when the base-
ball world thrilled to the old slogan, "Thinkers to Evers to Chance." But it
is doubtful if that trio, great as it was, had any edge at all on "Peck to
Harris to Judge."give the Giants a pennant that was
as good as cinched without any
crooked work.If some one wanted the pennant
won by two games an entirely dif-
ferent complexion is placed upon the
attempted bribe.

PLAN FOR SEATING CAPACITY

Expected 13,000 or More Will At-
tend Game at PurdueLafayette, Ind., Oct. 14—Prelim-
inary plans for handling the seating
at the Purdue homecoming football
game with Indiana in the new Ross-
Ade stadium, Nov. 22, have been
completed it was announced today.Detailed information is expected
to be available for fans wishing to
secure tickets by the first of next
week, according to the announce-
ment.Between 13,000 and 14,000 seats
will be available for the contest, and
if the demand is necessary this may
be increased by the erection of
bleachers.It is expected work on the play-
ing field at the stadium will be com-
pleted in about two weeks. Weather
conditions permit pouring of con-
crete for the west stands. Completion
of concrete work will be followed
by construction of entrances.Boston—Boston College defeated
Fordham U 28 to 0 in the first game
among the contenders for the easter
Catholic football championship.

ALONG SIDELINES

Urbana, Ill.—Heavy scrimmages
are in prospect for Coach Bob Zup-
pke's Illini during the rest of the
week, following signal drill and last
light scrimmage Monday. With sev-
eral men on the temporary crippled
list, subs are showing their wares,
including Wilson, sophomore tack-
le.Ann Arbor, Mich.—The Michigan
eleven, priming for the Illini battle is
strengthened by the return of Harry
Hawkins, regular guard, and George
Babecek, tackle. Behind locked
doors, Coach Yost is drilling his men
on plays "to beat the Illini."Madison, Wis.—Coach Ryan is
sending his Cardinal eleven through
gruelling paces in preparation for
the Minnesota game at Madison Sat-
urday.Lafayette, Ind.—Purdue is none
too optimistic over the Northwestern
game Saturday and Coach Phelan
is pounding a mass of offensive tac-
tics into the heads of his first
team, which saw little action in the
walkway from Rose Poly.Evanston, Ill.—Alva Graham, yester-
day filled the shoes of "White"
Ralph Baker's purple running mate
who was injured in the Cincinnati
game. White should be in the lineup
in three days. Coach Thistlewaite
drilled his charges in a variety of
plays for the Purdue game.Bloomington, Ind.—Scrimmage was
in store for the Indiana eleven.
Coach Navy Bill Ingram found ev-
ery man reporting for duty yester-
day.Chicago—Cheered over the revival
of "pop" among his Maroon war-
riors, Coach Alonzo Stagg sent his
charges through a scrimmage yester-
day, but rewarded the boys who did
most to beat Brown by comparative
rest.Minneapolis, Minn.—Bert Boston,
former all-American end on the
Minnesota team, joined the Gopher
coaching staff yesterday and im-
mediately a hard work out to the ends
in preparation for the Wisconsin bat-
tle.Iowa City—Convinced that he has
a strong line but aback field that
hasn't developed its maximum off-
ensive punch, Bert Ingersen, Hawkeye
mentor, put much attention on his
ball carriers.Columbus, O.—With Captain Young
and Tackle Jones temporarily on the
sidelines because of injuries,
Coach Wilce sent the Ohio varsity
a light offensive workout.South Bend, Ind.—The Fightin' I-
rish at Notre Dame are serious over
Army's top-heavy defeat of Detroit
Saturday and Coach Knute Rockne,
pointing his warriors to the Army
game at the New York Polo Grounds
Saturday, is teaching his usual be-
wildering maze of plays.Buffalo, N. Y.—Rocky Kansas
won the decision over Luis Vincen-
tini, Chilean lightweight in a fast
10 round bout here.

Jones After British Title

By HENRY L. FARRELL
(United Press Sports Editor)New York, Oct. 14—To a rather
disconsolate and discouraged public
in England the news that Bobby
Jones the young American amateur
golf champion, is going after the
British title next year may be re-
ceived like a smack on the chin.The dear old sporting public in Eng-
land looks upon the British amateur
golf with all the fondness a miser
would have for his last buck. It's all
England has left and the last symbol
of a former world domination of
sport.The British open cup is here in
the trophy room of Walter Hagen.
The International polo cup is at the
Meadowbrook club. America's Cup is
in the exclusive New York Yacht club.
The British boxers are all on the
floor. The Davis Cup, once a prized
possession of Britain and her colonies,
is under a long-time lease with
the United States Lawn Tennis As-
sociation.Under the circumstances the
gloomy prospects of losing the Brit-
ish amateur cup may be tempered
only by the satisfaction the English
golf fans may get out of seeing the
American star play, even if he does
win.London became very fond of Jack
Dempsey when he made his first vis-
it there. The British wanted to see
Dempsey fight, not because they felt
that they had anyone who could give
him a contest, but they wanted to
see the best fighter in the world, even
if they couldn't hold more than a
god-father claim on him.

The London tennis fans were just

as keen about Miss Helen Wills, who
went to England with every prospect
of beating Miss Kathlene McKane,
the only hope of Britain on the
courts. When Miss Wills failed to do
the expected there was no national
gloating in England. Quite to the
contrary, the good British sports
apologized for the Californian girl
and they were gracious enough to
admit that Miss Wills wasn't playing
her real game.The personal triumph that the
young American tennis champion
scored in England probably will be
repeated by Bobby Jones. They are
both of the same type—young, at-
tractive, modest and extremely ca-
pable in their lines. Bobby Jones will
not boast. British interviewers will
find it just as difficult to get him to
talk as they did in trying to get Hel-
en Wills to admit she was a good
tennis player.The visit of Bobby Jones can ac-
complish much good in the way of
missionary work, as Walter Hagen is
anything but popular in England. He
made some very uncomplimentary re-
marks about English sportsmanship,
two years ago, and although he later
denied the interview, the denial wasn't
as generally circulated in London
as was his alleged criticism.Bobby Jones and Helen Wills re-
present the new type of American ath-
letic stars. The American Olympic
team in Paris had numerous young
stars of the same disposition and the
team as a whole conducted itself
with great sportsmanship.London was amazed when Jack
Dempsey visited the city and acted
shy when ring subjects were brought
up. Foreigners had the opinion that
America had a race of braggarts,
loud-mouthed boasters and inveter-
ate personal magnifiers.HIGH SCHOOL GYM

Men's Muscles!

Miss Norma Zilk is shown winning
the intermediate hurdle race in Chi-
cago. She was victor over a num-
ber of high school girl competitors.
The effect of rigid training on the
development of leg muscles is clearly
shown in Miss Zilk's trim but
powerful limbs.

Old Peck Sure Delivered

It made a difference to Washington's hopes in the sixth world series game,
with old Roger Peckinpaugh back in the lineup. The crippled veteran
started the winning rally in the fifth inning with a single. Here you see
him crossing the plate with the tying run after McNeely had walked
and Harris singled. McNeely scored behind Peck on the same blow,
registering the winning tally. Hank Gowdy, Giant catcher, is waiting for
the ball as Peck crosses the plate, while Umpire Klem looks on.DUTCH

Rheumatism

"Good-bye old crutch!"

THERE IS positively no longer any
excuse for suffering the agonies
of rheumatism! Especially in the
autumn of your life, when the vital
organs weaken, impurities multiply
and linger in the muscles and joints,
as never before. It is now, just now,
when you cannot afford to guess. No
day returns!Here is a joyous fact which can
mean to you a fond farewell forever
to all the miseries, the tortures, the
body-twisting pains that you have
suffered from the demon of rheu-
matism. It is a fact that rheumatism
means "blood poverty." It is a fact
with the increase of red-cells in your
blood, impurities are destroyed. It
is a fact that S.S.S. will help Nature
build these red-blood-cells! S.S.S.
is one of the most powerful
blood cleansers in existence. Its re-
sults in thousands of rheumatic
cases have been nothing short of
amazing! The medicinal ingredients
of S.S.S. are purely vegetable. This
is very important to remember! What
can be more inspiring, more won-
derful than to see the shackles of
pain released from your struggling
body, swellings, lingering pains, stiff-
ness of joints and muscles all dis-
appear; your stomach made strong;
your face pink with the old sweet-
heart glow, your blood enriched and
your cheeks more plump as they used
to be. You can do it! Take S.S.S., the
great destroyer of rheumatic im-
purities.S. S. S. is sold at all good drug
stores in two sizes. The larger size
is more economical.
S.S.S. Makes You Feel
Like Yourself Again

Senator's Son

HIS father wears the toga and he
wears moleskins. This is J. J.
Wadsworth, Jr., son of the
United States senator from New
York. The junior member of the
family plays halfback on the Yale
team.

The rehearsal of the St. Paul's M. E. church choir will be held Friday evening at the church with Mr. McIntosh, as director.

The Missionary Society of the First United Presbyterian church will meet Wednesday afternoon at 2:30 o'clock at the church.

The Ladies Aid Society of the First Baptist church will hold an all day meeting Wednesday at the church and all members are urged to come.

Mr. and Mrs. Herschel Newhouse and daughter entertained to dinner Sunday at their home northwest of the city, Mr. and Mrs. John Ellison and Mr. and Mrs. Chester Stevens and daughter Evelyn.

Larline Council, No. 296, will meet in regular session Thursday evening at 7:30 o'clock at the Red Men's hall in West First street. A social and a pitch-in supper will be enjoyed at the close of the meeting.

Miss Edith Edwards of Homer and Norman Coleman of Moscow were married by the Rev. John T. Scull at his residence west of Milroy last Saturday. They were accompanied by the bridegroom's father.

Charles Ryan and family entertained Sunday to a high noon dinner party. Those present were Mr. and Mrs. Frank Wilkins and daughters LaVaughn and Clara Mae and the Misses Margaret (Slack) of Greenfield and Gladys Hasty of this city.

Mr. and Mrs. R. M. Ellison and son had the following guests for dinner Sunday: Mr. and Mrs. E. E. Ellison, Mr. and Mrs. Noah Reddick, Mr. and Mrs. Clarence Ruby and family and Mr. and Mrs. Corie Reddick and family.

The Willing Worker's Sunday School class of the St. Paul's M. E. church will meet Thursday afternoon at 2:30 o'clock in the parlors of the church. Election of officers will be held at this time and an interesting program will be given. Every member is urged to be present.

Mr. and Mrs. Malcolm Nw Kirk delightedly entertained the members of the Progressive Boosters class of the First Baptist Sunday school, Monday evening at their home in West Tenth street. The meeting opened with a business program followed by a short program and a social hour. Refreshments were served.

Mrs. Jacob Wolung and daughter Miss Cora entertained at dinner Sunday at their home in North Morgan street, the following guests, Mr. and Mrs. John Merz and sons Wallace, Alfred and Harold of Clermont, Ind., and Mr. and Mrs. Harry Willey and daughter Kathleen of this city.

The Fortnightly Study Club was entertained Monday evening at the home of Mrs. Tom Bradley in West Ninth street. The meeting opened with reading the Collect, after which the members responded to the roll call with quotations from Rupert Brooks. A short business session was held, followed by a biography of Rupert Brooks by Mrs. Harold Reeve, including the reading of several of his

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

Be Prepared for the Hatching Season

Have your chickens Blood Tested for Bacillary White Diarrhoea. For particulars see or write

DR. D. C. HANCOCK
MAYS, IND.

For Office Or Street

THOUGH this is essentially a sport costume it is very appropriate for street or office. It is of tan worsted with a novelty border running through the material trimming the scarf, hem, collar and cuffs. On cool days the collar may be worn close about the neck and the scarf tied so the ends are thrown over each shoulder.

poems. The hostess served light refreshments at the close of the program.

Mr. and Mrs. Chester Stevens and daughter Evelyn delightedly entertained Sunday evening at their home northwest of the city, with an informal party. The guests were Mr. and Mrs. Herschel Newhouse and daughter, Mr. and Mrs. R. M. Ellison and son, Mr. and Mrs. Ray Sample, Mr. and Mrs. John Ellison, Mr. and Mrs. Russell Stevens, Mr. and Mrs. Clarence Ruby and family. A dainty luncheon was served during the evening, the hostess being assisted by Mrs. Herschel Newhouse.

Mr. and Mrs. B. W. Riley have received an announcement of the marriage of their grandson, Albert C. Stearns, Jr., son of Mr. and Mrs. Albert C. Stearns, Sr. of Indianapolis, to Miss Helen Dorothy Smith, daughter of F. C. Smith, which took place Friday September 5, 1924, at Mitchell, South Dakota. They will be at home after October 15 at 509 Bellevue Place, Milwaukee, Wis. Mr. Stearns has visited here several times and the announcement will be a surprise to his friends here.

Miss Lavienna Compton of this city who is a senior at Schuster-Martin Dramatic school in Cincinnati, Ohio, gave a program of readings before the Rotary club in Covington, Ky., Tuesday evening. Miss Compton and Miss Olive Vail, a graduate of Schuster-Martin school gave a program and one act play in Brookville, Ind., Wednesday evening. Miss Compton is on the program for the State War Mother's Convention to be held in Spink-Arms Hotel in Indianapolis this evening. She will spend several days there as the guest of her parents, who are residing in that city.

Mr. and Mrs. Horatio Webb delightedly entertained at their home southwest of the city Sunday with a pitch-in dinner. The home was prettily decorated with fall flowers. Promptly at twelve o'clock the guests assembled around the dining table where the dinner was served. Those present were Mr. and Mrs. Milt Bass of Shelbyville, Mr. and Mrs. Rue Miller and children of Manilla, Mr. and Mrs. Mark Plessinger of Shelbyville, Mr. and Mrs. Clarence Lord and son, Mr. and Mrs. Virgil Vickery and son, Mr. and Mrs. Will Arnold and daughter of Mays, Mr. and Mrs. Frank Webb and Mr. and Mrs. Esta Webb. The afternoon was enjoyed socially with music. Mr. and Mrs. Lon Stewart were guests in the afternoon.

DAY BY DAY IN EVERY WAY SKIRTS GET SHORTER, SHORTER

By HEDDA HOYT
New York, N. Y., Oct. 11—Long skirts carry germs, they say. Short skirts make one look 'fat'. But to reach the hem of the skirt today

A germ must be an acrobat! There is no visible sign of long skirts returning in the Fall. Skirts are growing shorter, if anything. Five out of six women one sees on Fifth Avenue are wearing skirts carrying from the sidewalk.

This same shortness is found in sleeves, in spite of the fact that most of the leading designers have been making their Fall gowns with long, tight-fitting sleeves. Women who have refused the comfort of short sleeves refuse to accept the uncomfortable long sleeve, either for street wear or for dress wear.

Many of the best dressed women in New York are wearing Fall frocks made with sleeves which are mere shoulder caps or sleeves which extend between the shoulder and the elbow and with these short-sleeved frocks they are wearing gloves which extend almost to the elbow.

Generally the Fall frock has some sort of a short cape wrap. Many of them have the new five-eighths length coats which match the frock. These ensemble suits are very popular just now and will be worn until the weather demands a fur coat.

As to shoes, vamps are neither long nor short but are a happy medium which will meet with the approval of those who like short, French vamps, as well as those who prefer longer vamps. Evening slippers show longer vamps than shoes for day wear. Silver brocade lead as evening footwear and these are either made in simple pump shapes, or with the single strap over the instep. Ankle straps and cut-out effects made in leather are not being worn this season.

Just a word about the silver slipper; one should always be sure to wrap all metal cloth slippers in black paper when not wearing them, as this prevents them from tarnishing. Most of the shoe shops will supply one with this paper.

Gloves of short gauntlet lengths are more popular than longer types. This applies to the glove which is worn with the short sleeved dress as well as to the glove which is worn with the tight-fitting sleeve. With the long, tight sleeve, the glove pulls up over the cuff of the sleeve and since most gloves have decorative cuffs, this fashion is very effective.

Gloves of two button type which button about the wrist are seldom worn and they are selling very cheaply for this reason. Chamoisette gloves are now being made in the finest of weaves, so that one can scarcely distinguish them from suedes which are so popular this season. One can purchase several pairs of chamoise for one pair of suedes.

Chamoise gloves do not soil so quickly as suede gloves and they are washable, which makes them doubly attractive. They are made in the latest of novelty styles and for everyday wear, at least, are in quite as good taste as the real suedes.

Umbrellas grow shorter and have thicker handles each season. This year they are squat little things with extremely thick wooden handles, through which run leather arm- straps.

Corsets—one shouldn't really speak of them as corsets—are growing longer and more boneless. The elastic girdles which extend from waistline to the hips are not as popular as long models which extend well over the hips and are held down by elastic garters rather than by bones. Brassiere and girdle are often made in one garment and these are of the finest of cotton cloth and are almost entirely boneless.

While many women have entirely given up the wearing of corsets, there are women who feel that a corset is as important to a woman as an envelope is to a letter. A letter won't go anyplace without an envelope and some women won't go anyplace without a corset. There are women who believe that a "lady" is stamped by the fit of her corset.

IN SEARCH OF AN OLD PAPER

Mrs. Phil Wilk Wants Copy of Telegraph of April, 1877

Mrs. Phil Wilk, who was appointed historian for the centennial celebration of the First Presbyterian church, to be held early next year, has received from John Abercrombie of Miami, Florida, formerly of this city, a copy of the Rushville Telegraph of Wednesday, May 2, 1877, which contains the second of a series of articles on "The Presbyterian church in Rushville", giving much valuable historical data, and she is searching for the paper containing the first article.

Anyone who has a copy of the Telegraph for the last week in April, 1877, is urged to get in touch with Mrs. Wilk at once. The articles were by D. M. Stewart, who was well acquainted with the early history of the church, which at that time was 52 years old. The Telegraph was not published very long. Bunting and Bates were the publishers and George Bates was the editor.

Lebanon—Samuel L. DeMars, of New York, was driving through here and stopped at William E. Yelton's grocery for a sack of apples. The store looked so clean and neat DeMars bought the place and had the option signed in twenty minutes.

New Use for Airships

It's an airship age. This is to introduce Lois Seideman of San Antonio, Tex., who will in turn introduce the "Shenzadoah beauty spot"—the latest fad in the way of facial make-up. The style is proving popular with many members of San Antonio's younger set.

ENTHUSED WITH THE OPTIMISM HE FOUND

John W. Davis Looks With Satisfaction on Accomplishments of Second Tour of Indiana

LAST SPEECH AT TERRE HAUTE

Terre Haute, Ind., Oct. 14—Enthusiasm by the optimistic reports given him by Indiana political leaders and deeply touched with the reception he has received while in the state, John W. Davis, democratic presidential candidate today looked with satisfaction on the accomplishments of his second tour of the state.

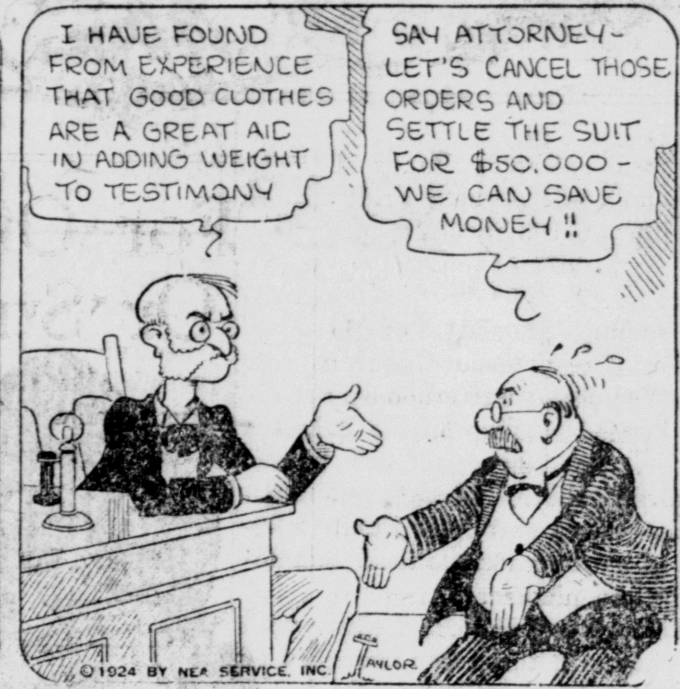

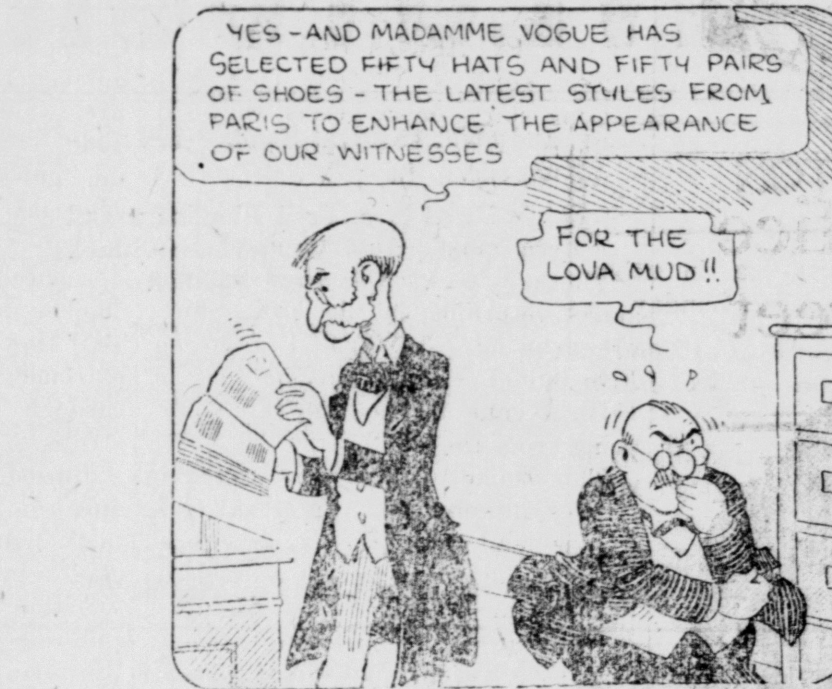

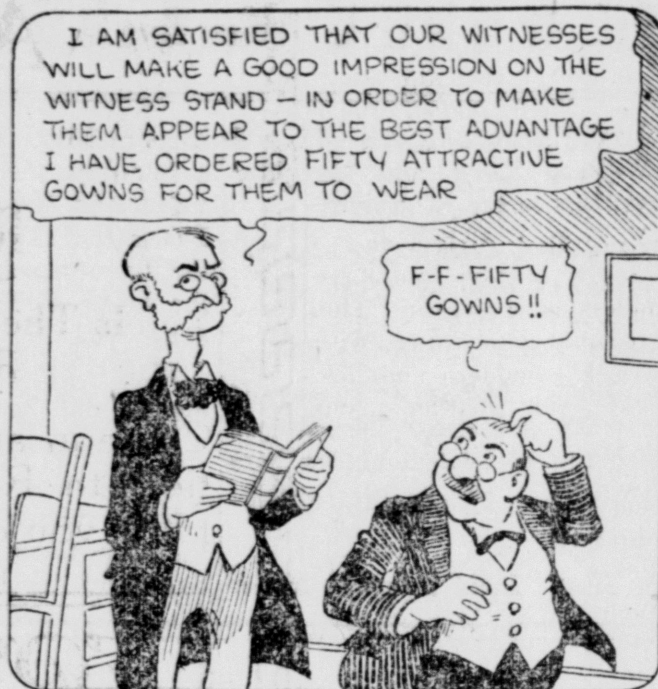

The candidate left here at 9:16 a. m. for Springfield, Ill.

In a speech here last night Davis asked the voters to search their hearts before casting their ballot for a continuation of the Republican administration.

He made specific attacks on President Coolidge and Secretary Mellon.

The indictment of Senator Wheeler which he contended was a "black and dastardly crime" was "procured at a joint conference between the agents of the attorney general and

MOM'N POP

Attorney Belgrave Has Foresight

By Taylor

the secretary of the Republican National Committee," the candidates said.

Enroute with Davis in Illinois, Oct. 14, John W. Davis, democratic presidential candidate invaded Illinois today and planned to lay a wreath on the tomb of Abraham Lincoln upon his arrival at Springfield, shortly afternoon.

UNABLE TO RESIST LURES OF THE DANCE

Prince of Wales Delays Departure From Chicago For Detroit Three Hours to Enjoy More

GUEST AT EXCLUSIVE CLUB

Chicago, Oct. 14—Unable to resist the lure of the dance, the Prince of Wales delayed his departure from Chicago for Detroit three hours, pulling out of here at 3:30 a. m., today.

The train was due in Detroit at noon.

The original plans called for departure shortly after midnight. At that hour the dancing at the Saddle and Cycle Club, most exclusive club in Chicago was at its height, and H. R. H. was loath to go.

He was gratifying with some of the most beautiful flappers and young matrons in the city and when the hour of departure arrived, David Windsor said he would not leave off for anything and the dancing went on until the proverbial dawn.

MARRIAGE LICENSE

A marriage license has been issued to Norman Coleman a farmer and Mrs. Robert Edwards. They are all residents of near Moscow, and were married by the Rev. John Scull.

THIS WOMAN'S MARVELLOUS RECOVERY

All Due to Lydia E. Pinkham's Vegetable Compound

Truman, Minn.—"I was badly run-down, had pains in my side and back, sometimes I could hardly move around in bed. My husband got me Lydia E. Pinkham's Vegetable Compound, and after taking it I was much better. I could do my housework, have a garden, raise chickens, and in harvest time I worked in the field and

helped pick corn. Sometimes I do chores and milk. I took the Vegetable Compound before and after my four-months-old baby was born, and it has always helped me wonderfully. I believe there is no better medicine made for women, and I hope every woman will give it a fair trial."—Mrs. AUGUST R. WIEDERHOFF, R. No. 2, Box 64, Truman, Minn.

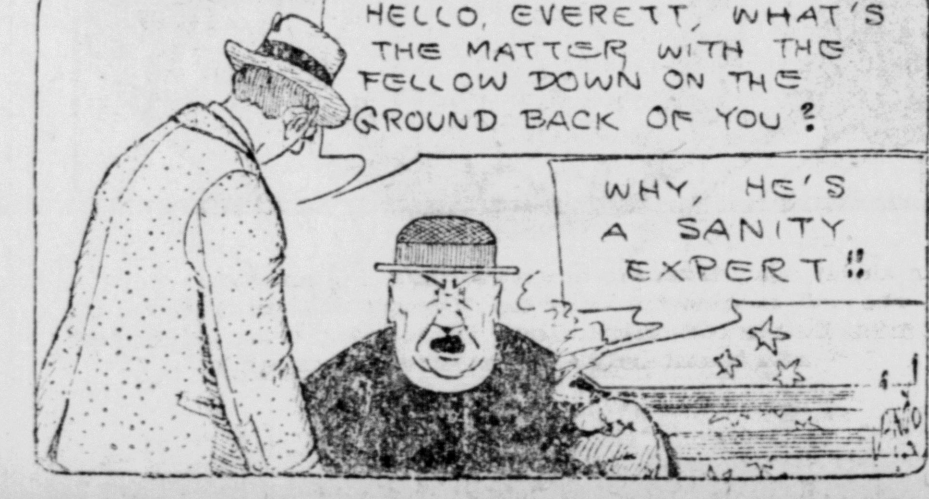

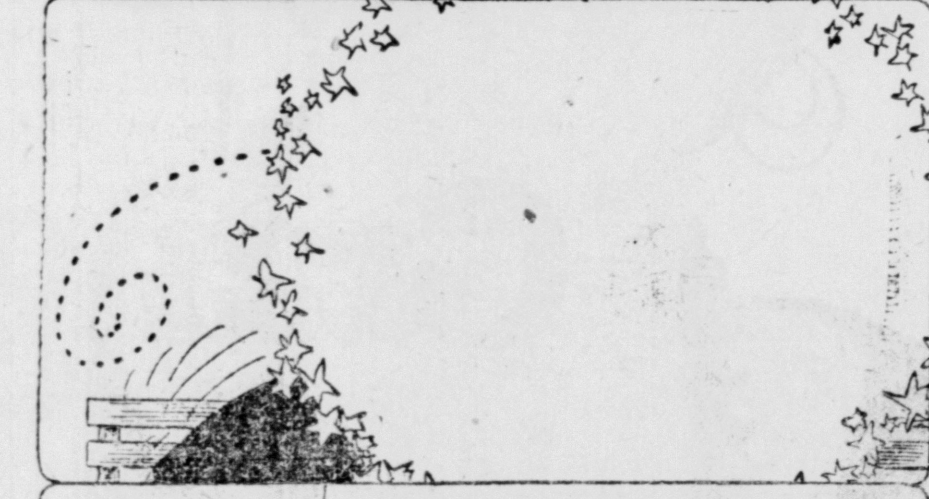

Women suffering from troubles so common to their sex should give Lydia E. Pinkham's Vegetable Compound a fair trial.

Because of remodeling of the Poundstone building, where I have been located, I have moved my office from 231 Morgan street to 207 W. Third street, just around the corner by the express office.

Finally found health in Kellogg's Bran after suffering long with constipation

Mr. Patch writes that Kellogg's Bran "solved his problem." It has solved the problem of constipation—mild and chronic—for thousands of others. It has brought relief when all else has failed because Kellogg's Bran is ALL bran. Nothing but ALL bran can be 100 per cent effective. Read Mr. Patch's letter:

Dear Sirs:
I have been a constant sufferer from constipation and have wondered what was the cause of it. I have tried about all the cereals I could think of, and finally tried Kellogg's Bran. This solved my problem. I feel 100 per cent better and I owe it to your Bran. Thanking you very kindly for this great cereal, I am,
Very respectfully,
Chester C. Patch,
761 Main St., Greenwood, Mass.
For the permanent relief of constipation, eat Kellogg's Bran regularly—two tablespoonfuls daily—in chronic cases, with every meal. It sweeps, cleans and purifies the intestines. It rids them of the dangerous poisons that lead to other diseases. It is guaranteed to bring results, or your grocer will return your money.

Kellogg's Bran, cooked and krum-bled, is delicious with milk or cream. You will like its nut-like flavor—so different from ordinary, tasteless bran. Sprinkle it over the cereals. Cook it with hot cereals. Eat it in Kellogg's Bran muffins, griddle cakes and many other wonderful recipes given on the package.

Kellogg's Bran, cooked and krum-bled, is made in Battle Creek and is served by the leading hotels and clubs everywhere. It is sold by all grocers.

"The Great White Way," a new photoplay that mirrors life on Broadway opened Monday at the Princess theatre. Leading celebrities of the prize ring, the race track, prominent sports writers and other familiar figures of sportdom make their film debut in the picture.

The turf and the ring, along with the leaders in these two branches of sport, are graphically brought to the screen in this picture of life in the great metropolis. One of the big features is a realistic prize fight in which Pete Hartley, well known lightweight contender, battles Oscar Shaw, leading man of the film.

This scene includes such sporting celebrities as Tex Rickard, who appears as promoter; Joe Humphreys, announcer, and Johnny Gallagher as referee. Others who appear around the ring or in training quarters of Madison Square Garden are Irvin S. Cobb, Damon Runyon, "Bugs" Baer, Billy De Beek, "Kid" Broad, Tammany Young and H. C. Witwer, author of the story.

Another thrilling feature of "The Great White Way" is a big race track scene, filmed at Belmont Park on Futurity Day. It discloses a realistic steeplechase, specially staged for the picture, and many other phases of turf life. Earle Sande, world's premier jockey, is another of the many sporting celebrities who appears.

The regular cast, in addition to Oscar Shaw, includes Anita Stewart, T. Roy Barnes, Tom Lewis, Olin Howland, Harry Watson, Dore Davidson, Hal Forde, Stanley Forde and Frank Wonderley.

The Vaudeville program given by Miss Mary Estelle Compton, reader, and Frances and Bonnie Jean Beale, dancers, at the benefit show, "Listen Lester", Monday evening at the Castle theatre, will be repeated again tonight. The little girls received much applause for their program and it is expected that they will be a big drawing card again tonight. The picture show is being given under the auspices of the Tri Kappa sorority.

ARLINGTON

There will be a prayer meeting service at the M. E. church Thursday night.

Ira Long and family left Monday for Florida where they will make their future home. Mr. Long has been a citizen of Posey township all his life. He is a plasterer by trade.

home in Mays Sunday evening after a few days visit in Cincinnati.

Mr. and Mrs. Ralph Conner, Mrs. Brock and Delbert Hobbs attended the Barnes reunion held Sunday at the home of Mr. and Mrs. Charles Jones west of Rushville.

Mrs. William Kiser and daughter are visiting in Connersville.

Mrs. Rebecca Newkirk is visiting relatives in Elwood.

There will be a neppy supper at the new Osborne school house Friday night.

RAIL MERGER PLAN

Washington, Oct. 13—All railroads, east of Chicago and north of the Ohio river would be grouped around the New York Central, the Pennsylvania, the Baltimore and Ohio and the Nickel Plate under the terms of a merger plan reported to have been laid before the interstate commerce commission by the executive of the roads named.

The plan is said to have been sub-

mitted Saturday by Patrick Crowley of the New York Central, Samuel A. Rea of the Pennsylvania, Daniel Willard of the B. and O. and Van Sweringen Brothers of the Nickel Plate, as an alternative to the commission's tentative consolidation plan, which calls for nine systems in the Eastern region.

Russett Bond Scratch Pads 4x5½ inches. 2 for 5c, at The Daily Republican office.

An old tobacco secret re-discovered—

1870—
Wellman's
famous old
secret

1921—
revived for
Granger

1924—
a popular seller
in 32 states—a
quarter-million smokers

A new richness from an old-time process

Made for pipes — cut for pipes
—packed sensibly to save money

NOW it can be told. Three years ago we decided to revive a famous old secret method of mellowing tobacco—"Wellman's Method", it was called.

For three years we have been quietly trying it out—we, and about a quarter-million shrewd pipe-smokers who discovered it for themselves.

No whirlwind campaigns, no "special offers", no extravagant claims; Granger Rough Cut has made good on its taste alone. There could be no better proof of its quality.

Now we are ready to "tell the world".

An extraordinary pipe tobacco. "Wellman's Method"—now ours exclusively—not only mellows tobacco, but "rounds it out"—gives it a new taste, richer and milder.

There's no other method like it, nor any other tobacco like Granger.

And not only differently mellowed, but cut differently—cut for pipes. The Rough Cut burns more slowly, hence smokes cooler—and a pipe-load lasts nearly twice as long.

And finally—notice the package.

If Granger Rough Cut were packed in fancy lithographed tins, it would cost 15 cents.

But wrapped in smart heavy foil, you get this fuller, longer, cooler smoke at a third less cost. Foil instead of costly tin—hence the price.

Too good to be true? Ask any man who has tried it. Better yet—get out your pipe!

10¢

Granger Rough Cut

A Pointer on Tobacco—

The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the fact that Granger is "rough cut" to "cut". Granger is rough cut for pipes, smoke slow and cool—cut for pipes, not cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.

LIGGETT & MYERS TOBACCO CO.

POULTRYMEN TO MEET OCT. 14-16

More Than Three Hundred Men and Women Expected to Attend Fall Meet at Purdue

TO DEDICATE NEW BUILDING

Program Has Been Completed and Biggest Meeting Ever Held by Hoosiers is Expected

More than 300 Indiana poultry men and women are expected to attend the annual fall meeting of the Indiana State Poultry Association which will be held at Purdue University, October 14, 15 and 16. The program has been completed and the biggest meeting ever held by Hoosier poultry interests is expected. Dedication of the new poultry building at the University, which was occupied July 1, and which the state association was instrumental in obtaining will be a big feature of the three day program.

The first day has been set aside for baby chick producers and the entire program will deal with various topics of interest to those engaged in this phase of the poultry business. A baby chick supper conference will be held that evening. The second day will be known as Purdue Day when results of experiments will be given in detail to all attending. The new building will be dedicated and an inspection trip will be made over the poultry farm. The annual association banquet will be held the evening of the second day. Both of these banquets will be in the new million dollar Memorial Union Building of the campus. The last day will be known as breeders' day with the men on the program from the farms of Indiana.

Breeding of dual purpose fowls for high egg production will be one of the interesting topics to come before the meeting. Live birds with high egg records, as shown by the trap-nest, will be on exhibit to show that others besides Leghorns can fill the egg basket. A practical plan for the improvement of the farm flocks will be outlined discussion of the state egg laying contest and other extension projects will be on the program. Prof. A. G. Phillips, head of the university poultry department will speak on his recent trip to Europe to attend the World's Poultry Congress and of agricultural conditions there.

"There are two problems prominently before the hatchery operators of Indiana, problems which must be faced squarely and frankly," said L. L. Jones, secretary of the association, in an announcement of the meeting. "First, is testing for bacillary white diarrhoea practical for a hatchery? Is one test sufficient? Is the test reliable? Can it be applied to pullets as well as hens? Can a hatchery as a business proposition, afford to test or must testing be left to the individual breeder."

"The second problem is that of accredited hatcheries Wisconsin, Michigan, Illinois and Ohio are taking up this work, and it is a topic to be taken up at our meeting. Both of these problems are of importance to the man who buys baby chicks and to the breeder of poultry who has to meet this competition. Hence, no poultryman should miss this afternoon session even though not a hatchery operator."

Owners of all the large hatcheries and commercial egg farms in the state are expected to attend the meetings and others connected with

SMALL VS. BIG BEGINNINGS

Young Farmers Urged to Take up Pure Bred Business

Many young farmers hesitate to go into the pure bred live stock business because so much emphasis has been laid on extensive methods and rapid progress of the larger and more influential breeders. At this particular time it would be well if the young farmers of Rush county would dispel this idea and start a pure bred herd of hogs.

A young man who could purchase a pure bred sow at one of the Rush county hog sales this fall, and by giving her reasonable care, could have a good herd within the next few years. His investment does not need to be a large one, but it can develop in proportion to his experience. This is not the quick way to build, but it is the safest and soundest way for most men in any business to develop.

SPRAYING BETTER THAN DUSTING IN ORCHARDS

Indiana fruit growers interested in the use of dust material for the control of orchard pests, should know that dusting cannot yet be recommended as a substitute for the full complement of liquid sprays in the program which they are now following. In protecting apple trees from serious fungous troubles such as scab and blotch, liquid spraying will be found more dependable under Indiana conditions than sulfur dusting.

This is the statement contained in Bulletin No. 283, "Liquid Lime Sulphur versus Sulphur Dust for Apple Spraying" just off the press of the Agricultural Experiment Station of Purdue University. Its authors, F. P. Cullinan and C. E. Baker, have done considerable experimental work with the two methods of disease and insect control and the results are contained in the bulletins.

In the tests reported apple scab was not satisfactorily controlled with either liquid sprays or dusts if the applications were not timely with reference to rains and general weather conditions. The pink or cluster bud spray, may in some seasons be too late to protect the fruits, leaves and floral parts against early scab infection. The pre-pink spray which is applied when the first leaves expand in the blossom cluster may prevent this early infection. Where apple scab was serious this application has proved a highly desirable addition to the ordinary scab schedule which now provides for the pink spray, petal fall spray, and the spray two or three weeks after petal fall.

Dusting has controlled codling moth quite effectively and in orchards where apple scab, bitter rot and blotch are not serious, dusting may prove a time saver in the later summer applications that may be applied primarily for the control of this insect.

Dormant liquid sprays are still essential for the control of San Jose Scale.

the allied industries are invited. C. L. Manwaring, of Montone, is president of the association.

Gary—The hand of the law slapped swiftly here. Edward St. John and Robert King, both 18, were started on their way to prison to serve from three to five years sentence inside of twenty-four hours after pleading guilty to stealing an automobile.

Black Smoke Is Unburned Coal

Have you ever stopped to consider the meaning of the Black Smoke that rolls from your chimney? Perhaps you have not realized that this BLACK SMOKE is CARBON and this CARBON is a great heat element in the combustion of coal. A great deal of carbon is lost through the chimney in the form of gases and soot.

To eliminate this needless loss—to get the most from the coal you burn—to make your home a comfortable home—to give you the advantages of the most even and convenient heating at a low cost—GLOBE HEATING STOVES were designed and built.

You should investigate the construction of Globe Heating Stoves before you make a purchase. If time is any proof of the quality, remember they have been sold in this store 20 years.

FOURTEEN STATES IN BIG SWINE DISPLAY

Ninth National Show, Closing at Peoria October 4, Was Satisfactory to All Breeders

TON LITTER WORK FEATURED

The Ninth National Swine Show was held in Peoria, Ill., Sept. 29 to Oct. 4th. Most of the state fair winners from the eight breeds of swine were assembled in the show, which is of national scope. There were fourteen states which contributed to the show.

From the breeder's standpoint the ninth show was entirely satisfactory. They had less to say this year than a few years ago concerning type. Interest in that subject persists and strong views in regard to it will continue to be expressed, but economical production is receiving special attention of most hog men. They are engaged in or advocating ton litter work with an increasing enthusiasm.

The Indiana breeders ranked second among the fourteen states in taking away the championship winnings. Grand champions went to the states in the following order: Iowa, Indiana, Minnesota, Michigan, Illinois, Champions—Iowa, Indiana, Illinois, Minnesota, Michigan, Ohio; Reserve Champions—Iowa, Indiana, Ohio, Illinois, Nebraska.

PURDUE ADDS TO GUERNSEY HERD

In keeping with the increased interest that has developed in Guernsey cattle in Indiana, due to the growth of this breed in the state Purdue University recently added five two-year old heifers to the Guernsey herd. It is the plan to bring the number of Guernseys in the Purdue herd up to that of the Holstein and Jersey breeds in the near future.

The foundation of the university's Guernsey herd was laid five years ago when six two year old heifers were bought from an importation just landed from Guernsey Island. Some good records were made by these heifers. Imp. Jeanette of Seignurie 94269 produced 522 pound of fat in "B" class and Imp. Rosetta III of Annevilles, 94254 made 483 pounds in the same class.

A short time ago in Fond du Lac county, Wisconsin, five two year old heifers were bought to increase the size of the university herd. Considerable attention was paid to the type and breeding of these heifers.

B. F. Shridan, secretary of the Fond du Lac county Guernsey Breeders' association spent considerable time in helping locate these heifers and a large number of the good herds of that county were visited.

Heifers were obtained from the herds of A. W. Hargrave, Ripon; Herman J. Duecker, Ikel; J. C. Harch, Rosendale; J. H. Beirne, Oakfield; and B. F. Shridan, Fond du Lac. These heifers were bred to some of the best bulls in that county and most of them are due to freshen soon. They will be put on test as soon as they freshen and some of them show splendid indications of ability to produce.

Washington—John M. McCafferty, field agent for the Indiana reformatory, has started a war on constables. He was mistaken by members of a horse thief detective association for a bootlegger and without a search warrant they demanded he turn over his grip for inspection.

SELECT POTATO SEED AT DIGGING TIME

By F. C. GAYLORD
Horticultural Extension Staff Purdue University

"I have always selected my seed at digging time and as a result I have doubled my yield in the past five years," thus summed up J. B. Shively a northern Indiana potato grower who for more than ten years has been saving his own strain of Rurals.

Shively's potatoes, when planted along side of the best strains of Certified seed yielded as well as they did, thus proving that any farmer having a good late potato patch planted from selected or disease free seed can by careful selection, keep his seed in the corn belt for a period of years without its losing any of its vigor or ability to produce big yields.

W. W. Stauffer another Indiana farmer who has averaged over 325 bushels per acre for the past three years has also developed a real strain of Rurals by careful selection of the best hills at digging time.

Stauffer's method is to dig a few rows at a time by hand and then save the hills which have a large number of uniform, healthy, good tuber in them. Of course, Stauffer's potato field is planted to good seed and carefully tended. Thus by constant selecting from the best hills year after year the seed has gradually become better instead of worse as in the average farm patch.

Any farmer who has planted certified late potato seed and expects to keep his own seed supply should by all means save at digging time enough potatoes, hill selected with which to plant the next year's potato patch. After the potatoes are in the hill one can't tell whether the little ones came from good or poor hills; this is easy when you see the hills as they are dug.

HOMER

Mr. and Mrs. Herbert Branam and daughter and Miss Norma Miller spent Sunday with Omer Mahan and family. In the afternoon they motored to Laurel.

Mr. and Mrs. Flem Burton and son spent Tuesday evening with Mr. and Mrs. William Ellison and family.

Mr. and Mrs. Osa Ellison and Mr. and Mrs. Ert Dearing and son attended church services at Arlington Sunday.

Mr. and Mrs. Charles Ellison and daughter Geraldine visited Mrs. Olsen Orme Sunday afternoon.

Mr. and Mrs. Henry Wilson spent the week-end with his daughter, Beatrice Orme.

Mrs. Lawson is reported to be seriously ill at her home here.

Mr. and Mrs. Zeno Hodge celebrated their fifth wedding anniversary with a weiner roast Wednesday night.

Mr. and Mrs. Ralph Gosnell spent Wednesday evening with Wash Gosnell and daughter Ethel.

Mr. and Mrs. Russell Johnson and sons Wayne and Eugene, J. S. E. Hilligoss and Mr. and Mrs. Ollie Brown of Rushville spent Sunday visiting in Alexandria.

Mr. and Mrs. William Mitchell entertained their daughters and husbands Sunday. The guests were Mr. and Mrs. Roy Miller and son Roy, Mr. and Mrs. Emlin Davis and son Loren, Mr. and Mrs. Bert Craig and daughter Viola and husband of near Morristown.

Mrs. Otis McMullin of Shelbyville spent Thursday night with Mr. and Mrs. Zeno Hodge.

Mr. and Mrs. William Mitchell entertained their daughters and husbands Sunday. The guests were Mr. and Mrs. Roy Miller and son Roy, Mr. and Mrs. Emlin Davis and son Loren, Mr. and Mrs. Bert Craig and daughter Viola and husband of near Morristown.

Mrs. Otis McMullin of Shelbyville spent Thursday night with Mr. and Mrs. Zeno Hodge.

The Young Married People of near this vicinity will hold a bible meeting every two weeks on Sunday night at the Christian Union church with Mrs. McMullin as the regular teacher. Every young married couple is urged to attend.

Mr. and Mrs. Oren Veatch spent Sunday with Billy and Sarah Branam.

Mrs. Laura Warfield will spend the winter with her sister, Mrs. Johns of near Manilla.

Miss LaNelle Krammes spent Saturday evening with Miss Beulah Willis.

There was a large crowd that attended Rex Kemple's hog sale. He will move soon to Elmer Hutchinson's farm north of Arlington. Russell Orme will move where he lives.

Mr. and Mrs. Tom Huffard spent last Sunday evening with Mr. and Mrs. Bert Jordan.

Mr. and Mrs. Ralph Brown and daughter Mary Marjorie spent Wed-

What Have You Got at About \$25?

When that question is asked we don't reply orally, we answer by bringing out suits — keep on bringing out suits — and continue bringing out suits until you have said "enough."

In short, while \$25 is a rather short figure in most stores for anything worth wearing — at Knecht's O. P. C. H. it allows you to be important and as exacting as though you had driven up in a "Packard" and said "James, bring in those \$10,000 bills out of the back seat!"

Record Fish

This is believed to be the largest sturgeon ever caught in northern waters. It was taken from Sturgeon Bay, Lake Huron, near Mackinaw City, Mich., with nets. It measured seven feet and weighed 198 pounds.

flock has gradually improved until it is now rated as one of the best college flocks of the breed in the United States.

USES HORSE CART TO PICK HIS SEED CORN

Cyrus Willey Goes Down The Rows and Makes Selection, Rather Than Use Old Methods

JUST NEEDS ONE HELPER

The majority of farmers approve of the idea of going through their fields early in October to select the most mature ears direct from the stalk. But three out of every five farmers get weary after the first half day, if they do not get approximately five or more bushels of seed gathered, which is an almost impossibility when it must be carried out the old way.

Cyrus Willey, who lives southeast

EVERGREENS MAKE GOOD WINDBREAKS FOR FARM

By C. L. BURKHOLDER
(Horticulturist, Extension Staff, Purdue University)

Each year sees a further reduction in the forests in Indiana. This naturally provides ideal conditions for the cold winter winds to sweep along for miles before being checked by an area of woods. The average farm home, barns and feed lots can be made 10 percent warmer and more comfortable if an artificial windbreak of evergreens is planted to the North and West of the farm buildings. Practically all varieties of evergreens are best planted in the fall, preferably the latter part of September or early in Oct.

There are two varieties that can be recommended for Indiana planting. One is the well known Norway Spruce, the other the Austrian Pine. Both make a fairly rapid growth which is dense enough to make a good kind break. Either of these varieties should be planted about 12 feet apart if set in a single row. A very good method of planting is to set a double row, staggering the second row and placing the trees about fifteen feet apart.

An evergreen windbreak will make a much better start if the trees are kept hoed or heavily mulched with straw for the first five or six years. Never use fresh manure on evergreens.

The large sizes of these varieties are rather expensive but small trees ten to twelve inches high can be purchased reasonable and will soon be growing rapidly if given the care suggested.

of Homer, has arranged a box containing approximately 5 bushels, on an old corn cutter. He hitched a horse to this and drives down through the field and with one assistant he gathers the mature ears from the pair of rows on both sides of the cart.

Many Rush county farmers who are selecting a quantity of corn before shucking time can well afford to model a cart after that of Mr. Willey's.

Legansport—A memorial tablet here dedicated a year ago Armistice day by war veterans was defaced by unknown vandals. Three gold stars were torn off the tablet removed and stamped on.

Columbus—Fearing the slayer of her son would not be sufficiently punished, Mrs. Benjamin Hardin, mother of Oscar Cuttlinger, killed at Edinburg, has retained personal attorney to assist the prosecution of Elmer Pruitt, in jail here charged with the shooting.

CAN CONTROL SAN JOSE SCALE

Oil Sprays Have Been Found Effective in Control of Scale of Apple Trees in State

PREFER SPRING TREATMENTS

Boiled Lubricating Oil Emulsion and Commercial Miscible Oils Are Recommended

Lafayette, Ind., Oct. 14.—San Jose scale, perhaps the worst orchard insect in the Middle West, can be controlled with miscible oils, lubricating oil emulsions and under certain conditions with lime sulphur sprays, according to the findings of a group of entomologists who met recently at Vincennes to go over the experimental results of the past four years on this work in both Indiana and Illinois. Prof. J. J. Davis, head of the entomology department of Purdue University Agricultural Experiment Station; R. A. Porter, government entomologist at the station at Vincennes, W. P. Flint, of Illinois, and A. J. Jackman from the Arkansas station were present. They found that oil spray has obtained complete control in Southern Indiana when the infestations have been unusually severe and persistent. Growers in Northern Indiana have been successful with lime sulphur when applied thoroughly. The following statement was issued:

"Experiments the past season corroborate former results. Rather general use of lubricating oil sprays recommended by Purdue has given results this year. For scale control on apple trees in Indiana and Illinois the oil sprays applied in the fall or spring when the trees are fully dormant and the temperature about 40 degrees are recommended, spring treatments being preferable.

"The oil sprays found effective are the boiled lubricating oil emulsion and all of the commercial miscible oils that have been tested the miscible oils to be used at the rate recommended by the manufacturers and the lubricating oil emulsion at 2 per cent strength as recommended in the government and state publications. In heavy infestations a 3 per cent emulsion is recommended. The cold mixed oil emulsions have also proven effective but more difficulty has been experienced in making stable emulsions.

"For the control of the scale on peach trees, the results of experiments to date show no injury to trees from dormant applications with 2 or 3 per cent lubricating oil emulsion. The oil sprays alone are ineffective as fungicides and although tests to date indicate the possible value of a combination oil and Bordeaux spray for the control of scale and peach leaf curl, the results are not sufficiently conclusive to permit recommendations. If oil is used on peach the usual lime-sulphur applications for the peach leaf curl should be made in addition to assure complete control. Except where scale is threatening or increasing lime-sulphur is preferable for peach trees because it will usually control light infestations of scale and is effective against peach curl."

For further details for the making of lubricating oil emulsion or other information on the control of the San Jose scale, write the Department of Entomology, Purdue Agricultural Experiment Station, Lafayette, Indiana.

COMMITTEES FOR RUSH COUNTY CORN SHOW

The following committees have been appointed for the annual Rush county corn show to be held in Rushville January 6, 7 and 8, 1925.

Executive—Link Gary, Chairman; Newton Halterman; Hugh Mauzy, Secretary-treasurer.

Corn Show—Newton Halterman, Supt.; Clifford Mauzy, Secretary.

Program—John Tittsworth, Chairman; Robert Mansfield, Mrs. Earl Matney.

Publicity—Will Feudner, J. M. Culp, Dewey Hagen.

Finance—Hugh Mauzy, Horatio Havens, Jesse Peters.

Ladies—Mrs. Oscar Rees, Mrs. E. C. Davison, Mrs. T. Benton Henley.

Location—Lon Link, Charles Taylor, Sidney Hunt.

Arrangements—Donald Alexander, Chester Jinks, Newton Halterman.

Decorations—Paul Imel, Harry McMillin, Earl Osborn, Paul Allen, Willard Amos.

Boy's Corn Club—Carl Ging, Paul Imel, John Hufferd.

Boy's Potato Club—W. O. Swain, Tom McMann, Luther Gwinnup.

Premium List—Howard Ewbank, Omer Trusler, Clyde Archey.

Selection of Judges—D. D. Ball, Harold Beall, Orville Brooks.

Ripley Township—Jesse Henley, Lowell Moffitt, James Terhune.

Posey Township—R. Y. Jordon, A. J. Reddick, W. O. Swain.

Walker Township—Paul Imel, Cyrus Wiley, Carl Dearingier.

Orange Township—Hugh Archey, Argus Wagoner, Robt. Campbell.

Anderson Township—Clyde Archey, Samuel Hiner, Paul Glisson.

Rushville Township—Donald Alexander, John E. Miller, Charles Winship.

Jackson Township—Emer Porter, Orville Leisure, Frank Sample.

Center Township—Claude Sears, Floyd Hiner, Clifford Brown.

Washington Township—Carl Ging, Geo. Ertel, Ed. Aiken.

Union Township—Robt. Longfellow, Allen Blackledge, Harvey Arnold.

Noble Township—W. E. Logan, Walter Norris, Will Amos.

Richland Township—Roscoe Linville, Vern Lewis, Walter Patton.

Juggernaut

Frank Bamed, 26, an electrical contractor of London, Ont., is charged with deliberately driving his automobile on a sidewalk at Niagara Falls, Ont., and killing Smyrle Muirhead. Muirhead and his wife were out walking with Bamed's estranged wife. Bamed escaped and police have failed to find him.

Evansville—Humane officer Eldridge Shrode received a call that a baby had been crying in a home all morning since one o'clock. He found the baby was a parrot.

PURDUE PRODUCES 3 TON LITTERS

An Average of 242½ Pounds at Six Months Made by 30 Pigs in Purdue Ton Litters

HERDSMAN GETS MOST CREDIT

Poland China Litter Gets Credit of Reaching Heaviest Weight Per Pig at 180 Days

An average of 242½ pounds at six months was made by the 30 pigs in three ton litters produced by the Purdue University School of Agriculture during the past season in the Hoosier Ton Litter contest. The total weight of the three litters at 180 days was 7294 pounds. A Chester White litter of nine pigs weighed 2182; a Duroc litter of eleven pigs 2500, and a Poland China litter of ten 2612 pounds.

To Clifford Breedin, herdsman of the Purdue hogs, must go a large part of the credit for sending over the ton mark a litter in three different breeds. During the farrowing season he was at the hog barn almost day and night, caring for the sows and young pigs.

For several days before the farrowing season started last spring Breedin was busy cleaning the farrowing pens and individual houses where the sows and pigs were put after they were taken from the central house. Then followed a thorough disinfecting of the quarters. The sows were clean when they went into the clean farrowing quarters.

From the central farrowing house the sows and their litters were moved out to lots where they had been planted last fall. Each year at the University Farm the hog lots are cultivated and sown to Dwarf Essex rape in the spring and to rye in the fall, providing fresh pasture for sows and their litters, pasture that is not infected with the parasites and disease germs that kill off or stunt so many pigs, particularly spring pigs.

The sows were fed a ration of corn, shorts, oats, and tankage while they carried their litters last winter. Just before farrowing time the proportion of corn was reduced and some bran was added. After farrowing a limited ration was fed for several days, gradually increasing to about all the sows would eat twice a day by the time the pigs were two weeks old. From that time until weaning the sows were fed a liberal grain ration.

The pigs were started on rolled oats when they were about three weeks old. A week or ten days later a mixture of rolled oats and cracked corn replaced the rolled oats. By the time the pigs were weaned they were on a ration of corn, shorts, and tankage, and of course they had the run of rape pasture.

Up to weaning time all the pigs on

Picturesque Sleeves

THE picturesque sleeves are the most noticeable feature of this brown more frock. They are of pleated chiffon a few shades lighter than the dress. The chiffon is also introduced in the under panel and the scarf that is a part of the outfit. Two very large buttons of brown composition serve as a trimming and also a fastening. This is a very charming outfit for afternoon tea or the matinee.

the University Farm were fed alike. From that time on the pigs in the three ton litters were put on a ration of corn, shorts and buttermilk, with the run of rape pasture.

To the Poland China litter must go the credit of reaching the heaviest weight per pig and for the litter at 180 days. But to the Duroc and Chester White litters go credit for coming through in shape to provide good gilts to retain in the University Farm breeding herds, and providing barrows that are being fitted for the International Livestock Exposition in December.

"Our object in producing these litters was to demonstrate that ton litters can be produced from any breed," said Dean J. H. Skinner of the School of Agriculture in commenting upon the litters. "We expect to continue the lines of breeding represented by the litters, and build up breeding herds out of ton litter stock."

HOW TO MANAGE DAIRY BULL IN WINTER TIME

(Agricultural Extension Department Purdue University)

With summer waning, the dairyman must make some decision about caring for the herd sire during the coming winter. Most successful breeders keep the bull away from the herd, but too often he is confined in a dark, dirty stall, without exercise, from the first cold day in fall until the first nice day in April. Such treatment retards the proper growth and development of the younger males and quite often weakens the breeding powers of the more mature sires. Plenty of exercise, protection from changing weather, and a moderate ration will keep the bull in good breeding condition.

Most farmers in Indiana can easily arrange to properly care for their herd sire during the winter. A strong

stall can be built in one corner of the cow barn. Outside the barn a strong paddock can be built and directly connected with the stall in the barn by means of an open door. In case one does not care to build a paddock a cable can be run from the stall in the barn out through the door to some point about fifty feet from the barn. This cable can be run along the ground or overhead. A short, strong, chain can be run from the ring in the bull's nose to a ring on the cable.

The paddock or cable will allow for plenty of exercise and since it is directly connected with the stall in the barn, the animal can secure protection during the time of inclement weather. One rule to follow in erecting the stall or paddock is to refrain from making the structure solid. Allow the bull an opportunity to see other cattle at all times.

No mature bull should ever be trusted, and it is a mistake to handle

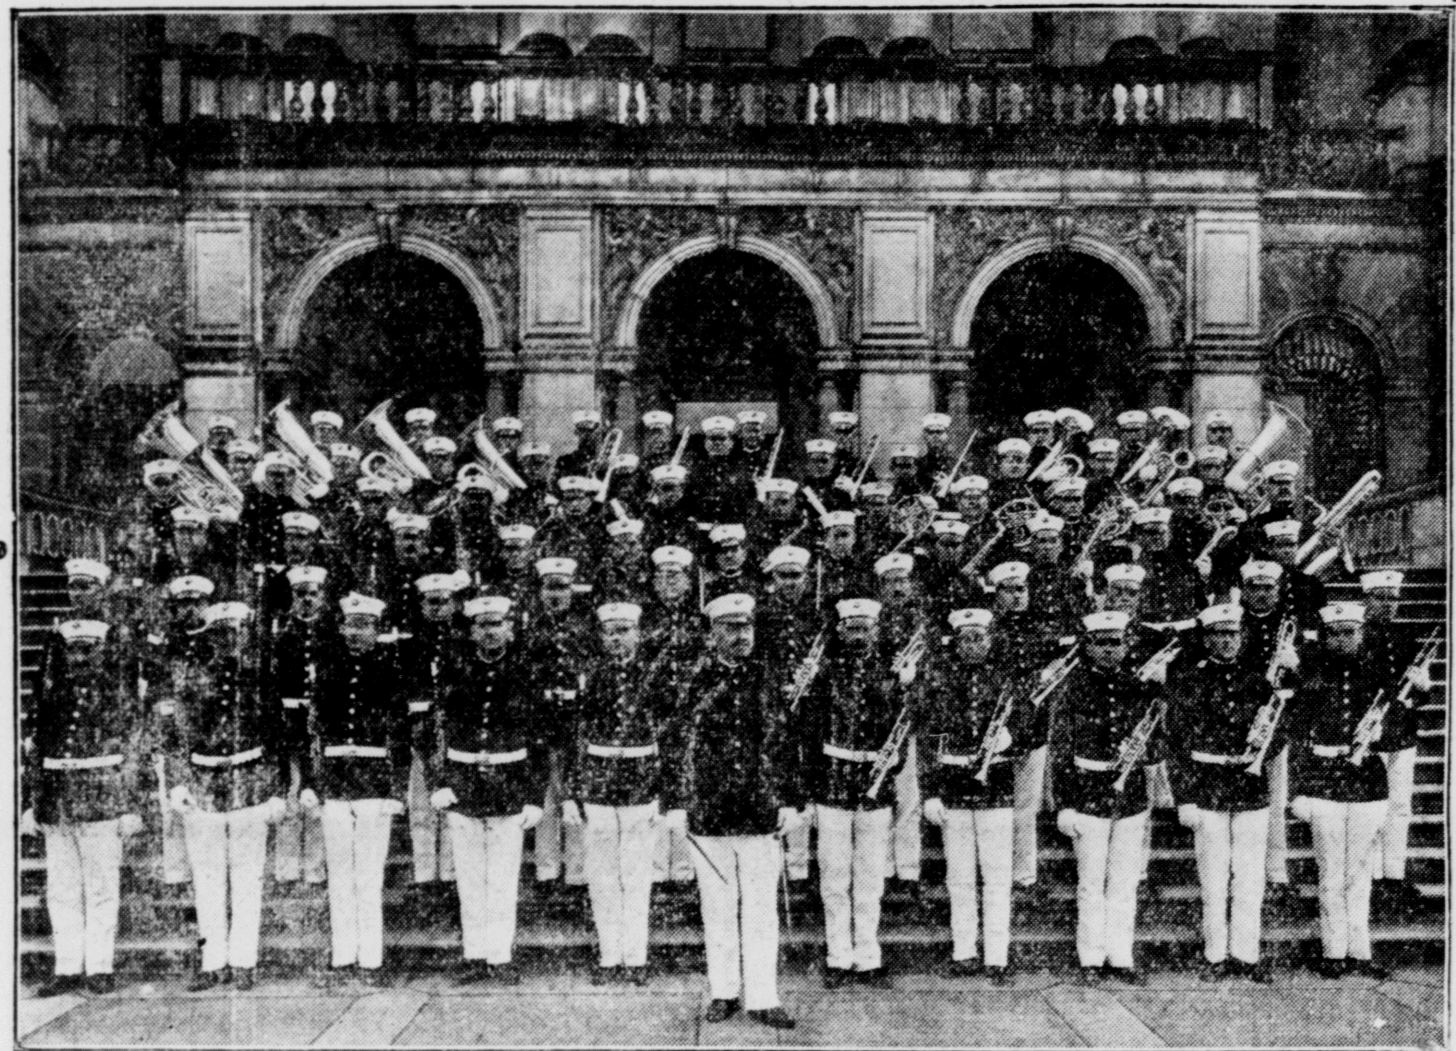

them except when absolutely necessary. When handling, always use a strong staff and never allow the bull to gain the upper hand.

A good ration, consisting of plenty of legume hay, a limited amount of silage, and a small amount of a grain mixture made up of 400 pounds ground corn, 200 pounds ground oats and 100 pounds oil meal, should be fed throughout the winter. Arrangements should also be made to provide plenty of clean, fresh water at all times.

Richmond—"My husband is a forger and he's trying to get me locked up to keep from voting. Am I a Ka Kluxer? I'm not telling you what I am, but if I die, you see they bury me in my white robe. Get me?" These were the instructions that Mrs. Myrtle Charles gave to police chief Everman when arrested on a charge of public intoxication.

THE UNITED STATES MARINE BAND

Sponsored by The Daily Republican. Benefit Rush County Child Welfare & Boy Scouts

The United States Marine Band at the Entrance to the Congressional Library, Washington, D. C.

RUSHVILLE Memorial Park Coliseum—Matinee and Night Wednesday, October 29th

3:30 Afternoon.

8:00 Night

Band Rarely Heard Outside National Capitol

Until the Fall of 1911 it was only at intervals of from ten to twenty years that the Band had been heard outside of Washington.

By Courtesy of the President

President Coolidge has granted permission for the present concert tour by the United States Marine Band. Like his predecessors, President Coolidge takes the position that such tours being made at a season of the year when the Band's absence from Washington will not interfere with any of its official duties, afford much pleasure to those citizens who do not have the privilege of hearing their Band in Washington; that the visits of the Band not only promote the patriotic pride of our people, but their concerts are also of educational value.

One of the Greatest Military and Concert Bands in the World

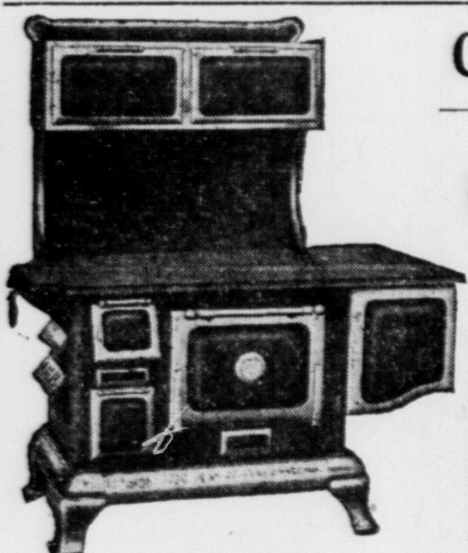

Accepting none but those musicians who can pass successfully the most rigid tests, equipping them with the finest instruments that money can buy, rigidly adhering to Departmental regulations requiring punctual attendance at full two hour rehearsal on five mornings of each week, and with an average term of service of eighteen years for its entire present membership, it is not surprising to hear that many noted Europeans who have heard the Band at the great state functions at the White House, have pronounced our own United States Marine Band one of the greatest military and concert bands in the world.

In Existence 123 Years

Organized in 1801, almost at the birth of the nation, the Band has had in all eight leaders — Tyre, Pons, Scala (who held the position for forty years and firmly established the Band's reputation), Fries, Schneider, Sousa, Fanciulli and finally William H. Santelmann, who has been the conductor since 1898.

Schedule of Prices

Adult, Afternoon Reserved	\$1.25	Adult, Night Reserved	\$1.50
(Only a limited number of reserved seats in the center section are available and those desiring same will exchange their regular tickets at The Daily Republican office by paying the extra charge.)			
Adult, Afternoon or Night, General Admission	\$1.00		
School Children, over 5 years old, Afternoon	.35		
(School children from the out township schools who can not get in for the afternoon performance will be admitted at night on their 35c tickets.)			
School Children, over 5 years old, Night	.50		
Reserved Seats for Children will be sold in a very limited number for both performances. Exchange the regular tickets at The Daily Republican office by paying the extra.

ZEPPELIN ZR-3 IS DRAWING HERE

Her Wireless Cracking out Cheer-
ing Messages. Giant Dirigible Con-
tinues Journey Safely

STORMS BREWING IN PATH

Local Tornado Moving Northward
and Trouble is Expected to be
Avoided Successfully

Her wireless cracking out cheer-
ing messages that all aboard are
well, at least three of her four mo-
tors roaring rhythmically and speed-
ing her towards her goal, the Zepp-
elin ZR-3 with four Americans and
28 German officers and men, was
drawing near the United States to-
day.

Storms were brewing in the dirig-
ible's path and a local tornado was
reported by the U. S. Navy weather
service at 3 a. m., but it was pointed
out that the disturbance was moving
northward and that the Zeppelin was
expected to avoid trouble.

At 8 a. m., calculating the ZR-3's
diminished speed, her commander,
Dr. Eckener had out the airship down
to 40 miles an hour—the dirigible
was approximately 1,000 miles from
America, with some 1,700 miles to
cruise before reaching Lakehurst N.
J.

American warships were scurrying
to positions whence they best could
aid the ZR-3 with reports of weather
conditions, which now are the only
cause of concern. The U. S. Army
transport Henderson and the cruiser
Milwaukee were two which
"spoke" to the Zeppelin after the
North German Lloyd liner Stutgart,
reported the airship's position.

If nothing occurs to check her
speed, the ZR 3 should arrive at
Lakehurst some time tonight or ear-
ly tomorrow morning, according to
calculations.

Washington, Oct. 14—Speeding
from the Azores Islands to Lakehurst,
N. J., the ZR-3 at 8 a. m., today was,
1200 miles off New York, according
to estimates of navy department au-
thorities.

Still without direct communication
with the giant dirigible, officers
based their estimates on two long
dispatches received from Captain
Steele, American observer aboard at
4:15 a. m., today, in the Boston na-
vy yard.

Steele said the ship had turned
her blunt nose due west after passing
the Azores, eliminating the Berna-
das from her route and was pushing
her way through the air at a good
speed with three engines. The others
have been cut off to save fuel.

A slight accident gave the crew
a few anxious moments when one of
the gas cells was torn over the A-
zores but it was speedily repaired,
Steele said. The rip came when the
ship soared down from 5,000 feet to
which it had risen to valve off some
gas. Steele said the tear was due to
descending too rapidly.

TO UNVEIL MEMORIAL

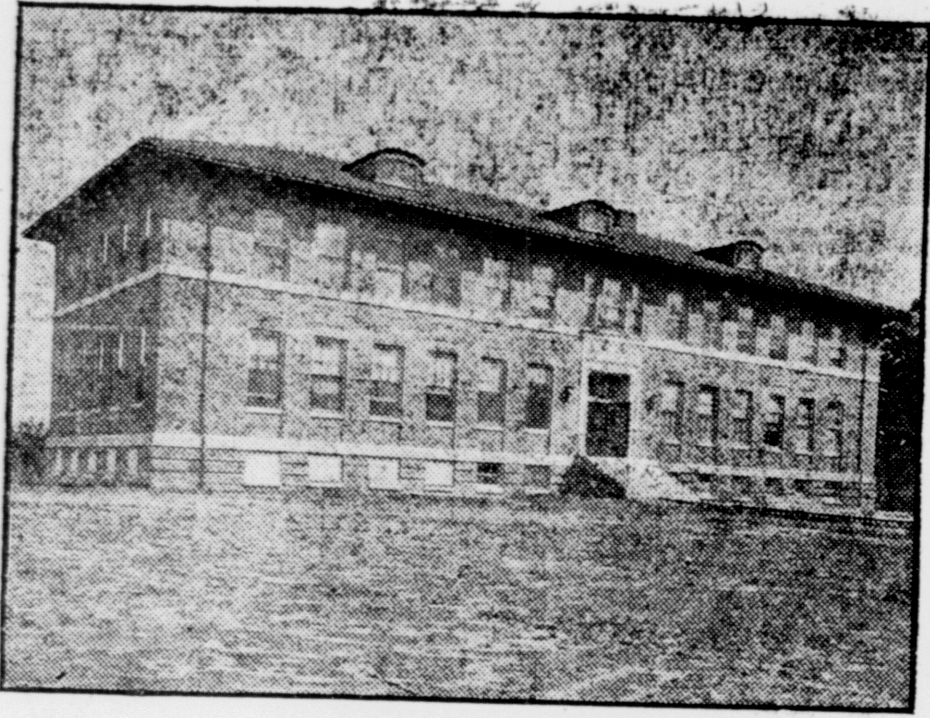

The unveiling of the Gen. Lew
Wallace Memorial will take place at
Brookville next Sunday, according to
a notice that has been received here.
An all day meeting and basket dinner
will be held in the little brick church
in Brookville cemetery, in connection
with the unveiling. The affair will be
held under the auspices of the Ki-
wanis club and Brookville Historical
Society.

Flo's Choice

She's another "most beautiful girl"
Miss Fannie Lupkin, 19-year-old

at Little Rock

PROMINENT POULTRY MEN WILL ATTEND DEDICATION AT PURDUE

Lafayette, Ind., Oct. 14—Promi-
nent poultry men from over the
country, in addition to a host of
poultry raisers from over Indiana,
are making plans to attend the ded-
ication of Purdue's new Poultry
building, one of the finest structures
of its kind in the country, Wednes-
day, October 15. The program for the
dedication has for its principal
speaker Prof. James E. Rice, head of
the poultry department of Cornell
University, whose subject, "Indiana's
Contribution to the Poultry Indus-
try" should be appreciated by Hoos-
ier poultry men.

The program is to open at 1:30 o'-
clock Wednesday afternoon, and will
be called to order by President Ed-
ward C. Elliott, of Purdue, who will
preside. Henry W. Marshall, president
of the board of Trustees of the Un-
iversity, will then make the presen-
tation of the Poultry buildings to the
poultry industry of Indiana. Accept-
ance of the building will be made by
C. L. Manwaring, Mentone, president
of the Indiana State Poultry asso-

ciation, Director George I. Christie
will make the acknowledgement for
the Agricultural Experiment Station;
Dean John H. Skinner for the School
of Agriculture and Prof. A. G. Phil-
lips for the Department of Poultry.

The new poultry building which is
of reinforced concrete and brick has
three floors, including basement, and
contains laboratories, class rooms
and offices for members of the staff.
It was completed recently at a cost
of approximately \$80,000. Situated
only a few feet from the main ser-
vice building on the poultry farm and
near the principal laying and brooder
houses, it offers ideal advantages for
poultry instruction.

The dedication program on October
15, will be the feature of the annual
session in Indiana from October 14
to 16. One of the most complete pro-
grams ever presented at a state
poultry convention has been ar-
ranged for the 1924 meeting, and as
indicated by requests for information
regarding the convention, a banner
attendance has been practically as-
sured.

MANILLA SHOW AWARDS MADE

Walker Township Girl's 4-H Club
Held Interesting Exhibit in School
Last Friday

MRS. TAMLIN HOFF IN CHARGE

Class Made Rapid Strides During
Summer Months, as Evidenced by
Grading of Work

The Walker Township Girl's Club
had their display at the school build-
ing at Manilla last Friday afternoon
and evening. This club has been un-
der the direction of Mrs. Tamlin Hoff
this summer. Miss Ruth Grishaw, do-
mestic science teacher in the Rush-
ville high school, judged the exhibit.

Miss Helen Wissing won first on
the same cans of fruit and vegeta-
bles that she won first premium with
at the Indiana state fair. She also
took first with her glasses of jellies
which won 5th at the state fair.

Julia Posz won first on a white
cake and Helen Wissing placed sec-
ond.

Doris Brooks won first and Mar-
garet Brooks second with their doil-
ies. Doris Brooks also won first on
pillow cases which were placed 5th
at the Indiana state fair.

Joanita Burd won first in the dis-
play of night dresses.
Caroline Wissing placed first with
a wool dress which she had made
and Doris Brooks won second.

The stories of this year's club
work were ranked in the following
order:— (1) Helen Wissing. (2)
Caroline Wissing. (3) Joanita Burd.

The following list gives an idea of
what some of the Walker township
girls have accomplished this summer:

Sewing club: Lorene Krammes
made 2 garments.

Caroline Wissing made 65 pieces.
Joanita Burd made 10 pieces.

Doris Brooks made 12 pieces.

Helen Wissing has made 125 loaves
of bread; 185 cakes; 225 pies; 512
gems; 1475 rolls and 524 biscuits.

Julia Posz has made 555 gems; 18
loaves of bread and 700 rolls.

Helen Wissing has canned 241
quarts of fruit and 689 quarts of
vegetables, or a total of 930 quarts.

From this report it is plain that the

members of the Walker Township
Girl's Club spent a very busy and
useful summer.

MUCH WHEAT WAS SAVED FOR SEED

Farmers of This County Have
Bought Enough Copper Carbonate
to Treat 10,400 Bushels

TREAT FOR STINKING SMUT

Others are Using Formaldehyde So-
lution Instead—Directions Given
For Each Method

The farmers of Rush county have
purchased enough copper carbonate
to treat 10,400 bushels of seed wheat
for stinking smut this fall. Where
stinking smut is present the interior
of the affected kernels is a black
foul smelling mess of powder. The
disease is borne on the surface of the
grain. It is therefore necessary
to mix three ounces of the copper
carbonate thoroughly with each bu-
shel of seed wheat. Since the copper
carbonate dust is irritating to the
eyes and nose the majority of the
farmers have used an enclosed con-
tainer which could be revolved and
not permit the dust to escape.

Other farmers are avoiding the
stinking smut by treating their
wheat with a solution of one pint of
formaldehyde in 40 gallons of water.

On Oct. 7 Wm. Ochs, Raymond
Laughlin and D. W. Ogden of Wash-
ington township treated enough of
their seed wheat for loose smut to
supply their seed for next fall.

Wheat heads when infected with
loose smut are more or less com-
pletely reduced to a black smutty
mass which is scattered by the wind.
The fungus is carried inside the seed
grain. The three Washington town-
ship farmers placed one-half bushel
of wheat in a two bushel loose burlap
bag. They then soaked this wheat
approximately five hours in cold wa-
ter. Then they placed it in water
heated to 129 degrees F. for ten
minutes. It was then spread out to
dry in layers two inches thick and
stirred when necessary until it was
dry. The biggest difficulty in using
the hot water treatment for loose
smut is to maintain the tempera-

STORING WINTER APPLES

By G. L. Burkholder

Horticultural Extension Staff, Purdue University

Lafayette, Ind., Oct. 14—Apples
cannot be expected to hold their
plump juicy texture and avoid rot-
ting if they are not properly stored.

ture constantly at 129 degrees F.
Mr. Ochs solved this problem very
easily by using the steam heater in
his hog house. It was very easy to
maintain the correct temperature
by the amount of steam injected in-
to the water.

Apples for winter use should never
be allowed to lay in piles in the or-
chard after picking. This treatment
quickly ripens them and makes it
impossible to hold them long after
they are placed in the cellar.

As soon as a few perfect apples
of a variety begin to drop and the
fruit on the tree pulls off, without
breaking the stem, they are ready to
pick. Avoid bruising as a bruise
means a rotten spot regardless of

how the apple is cared for later on.
After picking let the baskets stand
in an open shed or porch over night
and carry into the cellar the first
thing in the morning. Open all doors
and windows of the cellar the pre-
vious night and shut the cellar up
tight as soon as the fruit has been
carried in. Barrels or boxes make
good storage containers. Never lay
the apples on a shelf where they are
exposed to the air of the cellar. Co-
ver the tops of the barrels or boxes
with boards or an old piece of car-
pet. This prevents withering. A few
bushels of the choicest fruit for late
winter use can be wrapped in squares
of newspaper before putting in the
barrel. One rotten apple can't con-
tamine the whole package when
handled in that manner.

If the light temperature is warm
keep all doors and windows tightly
closed day and night. As soon as a
cool night temperature prevails open
all doors and windows before going
to bed and shut the first thing in
the morning. In other words, hold the
cellar temperature as low as pos-
sible at all times. If there is a fur-
nace in the cellar remove a part of
the apples as soon as it is started,
place them in old barrels with burlap
tacked over the tops. Lay these bar-
rels on their sides end to end in the
cellar and cover with heavy layer
of straw and a layer of dirt. When
cold weather sets in increase the
dirt cover. By following these sug-
gestions late varieties of apples can
be held for home use during the en-
tire winter.

Better Seed Corn for 1925

Wouldn't you take just pride in having some-
thing better than any of your neighbors possess?
It might be horses, cattle, sheep, hogs, corn, wheat,
oats, or any other product of the farm.

It would add great interest to your work to have
some superior product on the farm, whatever it
might be. Every farmer ought to have some one
thing better than that possessed by any of his
neighbors.

It lifts farming to the dignity of a profession
when one has something better than anyone
else can produce. It is eminently worth while
to produce something better than one's fellows can achieve, in any any line of endeavor.

Emerson says, "If you produce something better than your neighbor, if it be only a
mousetrap, the whole world will make a beaten path to your door."

RUSH COUNTY HAS 3,000,000 BUSHEL OF CORN

In Rush County, Corn Is King. It Is the Greatest Crop of All

START SORTING AND SAVING SEED CORN NOW

Rush county now has approximately 3,000,000 bushels of 1924 crop corn. At one
dollar per bushel, it would be an asset worth \$3,000,000. At five dollars per bushel, it
would be an asset worth \$15,000,000, a vast sum. Yet, that would be only a fair seed
corn price.

We are on the edge of the greatest seed corn producing region in the world, that com-
prised in the area occupied by Johnson, Shelby, Decatur and Bartholomew counties. The
Corn Kings of the world live there.

Our soil and the intelligence of our growers is equal to that of these other Indiana counties.
We can and should produce just as fine seed corn as they do. Let's begin now. Save seed
corn now. Next Spring will be the greatest seed corn season ever known. Forty Indiana
counties will have no seed corn. Many whole states will have little or none. The demand
has already begun. Why not meet it? LET'S HAVE YOUR HELP.

POULTRY SHORT COURSE NOV. 10

Sixth Annual School Will be Held
at Purdue For Ten Day Period,
According to Plans

IN NEW POULTRY BUILDING

The Course Deals With Raising
Chickens in all Phases, Under Ex-
pert Supervision

The sixth annual Poultry Short Course at Purdue University, Lafayette, Indiana, will be held November 10 to 21, 1924.

The work given in this course deals with all phases of production, marketing and management and has proved to be one of the best investment of time and money its previous members have ever made. With the enthusiastic support of previous students and the increased facilities offered by the completion of the new Poultry Building at Purdue, a record attendance is anticipated at this course.

The new Poultry Building which cost \$75,000 and measures 42' x 120' has gone for to meet the much needed requirements of this Department for expansion and better administration of work to meet the increasing demands of the poultry interests in Indiana. Indiana now has a Poultry Department equipped better than any other Mid-west Department and equal to the best in the United States or Canada.

The Purdue Poultry Department has stock, building and equipment and a record of service to the poultry business that is equal to the best in any state of the United States.

Lectures, discussions and demonstrations use about half of the class room time. The balance of the time is spent in direct contact with the Experiment Station flocks and equipment.

For complete information relative to the course address Poultry Department, Purdue University, Lafayette, Indiana.

Portland—Sylvester Franks, farmer near here, lost his faith in dogs. His pet collie got caught in a wire fence. While trying to rescue the dog Sylvester was bit badly on the hand.

HARDY VARIETIES OF PEACHES ARE URGED FOR HOME GARDENS

Many people would like to have a few peach trees in the home fruit garden but feel that it hardly pays to go to the trouble and expense because of the comparatively few crops that can be expected under Indiana weather conditions. One of the most common and well known varieties of peaches is the Elberta. While this peach is fairly good for table use if allowed to ripen on the tree there are a great many other varieties of higher flavor which at the same time much harder in bud. Winter temperature which will kill all the Elberta fruit buds will often leave a portion of buds on some of the other hardy varieties.

A good selection of varieties which ripen over an extended period and which are suggested by C. L. Burkholder of Purdue University are Belle of Georgia, Gold Drop, Lemon Free, Indian Cling or Heath Cling. All of these varieties are hardier in bud than Elberta but of course will not withstand the extremely low temperatures sometimes felt in Indiana.

It is the safest plan to plant peach trees in the spring. After planting it

the best growers give each tree two or three bushels of manure and fork or spade it in around the tree. Never put the manure in about the roots of the trees when planting. Peach trees requires at least some cultivation every year during their entire lifetime. Cultivation is especially necessary the first three or four years after they are planted. After the trees come into bearing a yearly application of three or four pounds of nitrate of soda to the trees, about the time blossom buds are showing pink, is very beneficial. The crystals of the fertilizer should be scattered mostly under the droop of the branches. Purdue Circular 69 on Peach growing in Indiana is free on request to residents of Indiana. The peach tree border is a serious pest of peach trees and is fully described in Purdue Extension Bulletin 114.

Slaughtered

Wholesale slaughter of cattle is going on in Texas now. It is necessary, health officials say, to prevent the spread of the hoof and mouth disease now raging in sections of the state. Steam shovels worked four days digging trenches more than a mile long in which to bury 1900 head of cattle that had to be shot by Texas rangers in the Ellington district alone.

WILL HOLD AUTUMN SOCIAL

Richland People Plan Community
Affair for Thursday Night

An autumn social will be given Thursday evening at the Methodist church in Richland by the Parent-Teacher's association and the township farm bureau. Each one attending is urged to bring or wear a bouquet of autumn flowers or golden rod.

The evening program is looked forward to with interest, and will consist of community singing of old time songs in charge of Omer Truster and O. P. Wamsley of Rushville. The address of the evening will be delivered by John A. Tittsworth an attorney of Rushville. Refreshments will be in charge of the Girl's Sewing Club of the township, and all women of the school organization and farm bureau are urged to bring two pumpkin pies and a dozen doughnuts, to help defray the expenses of the night meeting.

SANITATION TO PLAY BIG PART

Reasonable Sanitary Precautions
One of Most Important Factors
in Raising Ton Litters

SENT OUT QUESTIONNAIRE

Practicing Precautions to Prevent
Loss From Parasites Increased
Size of Litter

By J. R. WILEY
(Agricultural Extension Dept. Purdue University)

Approximately seventy millions of dollars are received annually by Indiana farmers from the hogs produced in the state, about one-fourth of the total cash farm income.

The Hoosier Ton Litter Club was originated and started in Indiana three years ago to help farmers determine and practice the most economical and profitable methods of pork production.

Ninety-seven ton litters were produced the first two years. These litters averaged 10.4 pigs and the average weight at six months was 2199 pounds. This is over twice the average number of pigs raised and marketed per litter; it is about three times the average weight of litters at six months. It is evident that there are some valuable lessons on practical and economical hog production to be gleaned from the methods of breeding, feeding and management practiced in the production of these litters.

Reasonable sanitary precautions to prevent loss from parasites and disease, was one of the most important factors in producing these litters. The following four questions were answered by 90 men who nominated litters for the club awards last spring:

1. Did you clean out the old straw and manure from the farrowing pens before you put the sows into them?

2. Did you disinfect the farrowing pens before sows were put in?

3. Did you wash off sows' udder before putting them into the farrowing pens?

4. Did sows and pigs run in old hog lots and pastures from farrowing to weaning time?

Slightly less than nine pigs per litter was farrowed on the 90 farms. The average litter raised to weaning time was 6.6 pigs, a pig and a half above the state average last spring.

Thirteen of the 90 men cleaned out the old straw and manure, but they did not practice any of the other sanitary precautions. These men raised an average of 5.3 weanling pigs per litter, one and a third pigs less than the average for the 90 men.

Thirty-two of the 90 men disinfected the farrowing pens after they had removed the old straw and manure. They raised an average of 6.2 pigs, somewhat less than the average for the ninety, but a pig more per litter than the average for the state.

Twenty-six men cleaned out the straw and manure, disinfected, and kept the sows and pigs in clean lots and pastures from farrowing to weaning time. They raised an average of seven pigs per litter, two pigs above the state average.

The remaining 13 men washed off the sows' udders as well as practicing the other three sanitary precautions. They raised an average of over eight pigs to the litter.

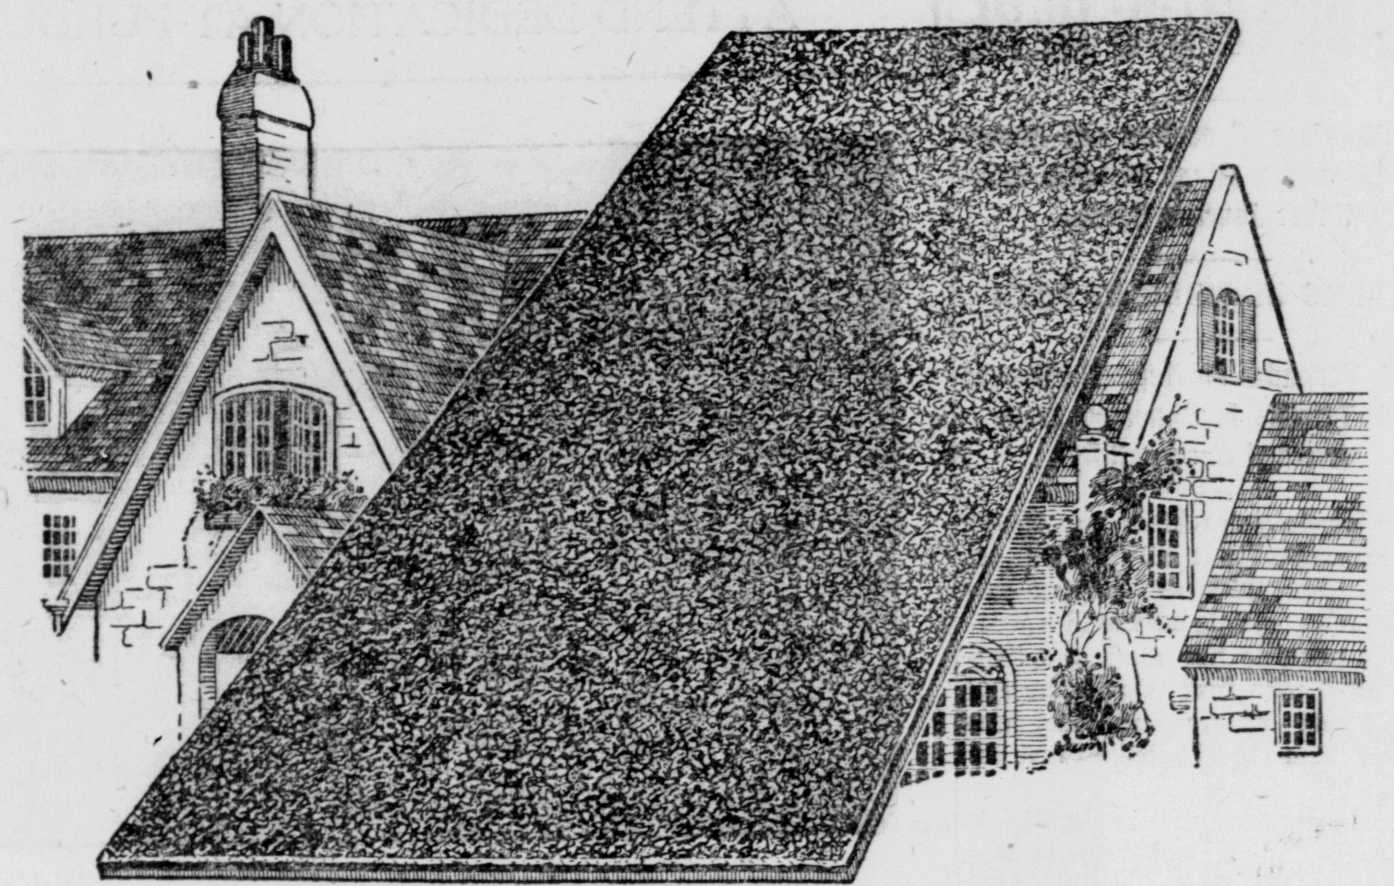

Practicing these four precautions, to prevent loss from parasites and disease among the young pigs, increased the average size of litter raised fully three pigs. Records kept by Indiana farmers in previous years, shows that it costs twice as much to raise a weanling pig when an average of less than five weanling pigs is raised per litter; than it does when seven or more pigs are raised.

Sanitation was not the only thing that enabled the last group of men to raise an average of eight pigs to the litter. Good management was practiced all the way through. To this was added good feeding and good breeding stock.

Men who produced ten litters in past years have raised an average of seven pigs to the litter for all sows that farrowed on their farms. Their methods of breeding, feeding and management are the ones that bring the greatest economy and profit in the hog business.

Seymour—Seymour has a "belled buzzard." Martin Borsherding, farmer, reports seeing the bird. He says he heard the bell distinctly and believed it was a cowbell hanging from its neck.

Lafayette—Flivvers look alike. Fred Case told Ross Branstetter. Case drove away Branstetter's car by mistake and police asked an explanation.

Carey

ASFALTSLATE SHINGLES

Large Size

The Shingle that never curls

THE pleasing effect of homes roofed with Carey Asfalt-slate Shingles (large size) is due, first, to the warm red or cool green crushed slate with which the shingles are surfaced; and second, to the shadow effect which is caused by the extra thickness of the butts. They are laid with a five-inch exposure to the weather which prevents over-formality in appearance.

Carey Asfalt-slate Shingles (large size) are much heavier and more enduring than so-called standard shingles. They are water-proof, fire-resisting and have important insulating qualities.

Carey Asfalt-slate Shingles never curl, or crack, and they cannot fade. They require no upkeep for either painting or repairs.

Call on us for samples and prices.

J. A. TITSWORTH LOCAL RECEIVER

Appointed on Application of Creditor of American Paper Products Co., of Carthage

ALLEGATIONS ARE ADMITTED

Judge Sparks Overrules Motion to Quash First Count in Affidavit Against Silverton Miller

In the litigation filed Monday in circuit court against the American Paper Products company of Carthage, by the St. Maurice Paper company of Quebec, the defendants admitted the allegations concerning the receivership, and Judge Sparks appointed John A. Titsworth, local attorney, as an ancillary receiver.

The federal court has appointed Ley P. Rexford of Missouri as the ancillary receiver for this state, and the action was also filed in this county in order to obtain some one locally to look after the interests of the concern.

In the appointment of Mr. Titsworth and Mr. Rexford, the two receivers each gave bond for \$50,000.

The action was filed to seek a receiver, alleging that the Carthage concern was insolvent. The allegation admitted by the manufacturing company was to the effect that a receivership had been named in Missouri, where they own and operate another plant.

Among the new business in court today is a suit filed by the Rushville National bank against the Weeks Fresh Meat and Provision company and Jacob L. Steinmetz, demanding judgment for \$1,400 on a note.

R. A. Smith has filed suit against Alva D. Eakins seeking to foreclose a mechanics lien for lumber furnished the defendant in the construction of a barn. The demand is for \$1,000 judgment.

Allen Lunsford is plaintiff in a suit against Guy. Russell, seeking judgment for labor and work. The complaint alleges that the plaintiff was a farm hand employed by the defendant and that he has coming to him 500 pounds of meat as his share of butchering, or he seeks its equivalent, \$60 in cash.

A suit has been received here on a change of venue from Greensburg, the action being by Edward A. Porter against George W. Bruce. The plaintiff is a physician and the defendant an attorney, both residents of Greensburg.

Judge Sparks has overruled the motion to quash the first count in the affidavit against Silverton Miller, charged with assault and battery with intent to kill. The case will be set for trial in a few days.

Motions to quash charges against Ed Herbert and Cleve Holt have been filed. They are held on charges of conspiracy and grand larceny, being charged with stealing corn from John Gray.

The jury has been ordered to report for Wednesday. The suit of Levi M. Thomas against Sheldon B. Cooper, receiver for the Mohawk elevator company, is set for trial. The action was sent here from Greensburg on a change of venue, and the demand is for \$4,151.50 on a claim against the receivership.

The case of Pitman & Wilson against Earl Winslow, a suit on an account, has been dismissed by the plaintiffs.

A ruling has been entered in the case of Grover Kyser against Melvin D. Seely, et al., proceedings supplementary to execution, which was heard several days ago. The court found the defendants, and against the plaintiffs.

CANDIDATE WILL BE HERE

Dr. McCulloch, gubernatorial candidate, to speak Saturday

The first democratic speaking in the present campaign will be held Saturday afternoon at 4:30 in the assembly room of the court house, when Dr. McCulloch, candidate for governor will be the speaker.

He was announced to speak here while enroute to fill a night engagement in Brookville. He speaks at Shelbyville earlier in the afternoon, and from there will drive to this city for the 4:30 address.

FOR THEFT AT GWYNNEVILLE

Frank Martin, 17, is Arrested at Connersville Monday

Frank Martin, age 17, of Connersville, was arrested Monday in that city and given over to officers of Shelby county on a charge of larceny, contained in a complaint by J. P. Auxier of Gwynneville. The youth was working for the Gwynneville man, when he disappeared recently, and after he left, the theft of a watch, fountain pen, coat, hat and other articles was discovered.

He was traced to Connersville, and when arrested yesterday, he admitted the theft, and the stolen articles recovered, according to a dispatch from that city. He will be tried in the circuit court at Shelbyville.

COUNTY INSTITUTE IS DELAYED A WEEK

Regular Session This Week Conflicts With State Meeting—New Instructor is Added

FUTURE MEETINGS IN SCHOOL

The regular teacher's institute for the Rush county teachers will not be held this week on account of the conflict in date with the state teachers' association meeting in Indianapolis.

The regular session for the county institute is held the third Saturday of each month, and hereafter the regular date will prevail. On account of the conflict for this week end, the institute will be carried over until the following Saturday, October 25.

A new instructor has been added to the list of institute speakers on account of the large class in silent reading. It was found necessary to divide the class, and Dr. Alderman will be assisted in the work by Miss Kaufman, both of the Indiana university faculty.

Another change was made in the holding of the institute. The sessions in years past have been held at the court house, but beginning with the next meeting, October 25, the institute will be held at the Graham high school, where ample room is provided, and no outside disturbance to bother them.

HOTEL BUILDING IS ORDERED TORN DOWN

State Fire Marshal Serves Notice This Morning, Giving Owners and Occupants 30 Days

WITH A PENALTY THEREAFTER

Orders, condemning the Grand hotel building, First and Main streets, as a fire hazard were received this morning from Newman T. Miller, state fire marshal and served on the owners and occupants of the building by Joe Williamson, local fire chief.

The building is owned by the Roxana Petroleum company, a Missouri corporation, who expect to erect a filling station at once. The only occupant in the building is Howell Brothers, who have a portion of the main floor. The order condemned the building, served notice on the occupants to vacate, and a period of 30 days given to level the building.

The order from the fire marshal's office is issued in triple form, one copy being returned to the state office with the date of the summons signed. Fire chief Williamson served the notice as soon as it was received. The order carries a penalty on a per diem basis for failing to have the building wrecked within 30 days.

Howell Brothers contend that their lease does not expire until next August.

HYLAN WRITES COOLIDGE

New York, Oct. 14.—In a letter to President Coolidge in regard to the German loan which he made public today, Mayor John Hylan of New York city, asked the president if he does not "think" it time the American investing public was told exactly what may be expected in the event of default of monies advanced under the Dawes plan.

SMOKING HIM OUT

RUSHVILLE WILL BE HOST TO PHYSICIANS

114th Semi-Annual Meeting of Union District Medical Society Will be Held Oct. 30

SESSION AT COURT HOUSE

The one hundred fourteenth semi-annual meeting of the Union District Medical association will be held in this city, Thursday October 30, in the court house, J. E. King, M. D., is president and E. E. Holland, M. D. secretary-treasurer of the association. They both practice in Richmond.

The program begins at 10:30 o'clock and opens with a talk on "Treatment of Fractures of the Neck of the Femur" by Ralph G. Carothers of Cincinnati, Ohio, followed by a discussion by H. M. Lowell of Hamilton, Ohio. Others on the program are V. C. Griffiths of Richmond, L. G. Bowers of Dayton, Ohio, J. E. King of Richmond, John H. Oliver of Indianapolis, Mark Millikin of Hamilton, W. A. Thompson of Liberty and G. B. Jackson, of Indianapolis.

With very few exceptions, physicians of this city and county are members of the association and will act as hosts when the meeting is held here.

COLUMBUS DAY IS CELEBRATED LOCALLY

Knights of Columbus Install Officers at Observance—Address on "Duties of American Citizens"

L. M. VANIER IS SPEAKER

The Knights of Columbus celebrated Discovery Day with a fitting program in connection with the installation of officers, Monday evening, at their hall in West Second street. District Deputy Madden and P. T. Doyle of Indianapolis installed the following officers for the ensuing year:

Grand Knight, Richard Byrne; deputy grand knight, Edward Hood; financial secretary, George McCoy; treasurer, James Mullins; recording secretary, Elbert Myers; chancellor, Bernard Madden; warden, Thomas Kirk; advocate, S. C. Kirkpatrick; inside guard, Bernard Joyce; outside guard, James Keating; trustee, Mark Purcell.

L. M. Vanier of Indianapolis gave a short address, his subject being, "The Duties of American Citizens." His address was well received.

HIGH SCHOOL GYM IS BEING REPAIRED

Balcony is Being Extended Over Main Floor in Order to Provide 500 More Seats

GETTING READY FOR OPENER

First Practice Held Tonight For October 31 Game—Financial Report is Published

With the basketball season for the Rushville high school schedule for the opening game in less than three weeks, the gymnasium has been undergoing changes and Coach John Swain issued first call today for the players to report for practice.

The gymnasium will seat an additional 500 persons this season, according to the changes that are being made. The entire balcony is being extended out over the lower floor and built even on both sides to conform with the portion that used to be occupied by the band stand.

The band stand has been removed from the west side and is being built high up in the north end. This change alone will accommodate 100 more people, and the other 400 can be seated around the new portion of the balcony.

Basketball is one branch of high school athletics that is self sustaining, as evidenced by the annual report made public today by E. B. Butler, high school principal. The floor receipts last year totaled \$3,095.37 and the team received \$412 on contracts from other cities. The total receipts for the season were \$3,749.69. The total expenditures were \$2,909.91 leaving a balance on hand for this year of \$839.78, with which the improvements are being made.

The report of Mr. Butler is interesting in every respect, because the public that supports the sport is anxious to know what becomes of the money. The entire report is as follows:

RECEIPTS
From preceding year—\$221.82.
Door Receipts from Basketball games and share from tournaments—\$3095.37.
From contracts for games—\$412.00.
From sale of old uniforms—\$469.43.
Locker deposits—refunds for damage to property—\$20.50.
Total receipts—\$3749.69.
DISBURSEMENTS
To References, Uniforms, etc.—\$317.92.
To Visiting Teams per contracts—\$389.00.
Travel expenses of R. H. S. teams—\$469.43.
Maintenance of R. H. S. Band, in (Continued on Page Five)

SENATOR BRANDEGEE APPARENTLY SUICIDE

Member of Upper House of Congress From Connecticut Found Dead in Bathroom of His Home

GAS HOSE IN HIS MOUTH

Washington, Oct. 14.—Senator Frank Brandegee, Connecticut, Republican, was found dead in the bathroom of his home here today, apparently a suicide.

Brandegee's body was found fully clothed in a sitting position on the bath-room floor with a tube leading from a gas jet to his mouth and the gas turned on.

He apparently had been dead several hours.

Discovery of the body was made by W. D. Lundy, Brandegee's secretary and George Jones, chauffeur who were attracted to the bathroom by the odor of gas. They called a doctor but Brandegee was beyond medical aid.

The Senator lived alone except for a staff of servants, in a large old brick house near Farragut square a few blocks from the White House.

New York, Oct. 14.—The suicide of Senator Frank Brandegee of Connecticut was due to "personal financial troubles," caused by investments in real estate, Secretary of War Weeks said here today.

ASKED TO LOOK FOR WOMAN

Police Informed That Mrs. Walter Adams, Jr., Has Departed

Police were asked today to search for Mrs. Eva Adams, wife of Walter Adams, Jr., who disappeared Monday night. She was last seen near a grocery store in West Second street. She left without taking any wraps or a hat, according to the information given the police. She was married recently to the local man, and no cause for her departure could be assigned.

Police here called the officers at Elwood, her former home, but they investigated this morning and stated that she was not in that city.

TO ARGUE GAS TAX

Indianapolis, Ind., Oct. 14.—Oral arguments on the case of Bruce Gaff and others, representing South Bend motor bus interests who appealed to the supreme court to prevent State Auditor Robert Bracken from collecting a two cent gasoline tax, will be heard tomorrow morning.

TO INVESTIGATE SEED POOL

Party of Corn Growers Going to Franklin Thursday

A party of Rush county corn growers is going to Franklin Thursday to investigate the seed corn pooling plan that has been in use in Johnson county for several years and has proved very successful.

The seed corn is selected and pooled by farmers, who sell it as Johnson county seed corn, rather than seed coming from some farmer.

All Rush county corn men who are interested are urged to go. The party will leave the county agent's office in the court house in time to reach Franklin at one o'clock.

ZR-3 HEADED STRAIGHT FOR NEW FOUNDLAND

First Direct Message From Dirigible Indicates Course Was Changed as Surmised

MARTIAL LAW AT LAKEHURST

Aboard the ZR 3, (4 p. m. GMT), Oct. 14—"We are headed directly for New Foundland, making seventy-five nautical miles per hour. All our crew are well and the engines are in perfect condition."

Shortly after 1 p. m. today the above message was relayed to the United Press from the Zeppelin ZR 3 by the Radio Corporation of America, stationed at Chaffin, Mass.

The report, the first direct one received from the on-coming dirigible this afternoon, indicated that previous surmises were correct and that Dr. Eckner has abandoned the flight by way of Bermuda, and is streaking for the northern coast.

Lakehurst, N. J., Oct. 14.—Martial law will go into effect at Lakehurst naval station, the moment orders are given to the landing crews on the edge to receive the ZR-3, become effective. The Zeppelin now is expected between 6 a. m. and 11 a. m. tomorrow, according to Commander Pierre. His estimate was based on the changed course of the ZR 3, which now is headed for New Foundland, whence it will swing down the coast to New Jersey.

Weather conditions are ideal, with a brilliant sunshine and a northwest breeze. Elaborate precautions for the safety of the warship and its passengers will be taken. The hanger has been cleared and only a couple of small airplanes, which will act as observers during the landing, are at the station.

SPICELAND MAN IS REMOVED TO HIS HOME

Elmer Pidgeon, Who Was Shot Accidentally by Two Boys Near Rushville is Recovering

SHOT TAKEN FROM SHOULDER

Elmer Pidgeon, the Henry county man who was shot by young boys while riding in his machine east of Rushville a week ago Sunday, was removed to his home in Spiceland Monday from the St. Vincent's hospital in Indianapolis. His condition is said to be improving.

A small piece of lead from the rifle went through his shoulder and imbedded itself deeply into the flesh which caused an operation for the removal of the lead at the hospital in that city.

It was thought at first that he was fired upon by someone from behind, but officers traced the shooting to two boys who lived in a farm house near the scene of the shooting, and the boys admitted that they fired the shot at a bird on an ear of corn, and the charge carried across the road to the passing machine.

WIGGINS ASKS PARDON

Indianapolis, Ind., Oct. 14.—Application for a pardon for Charles (Chuck) Wiggins, Indiana pugilist, was on file with the state pardon board today. The appeal is based on an alleged repudiation of charges on which he was convicted, made by a 19-year-old girl.

SCHOOLS ENTER INTO MOVEMENT

Excellent Response Found in Tour of County in Interest of Field Seed Corn Selection

COUNTY SHOW IS EMPHASIZED

Russell East, Who is Speaking in Schools, Addresses Rotarians and Corn Grower Guests Today

The campaign for the selection of seed corn from the field and in the interests of the Rush county corn show, which will be held in Rushville January 6, 7 and 8, 1925, had a most auspicious start Monday, when six schools were visited and at each school short talks were made to the boys of the seventh and eighth grades and the high school.

The campaign is in charge of Russell East, former Shelby county agricultural agent, who is now associated with the Pennsylvania railroad in agricultural extension work. Accompanying him on the tour of the county schools are Birney D. Farthing, county superintendent of schools, and Herschel VanMatre, county agricultural agent.

The Glenwood, Gings, Raleigh, Carthage, Center and Jackson township schools were visited Monday and this morning the party was at Arlington, Manilla and Homer. The speakers returned to Rushville for the noon meal and Mr. East spoke to the Rotary club and thirty leading corn growers of the county, representing each township, who were guests of the club at the noon luncheon.

Mr. East recalled it would be 432 years November 5 since Columbus discovered corn in Cuba and that in 1611 the first corn was planted on the coast of Virginia by a group of settlers. Two Indians were the first county agents, he said.

The Pennsylvania agricultural agent explained what was being attempted in the schools of the county. He said that the value of selecting seed corn from the field, when it was possible to determine whether the corn was healthful, was being impressed upon school children and being carried by them into the homes of the county.

"If we could get each boy to pick one ear of corn from the field for seed," he said, "it would amount to enough to pay the salary of the county agent and a large part of his expenses."

The tour was continued this afternoon at Webb, New Salem and Circleville schools. Wednesday morning the Gahmer, Moscow and Milroy schools will be visited and in the afternoon the tour will end at Richland and Freeman schools in Richland township.

Mr. East spoke to 221 pupils Monday, emphasizing the importance of (Continued on Page Two)

TO RESTRICT USE OF ABSENT VOTER BALLOTS

State Board of Election Commissioners Announces More Stringent Rules in Force

12TH TICKET ON BALLOT

Indianapolis, Ind., Oct. 14.—Restriction on the use of the absent voter ballots in the fall election were announced today by the board of election commissioners. The restricted use of the absent voting privilege was imposed, it was announced by clerk of the board, George Healey, in an effort to curb abuse of the method of casting ballots.

Voters using this method this fall must apply for the blanks in person or by mail to the county clerks of the different counties, Healey announced.

Healey said it has been a practice of party workers to solicit voters to use the absent ballot. In this manner the workers often witness the casting of the ballot and usually has an opportunity to influence the voter. The possibility of a twelfth ticket on the ballots in November appeared today with the filing of a petition of the worker's party of America with Governor Branch by Arne Swaback of Chicago. Petitions for places on the ballot had been filed by eleven other parties, previously.

Mothers!

Give the children WRIGLEY'S after every meal

A prominent physician says:

"It is surprising how free from decay the teeth can be kept by using gum after each meal."

You know how hard it is to get the children to clean their teeth. By giving them WRIGLEY'S you not only reward them for cleaning their teeth, but the reward is actually the means of performing this important service!

WRIGLEY'S aids digestion too, and acts as an anti-septic wash for the mouth and throat. Several flavors—all of WRIGLEY quality.

IN LOVING REMEMBRANCE

Of our dear husband and father John M. Brown who departed this life, Oct. 11, 1923.
John, dear, since you have left us, One sad year has passed away, And to say how much we miss you, Words, no words, can ever say. We miss you in the morning, When all the world is new; We know the day can bring no cheer Because it brings not you.
Sadly missed by his loving wife and children.

LYCEUM COURSE IS ARRANGED BY CHURCH

First Number Under Direction of Little Flatrock Congregation to be Given Oct. 25

FIVE NUMBERS ON COURSE

The Little Flatrock Christian church has made plans for a lyceum course to be given at the church during the winter, and a splendid program has been arranged. The first number on the course will be Joseph's Russian Orchestra Quartet, which will give their program October 25.

For many seasons this brilliant company has been before the public, and has met with enthusiastic approval everywhere. A feature of their program is a rendition of the beautiful Russian folk songs, accompanied by the haunting Russian balalas. All instrumental and vocal effects are accomplished with the professional artistry.

Other numbers of the lyceum course will be the Collins Novelty Company, featuring music, impersonations and comedy; the Caveny Company, with cartoons, clay modeling and music; the Boyds and Katherine Gutcheil, dramatic sketches, songs, Artists' recital; and Henry Clark, lecturer. The dates will be announced later. The proceeds from the course will go towards the upkeep of the church.

SCHOOLS ENTER INTO MOVEMENT

Continued from Page One

Field selected seed corn and the demand that there will be for it next spring due to the prospect of a shortage.

The part which the schools of the county will play in the Rush county corn show is also being explained to the school boys and it is believed that all of the schools will enter into the spirit of the enterprise and help make the corn show the best county exhibit in Indiana.

Special prizes will be offered in the show for schools. The awards will be based on the the best ten ears and there will be classes for the schools as well as individual boys.

County Agent VanMatre today praised County Superintendent Fanning for the way in which he had organized the schools and obtained the co-operation of the township agricultural teachers in the movement for better seed corn by selecting it in the field.

I. & C. ANNOUNCES A TWELVE-RIDE TICKET

Last week a petition was filed with the Traffic Department of the Indianapolis and Cincinnati Traction Company, signed by a large number of the patrons of the road, requesting modification in the form of commutation tickets.

For a number of years, the company has sold forty and sixty ride tickets with a time limitation of thirty-one days, at a considerable reduction in fare over the regular daily fares. In some instances, objection has been made to these tickets because the purchaser was required to advance so much money at one time and because the tickets often could not be completely used within the limit.

This will be a convenience to passengers who are working on weekly pay, and those passengers who are now depending on the Auto-bus service.

Announcement has just been made by the traction company that instead of establishing twenty ride tickets with the fifteen day expiration, it will establish on October 20th and place on sale a twelve ride ticket good for eight days at almost the same rate of fare as the forty ride ticket. It is the belief of the company that this new ticket will be agreeably received by the travelling public. The forty and sixty ride tickets will not be discontinued.

Sciatica Is a Nervous Affection

(Chiropractic Health Talk No. 87) By H. V. McCully, D. C. Ph. C.

The condition known as "Sciatica" or "Sciatic Rheumatism" is more properly described as neuralgia of the Sciatic Nerve. The sudden onset of its pain, intensified when one moves, is its most distinctive characteristic.

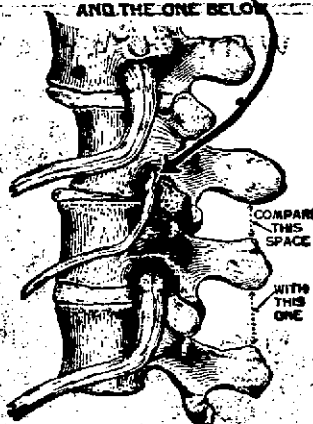

This condition is mostly found in acute cases only, but if prompt steps are not taken to correct the cause by adjustments, the victim may be confined to a bed of suffering for indefinite periods.

Because it is peculiarly a nerve affection, "Sciatica" yields readily to Chiropractic spinal adjustments in the lower region of the back, where the affected nerve branches off from the main trunk line.

Thirteen Weeks In Bed

"I am making this statement to any who may be interested, I having been troubled with sciatic rheumatism and pains across the small of my back for several years. Often during this time I was confined to bed, at one time I was thirteen weeks in bed. I am well now and have been for over a year, having quit medicines and taken Chiropractic Adjustments." — Paul Terhoven, Chiropractic Research Bureau, Statement No. 2055-B.

SAID BRANDY WAS PUT IN HIS COFFEE

Anderson Police Question J. F. Shepherd, Said to be U. S. Secret Service Agent

HE BECAME VIOLENTLY ILL

Anderson, Ind., Oct. 14—Police today questioned a man said to be J. F. Shepherd, 34, New York, ill with poisoning here who is supposed to be a United States Secret Service agent.

Shepherd became violently ill here after dining with Mr. and Mrs. James Childs in a restaurant. He clutched an identification card in his hand when he collapsed on a street car.

It said, "J. F. Shepherd, USSS. In case of death notify Washington or New York offices."

When he rallied from the first effects of the poisoning he told hospital attaches that someone had put brandy in his coffee.

The man had no badge to substantiate the supposition that he is a secret service agent, and he had only a small amount of money.

Secretary of State Speaks Tells Indianapolis Audience Troubles Came From Democrats

DUE TO UNWISE FINANCING

Indianapolis, Ind., Oct. 14—The present national administration inherited millions of unemployed and hard times from the Democrats, and by wise administration restored confidence and prosperity, Charles E. Hughes secretary of state declared in an address here last night.

The cabinet officers remarks were accepted as an answer to the charges of John W. Davis, democratic presidential candidate that the administration was wrecking business. "The serious conditions of 1920 and 1921 were due to the unwise financing policy of the Democrats," Hughes said.

KILLED IN FALL DOWN STEPS

Elkhart, Ind., Oct. 14—Mrs. Mary Elizabeth Schmidt, 66, is dead today from injuries sustained when she fell down the cellar steps at her home.

The First division of the Ladies Aid Society of the First Presbyterian church will hold an exchange next Saturday. The place will be announced later.

SUPPOSED MURDER VICTIM IS ALIVE

Ida McCutcheon, 27, of Hammond, Thought Dead Walks Into Salvation Army Headquarters

HER BODY WAS IDENTIFIED

Hammond, Ind., Oct. 14—Police today reopened investigation of the slaying of a young woman following the return, alive, of the woman they had identified as the murder victim.

While police searched for solution of the mysterious murder of a woman about 27, who was beaten to death and her body hidden in an empty box-car, Ida McCutcheon, 27, renewed acquaintances after an absence of two months.

When the body of a young woman was found in the local yards two months ago it was identified as the body of Miss McCutcheon. Her close friends made absolute identification. She walked into Salvation Army headquarters here last night to the astonishment of some of the friends that had identified her as the murder victim.

Police are seeking identification of the young woman who was buried as the key to solution of the murder.

JUDGMENT IS WITHHELD

Carl Murphy of Milroy Settles Alleged Bad Check

Carl Murphy of Milroy was arrested this morning on a charge of issuing a bad check, and when arraigned he made good the check, paid the costs, and the judgment was withheld. The check was for \$3, given to J. C. Ellman. The costs amounted to \$13. The warrant was served by Frank Nicholson, special constable.

The case of Andrew Jackson Jackson against Cliff Brown, a suit on an account before Justice Stech, was continued from Wednesday until Thursday, when it will come up for trial.

RED MEN NOTICE

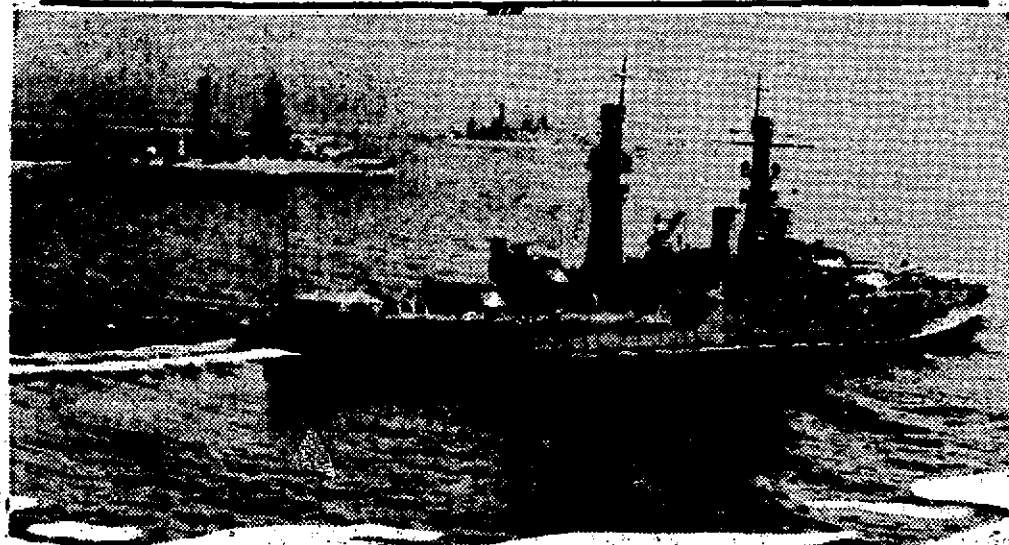

All members of Tampa Tribe are requested to be present tonight at 7:30 o'clock to attend the regular meeting. Visitors are always welcome.

STATED MEETING

Phoenix lodge No. 62, F. & A. M., will hold its regular stated meeting next Tuesday evening at 7:30 o'clock.

Apton—Charles Moon hurt one hand in an automobile accident in Indianapolis and smashed the other while working in a canning factory here. He now has both hands in bandages.

Vigorously Assails Independent Ticket for Radicalism

Louisville, Ky., Oct. 14—Vigorously claiming that the issue in this campaign is whether "we shall have law and order under this constitution and the American flag or under the red flag of socialism and radicalism," Charles G. Dawes, Republican vice presidential candidate, opened his Kentucky campaign for electoral votes here.

Dawes did not once mention the platform of the Democratic party but devoted his entire time to an attack on the independent ticket.

TUESDAY, OCTOBER 14, 1924

The Christian's mission:—
Preach, saying, The kingdom of
heaven is at hand. Heal the sick,
cleanse the lepers, raise the
dead, cast out devils; freely ye
have received, freely give. Mat-
thew 10:7, 8.

Prayer:—
"O Lord of Heaven and earth
and sea,

To Thee all praise and glory be:
How shall we show our love to
Thee

Who gavest all so graciously?"

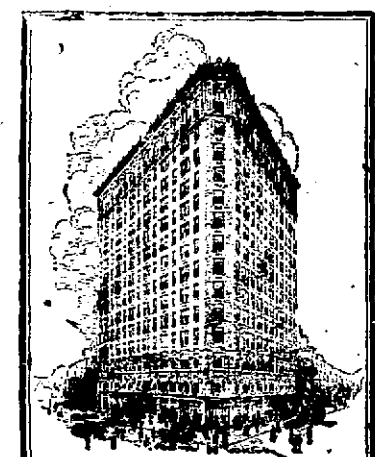

By serving freely, faithfully,
with Thee, for all!

What a LaFollette Vote Means

Republicans and democrats alike
who do not wish to see the pros-
perity of the country halted; men
and women who defeat the soviet
form of government are elated by the
speeches that have been delivered by
LaFollette on his long heralded tour
for, by his talks on the tariff, he
has shown that he is more in favor
of Europe than he is of our country,
where high wages rule. He has
shown that he would break down the
barriers that protect the farmer and
labor. He has shown that he would
add millions and millions of dollars
in taxes by his public ownership
plan; he would create several million
more government office holders; he
would take away the protection of
the courts from the weak; he would
destroy a decent profit for the farm-
er, labor, dairymen, stockgrowers,
cattlemen, beet sugar growers, in
fact, he would bring down the wages
of all industries; he would place
the standard of living on the level of
that in Europe.

People are now asking what laws
of a beneficial nature to the people
are on the statute books that bear
LaFollette's name and his most ar-
dent supporters dodge the question,
they would be delighted to name some
but they cannot, he has talked and
that appears to be all.

LaFollette is the best friend La-
Follette has, he is the best press
agent that LaFollette has ever had.

for they realize what his socialistic
theories would do to this country.
That does not appear, however, to
worry him overly much, but there are
several dozen million American vot-
ers who stand for the United States
first and last. A vote for LaFollette
means voting for low wages, failures
and general hard times.

Keep the Money at Home

Several financial newspapers and
magazines have been warning the
American investing public against
being lured into buying German se-
curities, with which this country is
now being flooded.

There never was a time when it
was necessary for an American to
seek investment elsewhere. There are
plenty of opportunities in this coun-
try and they are worthy of support
because money invested in American
securities will build up American en-
terprises.

Many investors are persuaded to
place their money in foreign securi-
ties with the promise of large re-
turns. But there is danger for the
United States if Americans in any
considerable number invest their
money in stocks and bonds of Ger-
many or any other foreign nation.

If the investments should prove
unprofitable, there is a chance that
international bankers and influential
investors might seek to compel our
country to enforce their payment.

If they proved profitable, Europe
would be even more infuriated at the
United States and would set up the
cry that she was being robbed. A spir-
it of hostility for this country,
which exists to some extent already,
would be increased and the seeds of
discord that lead to war would be
implanted in the minds of the people.

Thus there is a double danger and
loyal Americans, even though prom-
ise of returns, may be especially
bright, will not dabble in foreign
securities, especially German, Aus-
trian or Hungarian.

FIFTEEN YEARS
AGO TODAY

From Daily Republican
Thursday, Oct. 14, 1909

While painting a barn two miles
south of Milroy, Joe Mills fell thirty
feet to the ground this morning and
sustained severe injuries. In the fall
the ladder on which he was standing
also fell, striking Mills on the head.

The automobile carnival this af-
ternoon was a near success from the
standpoint of the events and hardly
that much from the crowd stand-
point. The attendance was very poor
and although they seemed to enjoy
it, it was just a bit chilly for this
thing of standing on the side lines
and watching somebody trying to
break a record on a track which is
not in good condition and which is
not calculated for auto racing.

James E. Watson on his return
from the East yesterday morning im-
mediately subscribed for five lots in
the People's addition and said that
he would take more if necessary.

The promoters of the horse show
this year are very enthusiastic about
the prospects for the second annual
show and think that it will be larger
and better than ever.

Mr. and Mrs. Jim Robinson, Mr.
and Mrs. Dr. Warfield, Mr. and Mrs.
George Caldwell and Rev. S. A.
Morrow were entertained at O. C.
Macy's for dinner Sunday. (Summer
correspondent)

Frank Reed of Indianapolis and
George Reed of Elkhart visited their
brother Jack here Sunday. He has
typhoid fever. (Gowdy correspond-
ent.)

By the latter part of the week it
was declared by a local grocer this
morning, eggs will be selling at 30
cents a dozen and it was estimated
that the price would steadily climb
then until the 35 cent mark would be
reached.

Arthur Trader suffered a severely
mashed finger while working at the
I. & C. Power house this morning.

Mrs. Laura Wolverton and grand-
son Forrest went to St. Mary's, O-
hio, today for a visit with her son,
Clayton, who is giving a short en-
gagement with his talking picture
company there.

Miss Nell Pierce and Arleigh Of-
futt will leave tonight for Pittsburgh
to attend the Christian church cen-
tenial there.

Miss Helen Black went to Lebanon
today to visit with Misses Madge and
Joy Selby for a few days.

A nine pound boy was born to the
wife of Frank Rogers in Jersey City
Tuesday night.

Easy to Guess Which is Which

(Detroit Free Press)
Speaking of presidential candi-
dates recently, a University of Mich-
igan professor referred to them as
the silent one, the handsome one and
the other one.

HUNT'S DAILY LETTER

BY HARRY B. HUNT
NEA Service Writer

WASHINGTON—For the hu-
manly inclined there is
a vast range of possibilities
in the situations that will in-
evitably arise as a result of the ap-
proaching election.

No matter who is elected—Cool-
idge and Dawes, Davis and Bryan
or La Follette and Wheeler—the
United States Senate is certain to
be the setting of some situations
that for sheer humor will out-
reach the wildest imaginings of the
comic supplement artist.

For those who do not take their
politics and their congressmen and
senators too seriously, Wash-
ington during the next Congress will
be better than a sideshow.

CONSIDER the situation in the
Senate should the Coolidge-
Dawes ticket come through a
narrow.

Dawes becomes vice president,
the safe date is to provide over
the Senate to decide points of
order in accordance with the rules
and precedents and to be an im-
partial arbiter in the matter of
procedure. He has no vote except
in case of a tie and no voice in
debate.

Down on the floor on the Re-
publican side of the aisle will sit
Senator Brookhart of Iowa who
fought Dawes as the candidate of
his own party and demanded that
he be removed from the G. O. P.
ticket.

Will Dawes recognize Brookhart
when the Iowa senator arises to
make some remarks? If he does
or if he doesn't, interesting and
explosive things may happen.
Match and powder keg will be in
 juxtaposition. The possibility of a
blowup will be ever present.

CONSIDER, too, the dramatic
possibilities underlying an av-
erage speech of Caraway of
Arkansas. Caraway is the Demo-
cratic most expert skinner and he
specializes in taking the hide of
the G. O. P. elephant.
Students of the effect of mind

over matter will crowd the Senate
galleries to watch the physical and
emotional reaction on Dawes as
Caraway slips his bait through the
Republican's ear and pro-
ceeds to lay bare the carcass be-
neath. Caraway carves with a
careless hand which has picked
the ribbiness of much more re-
pressed men than Dawes.

Can "Hellen-Maria" Dawes in
such a situation be expected to
follow the traditions of vice presi-
dential ethics?

No stage drama will have any-
thing on the fierceness of that
time. Repressed emotion might
bring on apoplexy. Unleashed
emotion would bring real fire-
works.

ON the other hand, should the
Davis-Bryan hand wagon
bring the Democratic candi-
dates to Washington consider for
a moment the agony of soul and
spirit that would tear at the very
vitals of Henry Cabot Lodge when
he arose in his chair and sought
the privilege of recognition from
"Brother Charles."

Next to having to appeal on
bended knee to the Council of
League of Nations for permission
to run for re-election, one can
think of no pit quite so bitter, no
humiliation quite so complete as
for this blue-blooded dean of the
Senate aristocracy long the sage
and intellectual leader in the
upper house to be compelled to
address this newcomer from Ne-
braska. "If the president please."

There indeed would be a real
drama of soul or melodrama.

IN either case whether Bryan or
Dawes presides in the Sixty-
ninth Senate there will be on
the floor a thorn in the side of
either or both parties as the situ-
ation may develop. La Follette and
Wheeler.

They will be there as senators
unless one of them is there as the
presiding officer while the other
sits at the White House.

Suspense? Human interest?

Drama?

That's what Washington is
going to be full of nothing else
but as Tom Heflin would say

The Hodge - Podge
By a Paraphraser with a Soul

Some people are so inclined to think
that just about everybody is crooked
that we are bound to wonder if at
times they don't feel inclined to sus-
pect themselves.

The downtrodden masses, about
whom some of the candidates speak,
are never in that condition except
when they get in front of a speeder.

Some whirlwind campaigns stir up
so much dust that the fellow at the
helm can't be seen for the dust.

Hot-headed people generally wind
up with cold feet.

If the meek are wise, they will step
in and get theirs while the belligerents
are fighting for the earth.

Most of us would like to know who
is going to put the "fit" in pacifist.

Over 19,000 persons died from
snakebite in India last year. Let's
see, and India has no Volstead law or
eighteenth amendment either.

A warning has been issued to young
men not to marry girls who can't cook,
sew, wash and iron. And if they only
obey this mandate, just how will they
find a wife?

From The Provinces

That's Sacrifice for You!!!
(Cleveland Times Commercial)
Perhaps William J. has gained
wisdom, concluding to help Brother
by saying nothing.

Foolish Question 71144000
(Philadelphia Record)
Why not retire General Dawes and
put Brookhart up for Vice Presi-
dent?

Blame it on Prohibition
(Houston Post-Dispatch)
Now they say young Teddy isn't a
mixer like his father. But, then, there
is nothing worth mixing now, as
there was in the Colonel's time.

How Do They Get That Way?
(Macon Telegraph)
First thing you know a baseball
player will think he has as much
right to be crooked as a politician
has.

You Can Bet on That
(Chicago News)
Japan and the league assembly to
the contrary notwithstanding, Amer-
ica's immigration laws will continue
to be America's own business.

Be Harder For Them to Do
(Kansas City Star)
Than bribing the Phillies to lose a
ball game, there is only one financial
venture more spendthrift. That
would have been to attempt to bribe
them to win a ball game.

One sign of winter is when the
front is on the pumpkin and the
shock is in the corn price.

Many a man reads auto adver-
tisements when he should be read-
ing shoe advertisements.

A wife is a great comfort during
all those troubles which a bachelor
never has.

One thing wrong with our homes
is too many couples think a pair
beats a full house.

Efficiency means doing two things
at once because you are too lazy
to do them one at a time.

One nice thing about having ene-
mies is you can blame things on
them instead of on yourself.

Just when women were doing
nicely in politics someone springs
the report that it makes them fat.

Business hint: Many coal dealers
are interested in cash registers and
adding machines.

The bathing beauties have left the
magazine covers. They are busy
pooling for 1925 calendars.

Skirts are getting short again be-
cause some women had no show
with them long.

Time these politicians get through
talking about it our constitution cer-
tainly will be run down.

These melancholy days certainly
are fine.

Children with Rickets
Need Cod Liver Oil

For weak, puny, under-developed
children—and especially those that
have rickets, and need a sure builder
that promotes the growth of teeth
and bones, cod liver oil is the one
medicine supreme—nothing helps like
it.

But it is nasty and repulsive and
evil-smelling and nearly always up-
sets children's stomachs—so now
up-to-date chemists advise McCoy's
Cod Liver Oil Tablets.

Children love them as they do can-
dy, because they are sugar coated,
and easy to take. One boy gained
113 pounds in seven weeks, and is
now healthy and happy—thousands
of other children have grown strong
and robust.

Sixty tablets for 60 cents at F. B.
Johnson and Co., or Pittman and
Wilson and druggists all over
North America—but be sure and ask
for McCoy's—the original and genu-
ine.

—Advertisement

Pulling
Together

THE outward and visible manifestations of
the Standard Oil Company (Indiana) orga-
nization consists of certain refineries, buildings,
storage depots, service stations, tank wagons and
quantities of crude petroleum and its products.

These tangible things any oil company may copy.
The refineries of this Company, efficient as they
now are, nevertheless may be copied by others.
Its system of distribution may be copied. The
design of its service stations, with their infinitely
practical arrangements for service, may be copied.
For all these things are but the work of hands.

But back of all these material possessions is
something else—something fundamental, intan-
gible—whose workings cannot be imitated. This
is the will and the energy to create, the ideal
which inspires and animates intrinsic service.
This determination, this will and enthusiasm of
heart cannot be copied. It is the unique posses-
sion which gives character to the Standard Oil
Company (Indiana).

This character is expressed in ideals of manage-
ment. A prominent industrial engineer well
says: "It is the part o-management to manage.
It is the part of science to overcome difficulties.
Anybody can accept things as they are."

The Standard Oil Company (Indiana) has never
been content to "accept things as they are." It
will never be satisfied until petroleum is made
to yield the greatest possible number of products
which shall render a useful service to society.

This Company believes that an industrial orga-
nization exists and is permanent only because it
renders an essential service.

It is the enthusiastic, wholehearted determina-
tion to serve, on the part of the 27,160 employes,
which has made this Company a constructive
force.

It is the harmonious pulling together of this in-
dustrial army that has enabled the Company to
build a great business upon a foundation of fun-
damental service.

This spirit, which is imbedded in the heart of every
Standard Oil employe, is the key to the success
of the Standard Oil Company (Indiana). You
will find it manifest at every point. It is inherent.
It is imitable.

INQUIRY WILL GO
ON INDEFINITELYCommissioner Landis, Head of Base
Ball, Will go to Bottom of Rumors
of Other Scandals

IS BUSY FOR THE MOMENT

Time Taken up With Distribution of
Proceeds From the World Series
and Other MattersBy HENRY L. FARRELL
(U. P. Staff Correspondent)New York, Oct. 14—Investigation
into the New York Giant baseball
scandal will be continued indefinitely.Commissioner Landis, head of
baseball, before leaving for Chicago
last night said most of his time after
the finish of the world's series
had been taken up with the distribution
of the million dollars among the
various shareholders.He did not comment on the rumor
heard during the series that he was
going to withhold the Giant players'
share of the money but it is assured
that Cozy Dolan and Jimmy O'Con-
nell were the only Giant players
who did not get their pay."The business of sending out the
players' share has been cleaned up
practically," Landis said. "Investiga-
tion into the scandal is still under
way. As I said before the case will
am satisfied as far as I have gone
everything that could be done, al-
though it may seem incomplete to
many people. I won't say whether I
am satisfied as far as I have gone
already. The future will tell that."In addition to the Dolan-O'Con-
nell attempt to bribe Heinie Sand,
Landis also may investigate stories
of Red Dooin and Lou Criger, for-
mer players, who said Giant players
had offered them bribes. There also
are charges of Ban Johnson, presi-
dent of the American League, that
other players are involved and the
accusation of Barney Dreyfuss,
owner of the Pittsburgh Pirates,
that his players were tampered with.The opinion has been expressed
here that the investigation may be
dropped or indefinitely postponed as
many of the Giant players, includ-
ing several who were implicated by
Jimmy O'Connell in his confession
are now on their way to Europe and
will not be back until December.If he has not done so already,
Landis may investigate the report on
Broadway that an immense sum of
money was wagered, that the Giants
would win the National League pen-
nant by two games.Landis and other officials of the
game said they had been impressed
chiefly by the "appalling stupidity"
of Dolan and O'Connell, in trying to
the Phillies to throw a game and

Double-Play Wizards

LEFT TO RIGHT, PECKINPAUGH, HARRIS AND JUDGE

THE whole baseball world acclaims this Washington infield trio the fastest double-play combination on the diamond today. In fact, a lot of experts think that the Nationals, in Peck and Harris, have the fastest keystone combination in the history of the sport.

Time was, in the height of the old Chicago Cubs' glory, when the baseball world thrilled to the old slogan, "Tinkers to Evers to Chance." But it is doubtful if that trio, great as it was, had any edge at all on "Peck to Harris to Judge."

give the Giants a pennant that was as good as cinched without any crooked work.

If some one wanted the pennant won by two games an entirely different complexion is placed upon the attempted bribe.

PLAN FOR SEATING CAPACITY

Expected 13,000 or More Will At-
tend Game at Purdue

Lafayette, Ind., Oct. 14—Preliminary plans for handling the seating at the Purdue homecoming football game with Indiana in the new Ross-Ade stadium, Nov. 22, have been completed, it was announced today.

Detailed information is expected to be available for fans wishing to secure tickets by the first of next week, according to the announcement.

Between 13,000 and 14,000 seats will be available for the contest, and if the demand is necessary this may be increased by the erection of bleachers.

It is expected work on the playing field at the stadium will be completed in about two weeks. Weather conditions permit pouring of concrete for the west stands. Completion of concrete work will be followed by construction of entrances.

Boston—Boston College defeated Fordham U 28 to 0 in the first game among the contenders for the eastern Catholic football championship.

ALONG SIDELINES

Urbana, Ill.—Heavy scrimmages are in prospect for Coach Bob Zupke's Illini during the rest of the week, following signal drill and last light scrimmage Monday. With several men on the temporary crippled list, subs are showing their wares, including Wilson, sophomore tackle.

Ann Arbor, Mich.—The Michigan eleven, priming for the Illini battle is strengthened by the return of Harry Hawkins, regular guard, and George Babcock, tackle. Behind locked doors, Coach Yost is drilling his men on plays "to beat the Illini."

Madison, Wis.—Coach Ryan is sending his Cardinal eleven through grueling paces in preparation for the Minnesota game at Madison Saturday.

Lafayette, Ind.—Purdue is none too optimistic over the Northwestern game Saturday and Coach Phelan is pounding a mass of offensive tactics into the heads of his first team, which saw little action in the walkway from Rose Poly.

Evanston, Ill.—Alva Graham, yesterday filled the shoes of "White" Ralph Baker's purple running mate who was injured in the Cincinnati game. White should be in the lineup in three days. Coach Thistlewaite drilled his charges in a variety of plays for the Purdue game.

Bloomington, Ind.—Scrimmage was in store for the Indiana eleven. Coach Navy Bill Ingram found every man reporting for duty yesterday.

Chicago—Cheered over the revival of "pop" among his Maroon warriors, Coach Alonzo Slagg sent his charges through a scrimmage yesterday, but rewarded the boys who did most to beat Brown by comparative rest.

Minneapolis, Minn.—Bert Boston, former all-American end on the Minnesota team, joined the Gopher coaching staff yesterday and immediately a hard work out to the ends in preparation for the Wisconsin battle.

Iowa City—Convinced that he has a strong line but aback field that hasn't developed its maximum offensive punch, Bert Ingersen, Hawkeye mentor, put much attention on his ball carriers.

Columbus, O.—With Captain Young and Tackle Jones temporarily on the sidelines because of injuries, Coach Wilce sent the Ohio varsity a light offensive workout.

South Bend, Ind.—The Fightin' Irish at Notre Dame are serious over Army's top-heavy defeat of Detroit Saturday and Coach Knute Rockne, pointing his warriors to the Army game at the New York Polo Grounds Saturday, is teaching his usual bewildering maze of plays.

Buffalo, N. Y.—Rocky Kansas won the decision over Luis Vincenzini, Chilean lightweight in a fast 10 round bout here.

Jones After British Title

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Oct. 14—To a rather disconsolate and discouraged public in England the news that Bobby Jones, the young American amateur golf champion, is going after the British title next year may be received like a smack on the chin.

The dear old sporting public in England looks upon the British amateur golf with all the fondness a miser would have for his last buck. It's all England has left and the last symbol of a former world domination of sport.

The British open cup is here in the trophy room of Walter Hagen. The International polo cup is at the Meadowbrook club, America's Cup is in the exclusive New York Yacht club. The British boxers are all on the floor. The Davis Cup, once a prized possession of Britain and her colonies, is under a long-time lease with the United States Lawn Tennis Association.

Under the circumstances the gloomy prospects of losing the British amateur cup may be tempered only by the satisfaction the English golf fans may get out of seeing the American star play, even if he does win.

London became very fond of Jack Dempsey when he made his first visit there. The British wanted to see Dempsey fight, not because they felt that they had anyone who could give him a contest, but they wanted to see the best fighter in the world, even if they couldn't hold more than a god-father claim on him.

The London tennis fans were just

as keen about Miss Helen Wills, who went to England with every prospect of beating Miss Kathleen McKane, the only hope of Britain on the courts. When Miss Wills failed to do the expected there was no national gloating in England. Quite to the contrary, the good British sports apologized for the Californian girl and they were gracious enough to admit that Miss Wills wasn't playing her real game.

The personal triumph that the young American tennis champion scored in England probably will be repeated by Bobby Jones. They are both of the same type—young, attractive, modest and extremely capable in their lines. Bobby Jones will not boast. British interviewers will find it just as difficult to get him to talk as they did in trying to get Helen Wills to admit she was a good tennis player.

The visit of Bobby Jones can accomplish much good in the way of missionary work, as Walter Hagen is anything but popular in England. He made some very uncomplimentary remarks about English sportsmanship, two years ago, and although he later denied the interview, the denial wasn't as generally circulated in London as was his alleged criticism.

Bobby Jones and Helen Wills represent the new type of American athletic stars. The American Olympic team in Paris had numerous young stars of the same disposition and the team as a whole conducted itself with great sportsmanship.

London was amazed when Jack Dempsey visited the city and acted shy when ring subjects were brought up. Foreigners had the opinion that America had a race of braggarts, loud-mouthed boasters and inveterate personal magnifiers.

Men's Muscles!

Miss Norma Silk is shown winning the intermediate hurdle race in Chicago. She was victor over a number of high school girl competitors. The effect of rigid training on the development of leg muscles is clearly shown in Miss Silk's trim but powerful limbs.

Old Peck Sure Delivered

It made a difference to Washington's hopes in the sixth world series game, with old Roger Peckinpugh back in the lineup. The crippled veteran started the winning rally in the fifth inning with a single. Here you see him crossing the plate with the tying run after McNeeley had walked and Harris singled. McNeeley scored behind Peck on the same play, registering the winning tally. Hank Gowdy, Giant catcher, is waiting for the ball as Peck crosses the plate, while Umpire Klem looks on.

Rheumatism

"Good-bye old crutch!"

THERE is positively no longer any
excuse for suffering the agonies
of rheumatism! Especially in the
autumn of your life, when the vital
organs weaken, impurities multiply
and linger in the muscles and joints,
as never before. It is now, just now,
when you cannot afford to guess. No
day returns!

Here is a joyous fact which can
mean to you a fond farewell forever
to all the miseries, the tortures, the
body-twisting pains that you have
suffered from the demon of rheu-
matism. It is a fact that rheumatism
means "blood poverty." It is a fact
with the increase of red-cells in your
blood, impurities are destroyed. It
is a fact that S.S.S. will help Nature
build these red-blood-cells! S.S.S.
is one of the most powerful blood
cleansers in existence. Its re-
sults in thousands of rheumatic
cases have been nothing short of
amazing! The medicinal ingredients
of S.S.S. are purely vegetable. This
is very important to remember! What
can be more inspiring, more won-
derful than to see the shackles of
pain released from your struggling
body, swellings, lingering pains, stiff-
ness of joints and muscles all dis-
appear; your stomach made strong;
your face pink with the old sweet-
heart glow, your blood enriched and
your cheeks more plump as they used
to be. You can do it! Take S.S.S., the
great destroyer of rheumatic im-
purities.

S. S. S. is sold at all good drug
stores in bottles. The larger size
is more economical.

Senator's Son

His father wears the toga and he
wears moleskins. This is J. J.
Wadsworth Jr., son of the
United States senator from New
York. The junior member of the
family plays ballback on the Yale
team.

The rehearsal of the St. Paul's M. E. church choir will be held Friday evening at the church with Mr. McIntosh, as director.

The Missionary Society of the First United Presbyterian church will meet Wednesday afternoon at 2:30 o'clock at the church.

The Ladies Aid Society of the First Baptist church will hold an all day meeting Wednesday at the church and all members are urged to come.

Mr. and Mrs. Herschel Newhouse and daughter entertained to dinner Sunday at their home northwest of the city, Mr. and Mrs. John Ellison and Mr. and Mrs. Chester Stevens and daughter Evelyn.

Lurline Council, No. 296, will meet in regular session Thursday evening at 7:30 o'clock at the Red Men's hall in West First street. A social and a pitch-in supper will be enjoyed at the close of the meeting.

Miss Edith Edwards of Homer and Norman Coleman of Moscow were married by the Rev. John T. Scull at his residence west of Milroy last Saturday. They were accompanied by the bridegroom's father.

Charles Ryan and family entertained Sunday to a high noon dinner party. Those present were Mr. and Mrs. Frank Wilkins and daughters LaVaughn and Clara Mae and the Misses Margaret Slack of Greenfield and Gladys Hasty of this city.

Mr. and Mrs. R. M. Ellison and son had the following guests for dinner Sunday: Mr. and Mrs. E. E. Ellison, Mr. and Mrs. Noah Reddick, Mr. and Mrs. Clarence Ruby and family and Mr. and Mrs. Cortie Reddick and family.

The Willing Worker's Sunday School class of the St. Paul's M. E. church will meet Thursday afternoon at 2:30 o'clock in the parlors of the church. Election of officers will be held at this time and an interesting program will be given. Every member is urged to be present.

Mr. and Mrs. Malcolm Newkirk delightfully entertained the members of the Progressive Boosters class of the First Baptist Sunday school, Monday evening at their home in West Tenth street. The meeting opened with a business program followed by a short program and a social hour. Refreshments were served.

Mrs. Jacob Wolting and daughter Miss Cora entertained at dinner Sunday at their home in North Morgan street, the following guests, Mr. and Mrs. John Merz and sons Wallace, Alfred and Harold of Clermont, Ind., and Mr. and Mrs. Harry Wiley and daughter Kathleen of this city.

The Fortnightly Study Club was entertained Monday evening at the home of Mrs. Tom Bradley in West Ninth street. The meeting opened with reading the Collect, after which the members responded to the roll call with quotations from Rupert Brooks. A short business session was held, followed by a biography of Rupert Brooks by Mrs. Harold Reeve, including the reading of several of his

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

Be Prepared for the Hatching Season

MAYS, IND.

For Office Or Street

Though this is essentially a sport costume it is very appropriate for street or office. It is of tan woven with a novelty border running through the material trimming the skirt, hem, collar and cuffs. On cool days the collar may be worn close about the neck and the scarf tied so the ends are thrown over each shoulder.

poems. The hostess served light refreshments at the close of the program.

Mr. and Mrs. Chester Stevens and daughter Evelyn delightfully entertained Sunday evening at their home northwest of the city, with an informal party. The guests were Mr. and Mrs. Herschel Newhouse and daughter, Mr. and Mrs. R. M. Ellison and son, Mr. and Mrs. Ray Sample, Mr. and Mrs. John Ellison, Mr. and Mrs. Russell Stevens, Mr. and Mrs. Clarence Ruby and family. A dainty luncheon was served during the evening, the hostess being assisted by Mrs. Herschel Newhouse.

Mr. and Mrs. B. W. Riley have received an announcement of the marriage of their grandson, Albert C. Stearns, Jr., son of Mr. and Mrs. Albert C. Stearns, Sr., of Indianapolis, to Miss Helen Dorothy Smith, daughter of F. C. Smith, which took place Friday September 5, 1924, at Mitchell, South Dakota. They will be at home after October 15 at 509 Bellevue Place, Milwaukee, Wis. Mr. Stearns has visited here several times and the announcement will be a surprise to his friends here.

Miss Lavienna Compton of this city who is a senior at Schuster-Martin Dramatic school in Cincinnati, Ohio, gave a program of readings before the Rotary club in Covington, Ky., Tuesday evening. Miss Compton and Miss Olive Vail, a graduate of Schuster-Martin school gave a program and one act play in Brookville, Ind., Wednesday evening. Miss Compton is on the program for the State War Mother's Convention to be held in Spink-Arms Hotel in Indianapolis this evening. She will spend several days there as the guest of her parents, who are residing in that city.

Mr. and Mrs. Horatio Webb delightfully entertained at their home southwest of the city Sunday with a pitch-in dinner. The home was prettily decorated with fall flowers. Promptly at twelve o'clock the guests assembled around the dining table where the dinner was served. Those present were Mr. and Mrs. Milt Bass of Shelbyville, Mr. and Mrs. Rue Miller and children of Manilla, Mr. and Mrs. Mark Plessinger of Shelbyville, Mr. and Mrs. Clarence Lord and son, Mr. and Mrs. Virgil Vickery and son, Mr. and Mrs. Will Arnold and daughter of Mays, Mr. and Mrs. Frank Webb and Mr. and Mrs. Esta Webb. The afternoon was enjoyed socially with music. Mr. and Mrs. Lon Stewart were guests in the afternoon.

DAY 'BY DAY IN EVERY WAY SKIRTS GET SHORTER, SHORTER

By HEDDA HOYT

New York, N. Y., Oct. 11—Long skirts carry germs, they say. Short skirts make one look fat. But to reach the hem of the skirt today

A germ must be an acrobat! There is no visible sign of long skirts returning in the Fall. Skirts are growing shorter, if anything. Five out of six women one sees on Fifth Avenue are wearing skirts carrying from the sidewalk.

This same shortness is found in sleeves, in spite of the fact that most of the leading designers have been making their Fall gowns with long, tight-fitting sleeves. Women who have known the comfort of short sleeves refuse to accept the uncomfortable long sleeve, either for street wear or for dress wear.

Many of the best dressed women in New York are wearing Fall frocks made with sleeves which are mere shoulder caps or sleeves which extend between the shoulder and the elbow and with these short-sleeved frocks they are wearing gloves which extend almost to the elbow.

Generally the Fall frock has some sort of a short cape wrap. Many of them have the new five-eighths length coats which match the frock. These ensemble suits are very popular just now and will be worn until the weather demands a fur coat.

As to shoes, vamps are neither long nor short but are a happy medium which will meet with the approval of those who like short, French vamps, as well as those who prefer longer vamps. Evening slippers show longer vamps than shoes for day wear. Silver brocades lead as evening footwear and these are either made in simple pump shapes, or with the single strap over the instep. Ankle straps and cut-out effects made in leather are not being worn this season.

Just a word about the silver slipper; one should always be sure to wrap all metal cloth slippers in black paper when not wearing them, as this prevents them from tarnishing. Most of the shoe shops will supply one with this paper.

Gloves of short gauntlet lengths are more popular than longer types. This applies to the glove which is worn with the short sleeved dress as well as to the glove which is worn with the tight-fitting sleeve. With the long, tight sleeve, the glove pulls up over the cuff of the sleeve and since most gloves have decorative cuffs, this fashion is very effective.

Gloves of two button type which button about the wrist are seldom worn and they are selling very cheaply for this reason. Chamoisette gloves are now being made in the finest of weaves, so that one can scarcely distinguish them from suedes which are so popular this season. One can purchase several pairs of chamois for one pair of suedes.

Chamois gloves do not soil so quickly as suede gloves and they are washable, which makes them doubly attractive. They are made in the latest of novelty styles and for everyday wear, at least, are in quite as good taste as the real suedes.

Umbrellas grow shorter and have thicker handles each season. This year they are squat little things with extremely thick wooden handles, through which run leather arm- straps.

Corsets—one shouldn't really speak of them as corsets—are growing longer and more boneless. The elastic girdles which extend from waistline to the hips are not as popular as long models which extend well over the hips and are held down by elastic garters rather than by bones. Brassiere and girdle are often made in one garment and these are of the finest of cotton cloth and are almost entirely boneless.

While many women have entirely given up the wearing of corsets, there are women who feel that a corset is as important to a woman as an envelope is to a letter. A letter won't go anywhere without an envelope and some women won't go anywhere without a corset. There are women who believe that a "lady" is stamped by the fit of her corset.

IN SEARCH OF AN OLD PAPER

Mrs. Phil Wilk Wants Copy of Telegraph of April, 1877

Mrs. Phil Wilk, who was appointed historian for the centennial celebration of the First Presbyterian church, to be held early next year, has received from John Abercrombie of Miami, Florida, formerly of this city, a copy of the Rushville Telegraph of Wednesday, May 2, 1877, which contains the second of a series of articles on "The Presbyterian church in Rushville," giving much valuable historical data, and she is searching for the paper containing the first article.

Anyone who has a copy of the Telegraph for the last week in April, 1877, is urged to get in touch with Mrs. Wilk at once. The articles were by D. M. Stewart, who was well acquainted with the early history of the church, which at that time was 52 years old. The Telegraph was not published very long. Bunting and Bates were the publishers and George Bates was the editor.

Lebanon—Samuel L. DeMars, of New York, was driving through here and stopped at William E. Yellon's grocery for a sack of apples. The store looked so clean and neat DeMars bought the place and bid the option signed in twenty minutes.

New Use for Airships

It's an airship age. This is to introduce Lots Seidman of San Antonio, Tex., who will in turn introduce the "Shamondah beauty spot"—the latest fad in the way of facial make-up. The style is proving popular with many members of the Antonio Younger set.

ENTHUSED WITH THE OPTIMISM HE FOUND

John W. Davis Looks With Satisfaction on Accomplishments of Second Tour of Indiana

LAST SPEECH AT TERRE HAUTE

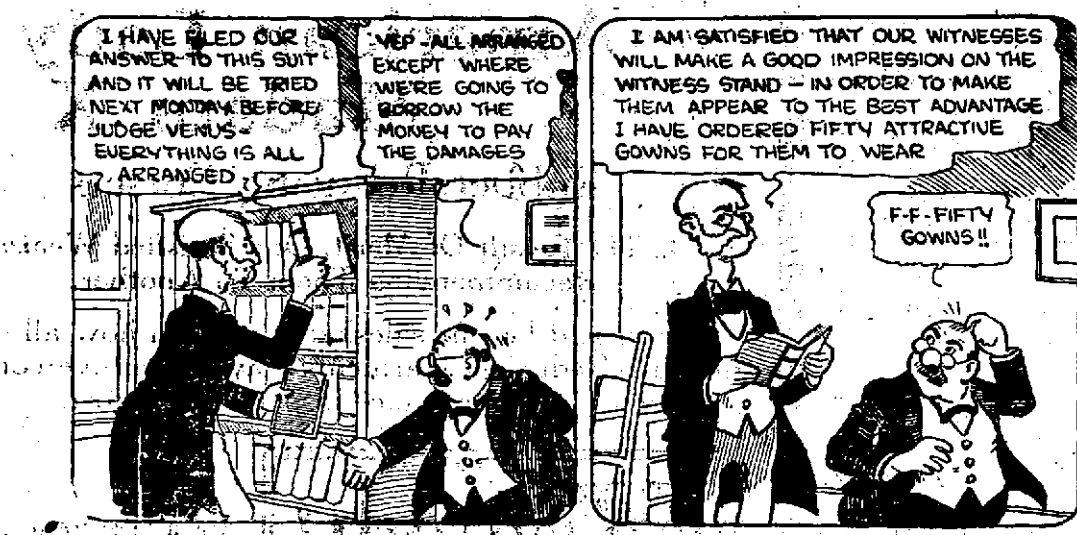

Terre Haute, Ind., Oct. 14—Enthused by the optimistic reports given him by Indiana political leaders and deeply touched with the reception he has received while in the state, John W. Davis, democratic presidential candidate today looked with satisfaction on the accomplishments of his second tour of the state.

The candidate left here at 9:16 a. m. for Springfield, Ill.

In a speech here last night Davis asked the voters to search their hearts before casting their ballot for a continuation of the Republican administration.

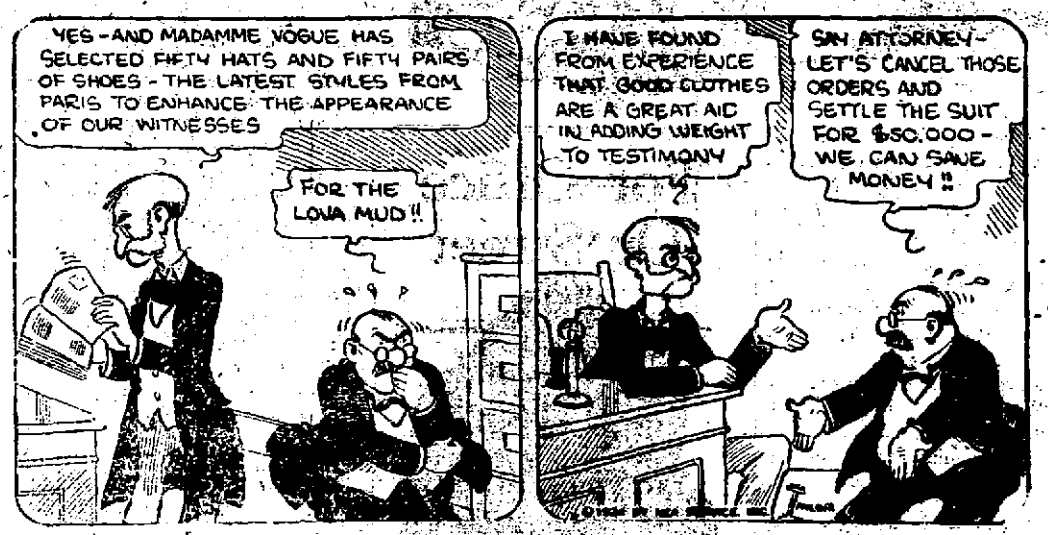

He made specific attacks on President Coolidge and Secretary Mellon. The indictment of Senator McClellan, which he contended was a "black and dastardly crime" was "procured at a joint conference between the agents of the attorney general and

Finally found health in Kellogg's Bran after suffering long with constipation

Mr. Patch writes that Kellogg's Bran "solved his problem." It has solved the problem of constipation—mild and chronic—for thousands of others. It has brought relief when all else has failed because Kellogg's Bran is ALL Bran. Nothing but ALL Bran can be 100 per cent effective. Read Mr. Patch's letter.

Dear Sirs:

I have been a constant sufferer from constipation and have wondered what was the cause of it. I have tried about all the cereals I could think of, and finally tried Kellogg's Bran. This solved my problem. I feel 100 per cent better and I owe it to your Bran. Thanking you very kindly for this great cereal, I am,

Very respectfully,

Chester C. Patch,
751 Main St., Greenwood, Mass.

For the permanent relief of constipation, eat Kellogg's Bran regularly—two tablespoons daily—in chronic cases, with every meal. It sweeps, cleans and purifies the intestines. It rids them of the dangerous poisons that lead to other diseases. It is guaranteed to bring results, or your grocer will return four money.

Kellogg's Bran, cooked and krum-bled, is delicious with milk or cream. You will like its nut-like flavor—so different from ordinary, tasteless bran. Sprinkle it over the cereals. Cook it with hot cereals. Eat it in Kellogg's Bran muffins, griddle cakes and many other wonderful recipes given on the package.

Kellogg's Bran, cooked and krum-bled, is made in Battle Creek and is served by the leading hotels and clubs everywhere. It is sold by all grocers.

UNABLE TO RESIST LURES OF THE DANCE

Prince of Wales Delays Departure From Chicago For Detroit Three Hours to Enjoy More

GUEST AT EXCLUSIVE CLUB

Chicago, Oct. 14—Unable to resist the lure of the dance, the Prince of Wales delayed his departure from Chicago for Detroit three hours, pulling out of here at 3:30 a. m., today.

The train was due in Detroit at noon.

The original plans called for departure shortly after midnight. At that hour the dancing at the Saddle and Cycle Club, most exclusive club in Chicago was at its height, and H. R. H. was loath to go.

He was gyrating with some of the most beautiful flappers and young matrons in the city and when the hour of departure arrived, David Windsor said he would not leave off for anything and the dancing went on until the proverbial dawn.

MARRIAGE LICENSE

A marriage license has been issued to Norman Coleman a farmer and Mrs. Robert Edwards. They are all residents of near Moscow, and were married by the Rev. John Scull.

THIS WOMAN'S MARVELLOUS RECOVERY

All Due to Lydia E. Pinkham's Vegetable Compound

Truman, Minn.—"I was badly run-down, had pains in my side and back; sometimes I could hardly move around in bed. My husband got me Lydia E. Pinkham's Vegetable Compound, and after taking it I was so much better I could do all my work again. I do my housework, have a garden, raise chickens, and in harvest time I worked in the field and helped pick corn. Sometimes I do chores and milk. I took the Vegetable Compound before and after my four-month-old baby was born, and it has always helped me wonderfully. I believe there is no better medicine made for women, and I hope every woman will give it a fair trial."—Mrs. AUGUST R. WIEDGORT, R. No. 2, Box 84, Truman, Minn.

Women suffering from troubles so common to their sex should give Lydia E. Pinkham's Vegetable Compound a fair trial.

The Lydia E. Pinkham's Vegetable Compound has relieved women of such troubles for the past fifty years. For sale by druggists everywhere.

Because of remodeling of the Poundstone building, where I have been located, I have moved my office from 231 Morgan street to 207 W. Third street, just around the corner by the express office.

PUBLIC SALE

THURSDAY, OCTOBER 16 — 12:30 P. M.

Notice is hereby given that I, the undersigned, will sell at Public Sale at my residence, 8 miles west of Rushville, 2 1/2 miles south of Arlington, 2 1/2 miles north of Homer, the following property, to-wit:

Farming Implements

1 wagon; 1 iron wheel wagon; 1 Oliver riding plow; 1 Oliver walking plow; 1 double disc; 1 cultipacker; 1 two-row Gale corn plow; 1 Janesville corn planter; 1 pair fence stretchers; 1 Deering mower; 3 sets of single work harness; 1 set of buggy harness.

2—Jersey Milk Cows—2

24—Duroc Hogs—24

This offering consists of a fine bunch of Pure Bred Duroc boars and Gilt, all of which are eligible to register.

2—Good Farm Mares—2

1 sorrel mare, 10 years old, blind, weight 1600. 1 black mare, 9 years old, weight 1500.

TERMS—All sums of \$10.00 and under, cash; over that amount a credit will be extended until Christmas without interest. All notes not paid at maturity shall draw 7 per cent from date. 2 per cent off for cash.

"The Great White Way," a new photoplay that mirrors life on Broadway opened Monday at the Princess theatre. Leading celebrities of the prize ring, the race track, prominent sports writers and other familiar figures of sportdom make their film debut in the picture.

The turf and the ring, along with the leaders in these two branches of sport, are graphically brought to the screen in this picture of life in the great metropolis. One of the big features is a realistic prize fight in which Pete Hartley, well known lightweight contender, battles Oscar Shaw, leading man of the film.

This scene includes such sporting celebrities as Tex Rickard, who appears as promoter; Joe Humphreys, announcer, and Johnny Gallagher as referee. Others who appear around the ring or in training quarters of Madison Square Garden are Irvin S. Cobb, Damon Runyon, "Bugs" Baer, Billy De Beek, "Kid" Broad, Tammany Young and H. C. Witwer, author of the story.

Another thrilling feature of "The Great White Way" is a big race track scene, filmed at Belmont Park on Futurity Day. It discloses a realistic steeplechase, specially staged for the picture, and many other phases of turf life. Earle Sande, world's premier jockey, is another of the many sporting celebrities who appears.

The regular cast, in addition to Oscar Shaw, includes Anita Stewart, T. Roy Barnes, Tom Lewis, Olin Howland, Harry Watson, Dore Davidson, Hal Forde, Stanley Forde and Frank Wonderley.

The Vandeville program given by Miss Mary Estelle Compton, reader, and Frances and Bonnie Jean Beale, dancers, at the benefit show, "Listen Lester", Monday evening at the Castle theatre, will be repeated again tonight. The little girls received much applause for their program and it is expected that they will be a big drawing card again tonight. The picture show is being given under the auspices of the Tri Kappa sorority.

ARLINGTON

There will be a prayer meeting service at the M. E. church Thursday night.

Ira Long and family left Monday for Florida where they will make their future home. Mr. Long has been a citizen of Posey township all his life. He is a plasterer by trade.

Mr. and Mrs. Tom Addison and family visited Mr. and Mrs. Frank Addison Sunday.

Mrs. Raymond Whicker visited at the home of George Inlow in Manila Friday and Saturday.

Perry Reddick has rented two rooms in Charlie Stout's home and has moved there.

Bert Kennedy is ill at his home here.

Mr. and Mrs. Otis Folger and daughter and Miss Estella Bronson of Richmond visited at the home of D. M. Pressnall Sunday.

Mrs. Alice Miller and son Paul and Myrtle McMichel visited in Rushville Sunday.

Mr. and Mrs. Arlie Riggsbee and family of Indianapolis were guests of Mr. and Mrs. Lee Mary Sunday.

Miss Myrtle McMichel is staying at the home of Mrs. Edith Esque.

Miss Godwin of Greencastle, who has been visiting here brother, the Rev. T. G. Godwin, returned to her home Monday afternoon.

Mr. and Mrs. Harry Nelson and Mr. and Mrs. Charles Sharp visited Mrs. Amanda Sharp Sunday.

Miss Welker, formerly a school teacher in Arlington, spent the week-end as the guest of the Rev. and Mrs. T. G. Godwin.

Mrs. Lucy Addison and Mrs. Amanda Sharp visited Mrs. Mahala Edwards Monday afternoon.

Miss Mary Folger of Indianapolis, and formerly of this county, who has been ill for two months, was not quite so well last Thursday.

Born to the wife of Charles Pierce an eleven pound boy. He was named Sabert Eugene.

There is to be a special program given next Sunday at the M. E. church during the Sunday school hour, in observance of Rally day, an effort will be made to reach the goal of 200 attendance.

A reception will be given at the Pleasant Ridge M. E. church next Wednesday evening for the new pastor, the Rev. T. G. Godwin. The Arlington church is invited to take part.

SEXTON

There were thirty-five in attendance at Sunday school, Sunday.

Mr. and Mrs. J. D. Whitton, Mr. and Mrs. Earl Grubbs south of Rushville Sunday.

Sol McBride and Marion McBride spent the week-end visiting relatives in Elwood and Kokomo.

Mr. and Mrs. Charles McKorkhill and Mr. and Mrs. Harley Becraft

and children spent Sunday in Indianapolis.

Mr. and Mrs. Fred Blessinger and children visited Mr. and Mrs. Jack Cooksey at Spiceland Sunday.

Mr. and Mrs. Omer Thompson, Mr. and Mrs. Charles Thompson and Mr. and Mrs. Roy Thompson motored to Dayton, Ohio, Sunday and visited.

Mr. and Mrs. George Fahnner and children.

Mr. and Mrs. Orville Porter and children spent Sunday visiting Mr.

and Mrs. Elsworth Kiser, Mr. and Mrs. William Kiser and daughter were visitors in the afternoon.

Mr. and Mrs. George Meyers and their daughter Nellie Meyer of Rushville were here Saturday to see William Meyer, who is seriously ill.

Mrs. Ernest Burton and baby of Connersville and Mrs. Vern Moore and children of Richmond are here at the bedside of their father, William Meyer.

Mrs. Harry Land returned to her

home in Mays Sunday evening after a few days visit in Cincinnati.

Mr. and Mrs. Ralph Conner, Mrs. Brock and Delbert Hobbs attended the Barnes reunion held Sunday at the home of Mr. and Mrs. Charles Jones, west of Rushville.

Mrs. William Kiser and daughter are visiting in Connersville.

Mrs. Rebecca Newkirk is visiting relatives in Elwood.

There will be a neppy supper at the new Osborne school house Friday night.

RAIL MERGER PLAN

Washington, Oct. 13—All railroads east of Chicago and north of the Ohio river would be grouped around the New York Central, the Pennsylvania, the Baltimore and Ohio and the Nickel Plate under the terms of a merger plan reported to have been laid before the interstate commerce commission by the executive of the roads named.

The plan is said to have been submitted Saturday by Patrick Crowley

of the New York Central, Samuel Rea of the Pennsylvania, Daniel Willard of the B. and O. and Van Sweringen Brothers of the Nickel Plate, as an alternative to the commission's tentative consolidation plan, which calls for nine systems in the Eastern region.

An old tobacco secret re-discovered—

1870—
Wellman's
famous old
secret

GRANGER

ROUGH
CUT
PIPE
TOBACCO

1921—
revived for
Granger

1924—
a popular seller
in 32 states—a
quarter-million smokers

A new richness from an old-time process

Made for pipes—cut for pipes—
packed sensibly to save money

NOW it can be told. Three years ago we decided to revive a famous old secret method of mellowing tobacco—"Wellman's Method", it was called.

For three years we have been quietly trying it out—we, and about a quarter-million shrewd pipe-smokers who discovered it for themselves.

No whirlwind campaigns, no "special offers", no extravagant claims; Granger Rough Cut has made good on its taste alone. There could be no better proof of its quality.

Now we are ready to "tell the world".

An extraordinary pipe tobacco. "Wellman's Method"—now ours exclusively—not only mellows tobacco, but "rounds it out"—gives it a new taste, richer and milder.

There's no other method like it, nor any other tobacco like Granger.

And not only differently mellowed, but cut differently—cut for pipes. The Rough Cut burns more slowly, hence smokes cooler—and a pipe-load lasts nearly twice as long.

And finally—notice the package.

If Granger Rough Cut were packed in fancy lithographed tins, it would cost 15 cents.

But wrapped in smart heavy foil, you get this fuller, longer, cooler smoke at a third less cost. Foil instead of costly tin—hence the price.

Too good to be true?

Ask any man who has tried it. Better yet—get out your pipe!

10¢

Granger Rough Cut

A Pointer on Tobacco—

The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the "cut". Granger is "rough cut" so smoke slow and cool—cut for pipes, not cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.

LOGGITT & MYERS TOBACCO CO.

POULTRYMEN TO MEET OCT. 14-16

More Than Three Hundred Men and Women Expected to Attend Fall Meet at Purdue

TO DEDICATE NEW BUILDING

Program Has Been Completed and Biggest Meeting Ever Held by Hoosier Poultrymen Is Expected

More than 300 Indiana poultrymen and women are expected to attend the annual fall meeting of the Indiana State Poultry Association which will be held at Purdue University, October 14, 15 and 16. The program has been completed and the biggest meeting ever held by Hoosier poultry interests is expected. Dedication of the new poultry building at the University, which was occupied July 1, and which the state association was instrumental in obtaining will be a big feature of the three day program.

The first day has been set aside for baby chick producers and the entire program will deal with various topics of interest to those engaged in this phase of the poultry business. A baby chick supper conference will be held that evening. The second day will be known as Purdue Day when results of experiments will be given in detail to all attending. The new building will be dedicated and an inspection trip will be made over the poultry farm. The annual association banquet will be held the evening of the second day. Both of these banquets will be in the new million dollar Memorial Union Building of the campus. The last day will be known as breeders' day with the men on the program from the farms of Indiana.

Breeding of dual purpose fowls for high egg production will be one of the interesting topics to come before the meeting. Live birds with high egg records, as shown by the trapnest, will be on exhibit to show that others besides Leghorns can fill the egg basket. A practical plan for the improvement of the farm flocks will be outlined discussion of the state egg laying contest and other extension projects will be on the program. Prof. A. G. Phillips, head of the university poultry department will speak on his recent trip to Europe to attend the World's Poultry Congress and of agricultural conditions there.

"There are two problems prominently before the hatchery operators of Indiana, problems which must be faced squarely and frankly," said L. L. Jones, secretary of the association, in an announcement of the meeting. "First, is testing for bacillary white diarrhoea practical for a hatchery? Is one test sufficient? Is the test reliable? Can it be applied to pullets as well as hens? Can a hatchery as a business proposition, afford to test or must testing be left to the individual breeder."

"The second problem is that of accredited hatcheries Wisconsin, Michigan, Illinois and Ohio are taking up this work and it is a topic to be taken up at our meeting. Both of these problems are of importance to the man who buys baby chicks and to the breeder of poultry who has to meet this competition. Hence, no poultryman should miss this afternoon session even though not a hatchery operator."

Owners of all the large hatcheries and commercial egg farms in the state are expected to attend the meetings and others connected with

SMALL VS. BIG BEGINNINGS

Young Farmers Urged to Take up Pure Bred Business

Many young farmers hesitate to go into the pure bred live stock business because so much emphasis has been laid on extensive methods and rapid progress of the larger and more influential breeders. At this particular time it would be well if the young farmers of Rush county would dispel this idea and start a pure bred herd of hogs.

A young man who could purchase a pure bred sow at one of the Rush county hog sales this fall, and by giving her reasonable care, could have a good herd within the next few years. His investment does not need to be a large one, but it can develop in proportion to his experience. This is not the quick way to build, but it is the safest and soundest way for most men in any business to develop.

SPRAYING BETTER THAN DUSTING IN ORCHARDS

Indiana fruit growers interested in the use of dust material for the control of orchard pests, should know that dusting cannot yet be recommended as a substitute for the full complement of liquid sprays in the program which they are now following. In protecting apple trees from serious fungus troubles such as scab and blotch, liquid spraying will be found more dependable under Indiana conditions than sulfur dusting.

This is the statement contained in Bulletin No. 283, "Liquid Lime Sulphur versus Sulphur Dust for Apple Spraying" just off the press of the Agricultural Experiment Station of Purdue University. Its authors, F. P. Cullinan and C. E. Baker, have done considerable experimental work with the two methods of disease and insect control and the results are contained in the bulletin.

In the tests reported apple scab was not satisfactorily controlled with either liquid sprays or dusts if the applications were not timely with reference to rains and general weather conditions. The pink or cluster bud spray, may in some seasons be too late to protect the fruits, leaves and floral parts against early scab infection. The pre-pink spray which is applied when the first leaves expand in the blossom cluster may prevent this early infection. Where apple scab was serious this application has proved a highly desirable addition to the ordinary scab schedule which now provides for the pink spray, petal fall spray, and the spray two or three weeks after petal fall.

Dusting has controlled codling moth quite effectively and in orchards where apple scab, bitter rot and blotch are not serious, dusting may prove a time saver in the later summer applications that may be applied primarily for the control of this insect.

Dormant liquid sprays are still essential for the control of San Jose Scale.

the allied industries are invited. C. L. Manwaring, of Mentone, is president of the association.

Gary—The hand of the law slapped swiftly here. Edward St. John and Robert King, both 18, were started on their way to prison to serve from three to five years sentence inside of twenty-four hours after pleading guilty to stealing an automobile.

FOURTEEN STATES IN BIG SWINE DISPLAY

Ninth National Show, Closing at Peoria October 4, Was Satisfactory to All Breeders

TON LITTER WORK FEATURED

The Ninth National Swine Show was held in Peoria, Ill., Sept. 29 to Oct. 4th. Most of the state fair winners from the eight breeds of swine were assembled in the show, which is of national scope. There were fourteen states which contributed to the show.

From the breeder's standpoint the ninth show was entirely satisfactory. They had less to say this year than a few years ago concerning type. Interest in that subject persists and strong views in regard to it will continue to be expressed, but economical production is receiving special attention of most hog men. They are engaged in or advocating ton litter work with an increasing enthusiasm.

The Indiana breeders ranked second among the fourteen states in taking away the championship winnings. Grand champions went to the states in the following order: Iowa, Indiana, Minnesota, Michigan, Illinois, Champions—Iowa, Indiana, Illinois, Minnesota, Michigan, Ohio; Reserve Champions—Iowa, Indiana, Ohio, Illinois, Nebraska.

PURDUE ADDS TO GUERNSEY HERD

In keeping with the increased interest that has developed in Guernsey cattle in Indiana, due to the growth of this breed in the state Purdue University recently added five two-year old heifers to the Guernsey herd. It is the plan to bring the number of Guernseys in the Purdue herd up to that of the Holstein and Jersey breeds in the near future.

The foundation of the university's Guernsey herd was laid five years ago when six two year old heifers were bought from an importation just landed from Guernsey Island. Some good records were made by these heifers. Imp. Jeannette of Seignurie 94269 produced 522 pounds of fat in "B" class and Imp. Rosetta III of Annville, 94254 made 493 pounds in the same class.

A short time ago in Fond du Lac county, Wisconsin, five two year old heifers were bought to increase the size of the university herd. Considerable attention was paid to the type and breeding of these heifers.

B. F. Shridan, secretary of the Fond du Lac county Guernsey Breeders association spent considerable time in helping locate these heifers and a large number of the good herds of that county were visited.

Heifers were obtained from the herds of A. W. Hargrave, Ripon; Herman J. Duecker, Ikel; J. C. Harch, Rosendale; J. H. Beirne, Oakfield; and B. F. Shredan, Fond du Lac. These heifers were bred to some of the best bulls in that county and most of them are due to freshen soon. They will be put on test as soon as they freshen and some of them show splendid indications of ability to produce.

Washington—John M. McCafferty, field agent for the Indiana reformatory, has started a war on constables. He was mistaken by members of a horse thief detective association for a bootlegger and without a search warrant they demanded he turn over his grip for inspection.

SELECT POTATO SEED AT DIGGING TIME

By F. C. GAYLORD
Horticultural Extension Staff, Purdue University

"I have always selected my seed at digging time and as a result I have doubled my yield in the past five years," thus summed up J. B. Shively a northern Indiana potato grower who for more than ten years has been saving his own strain of Rurals.

Shively's potatoes, when planted a long side of the best strains of Certified seed yielded as well as they did, thus proving that any farmer having a good late potato patch planted from selected or disease free seed can by careful selection, keep his seed in the corn belt for a period of years without its losing any of its vigor or ability to produce big yields.

W. W. Stauffer another Indiana farmer who has averaged over 325 bushels per acre for the past three years has also developed a real strain of Rurals by careful selection of the best hills at digging time.

Stauffer's method is to dig a few rows at a time by hand and then save the hills which have a large number of uniform, healthy, good tuber in them. Of course, Stauffer's potato field is planted to good seed and carefully tended. Thus by constant selecting from the best hills year after year the seed has gradually become better instead of worse as in the average farm patch.

Any farmer who has planted certified late potato seed and expects to keep his own seed supply should by all means save at digging time enough potatoes, hill selected with which to plant the next year's potato patch. After the potatoes are in the hill one can't tell whether the little ones came from good or poor hills; this is easy when you see the hills as they are dug.

HOMER

Mr. and Mrs. Herbert Branam and daughter and Miss Norma Miller spent Sunday with Omer Mahan and family. In the afternoon they motored to Laurel.

Mr. and Mrs. Flem Burton and son spent Tuesday evening with Mr. and Mrs. William Ellison and family.

Mr. and Mrs. Osa Ellison and Mr. and Mrs. Bert Dearinger and son attended church services at Arlington Sunday.

Mr. and Mrs. Charles Ellison and daughter Geraldine visited Mrs. Olsen Orme Sunday afternoon.

Mr. and Mrs. Henry Wilson spent the week-end with his daughter, Beatrice Orme.

Mrs. Lawson is reported to be seriously ill at her home here.

Mr. and Mrs. Zeno Hodge celebrated their fifth wedding anniversary with a weiner roast Wednesday night.

Mr. and Mrs. Ralph Gosnell spent Wednesday evening with Wash Gosnell and daughter Ethel.

Mr. and Mrs. Russell Johnson and sons Wayne and Eugene, J. S. E. Hilligoss and Mr. and Mrs. Ollie Brown of Rushville spent Sunday visiting in Alexandria.

Mr. and Mrs. William Mitchell entertained their daughters and husbands Sunday. The guests were Mr. and Mrs. Roy Miller and son Roy, Mr. and Mrs. Emlin Davis and son Loren, Mr. and Mrs. Bert Craig and daughter Viola and husband of near Morristown.

Mrs. Otis McMullin of Shelbyville spent Thursday night with Mr. and Mrs. Zeno Hodge.

Mr. and Mrs. William Mitchell entertained their daughters and husbands Sunday. The guests were Mr. and Mrs. Roy Miller and son Roy, Mr. and Mrs. Emlin Davis and son Loren, Mr. and Mrs. Bert Craig and daughter Viola and husband of near Morristown.

Mrs. Otis McMullin of Shelbyville spent Thursday night with Mr. and Mrs. Zeno Hodge.

The Young Married People of near this vicinity will hold a bible meeting every two weeks on Sunday night at the Christian Union church with Mrs. McMullin as the regular teacher. Every young married couple is urged to attend.

Mr. and Mrs. Oren Ventch spent Sunday with Billy and Sarah Branam.

Mrs. Laura Warfield will spend the winter with her sister, Mrs. Johns of near Manila.

Miss LaNelle Krammes spent Saturday evening with Miss Beulah Willis.

There was a large crowd that attended Rex Kemple's hog sale. He will move soon to Elmer Hutchingson's farm north of Arlington. Russell Orme will move where he lives.

Mr. and Mrs. Tom Huffard spent last Sunday evening with Mr. and Mrs. Bert Jordan.

Mr. and Mrs. Ralph Brown and daughter Mary Marjorie spent Wed-

What Have You Got at About \$25?

When that question is asked we don't reply orally, we answer by bringing out suits — keep on bringing out suits — and continue bringing out suits until you have said "enough."

In short, while \$25 is a rather short figure in most stores for anything worth wearing — at Knecht's O. P. C. H. it allows you to be important and as exacting as though you had driven up in a "Packard" and said "James, bring in those \$10,000 bills out of the back seat!"

"We Say It with Values"

Record Fish

This is believed to be the largest sturgeon ever caught in northern waters. It was taken from Sturgeon Bay, Lake Huron, near Mackinaw City, Mich., with nets. It measured seven feet and weighed 100 pounds.

flock has gradually improved until it is now rated as one of the best college flocks of the breed in the United States.

USES HORSE CART TO PICK HIS SEED CORN

Cyrus Willey Goes Down The Rows and Makes Selection, Rather Than Use Old Methods

JUST NEEDS ONE HELPER

The majority of farmers approve of the idea of going through their fields early in October to select the most mature ears direct from the stalk. But three out of every five farmers get weary after the first half day, if they do not get approximately five or more bushels of seed gathered, which is an almost impossibility when it must be carried out the old way.

Cyrus Willey, who lives southeast

EVERGREENS MAKE GOOD WINDBREAKS FOR FARM

By C. L. BURKHOLDER
(Horticulturist, Extension Staff, Purdue University)

Each year sees a further reduction in the forests in Indiana. This naturally provides ideal conditions for the cold winter winds to sweep along for miles before being checked by an area of woods. The average farm home, barns and feed lots can be made 10 percent warmer and more comfortable if an artificial windbreak of evergreens is planted to the North and West of the farm buildings. Practically all varieties of evergreens are best planted in the fall, preferably the latter part of September or early in Oct.

There are two varieties that can be recommended for Indiana planting. One is the well known Norway Spruce, the other the Austrian Pine. Both make a fairly rapid growth which is dense enough to make a good kind break. Either of these varieties should be planted about 12 feet apart if set in a single row. A very good method of planting is to set a double row, staggering the second row and planting the trees about fifteen feet apart.

An evergreen windbreak will make a much better start if the trees are kept hoed or heavily mulched with straw for the first five or six years. Never use fresh manure on evergreens.

The large sizes of these varieties are rather expensive but small trees ten to twelve inches high can be purchased reasonably and will soon be growing rapidly if given the care suggested.

of Homer, has arranged a box containing approximately 5 bushels, on an old corn cutter. He hitched a horse to this and drives down through the field and with one assistant he gathers the mature ears from the pair of rows on both sides of the cart.

Many Rush county farmers who are selecting a quantity of corn before shucking time can well afford to model a cart after that of Mr. Willey's.

Legansport—A memorial tablet here dedicated a year ago Armistice day by war veterans was defaced by unknown vandals. Three gold stars were torn off the tablet removed and stamped on.

Columbus—Fearing the slayer of her son would not be sufficiently punished, Mrs. Benjamin Hardin, mother of Oscar Cutsinger, killed at Edinburg, has retained personal attorney to assist the prosecution of Elmer Pruitt, in jail here charged with the shooting.

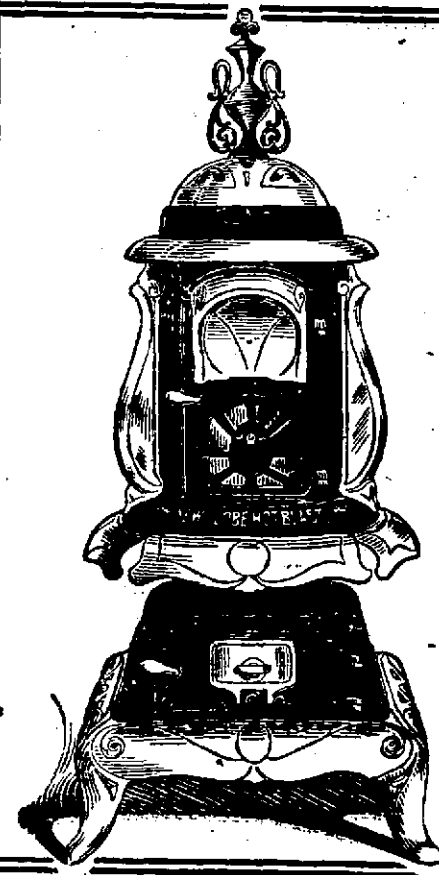

Black Smoke Is Unburned Coal

Have you ever stopped to consider the meaning of the Black Smoke that rolls from your chimney? Perhaps you have not realized that this BLACK SMOKE is CARBON and this CARBON is a great heat element in the combustion of coal. A great deal of carbon is lost through the chimney in the form of gases and soot.

To eliminate this needless loss—to get the most from the coal you burn—to make your home a comfortable home — to give you the advantages of the most even and convenient heating at a low cost—GLOBE HEATING STOVES were designed and built.

You should investigate the construction of Globe Heating Stoves before you make a purchase. If time is any proof of the quality, remember they have been sold in this store 20 years.

HARDWARE

CAN CONTROL SAN JOSE SCALE

Oil Sprays Have Been Found Effective in Control of Scale of Apple Trees in State

PREFER SPRING TREATMENTS

Boiled Lubricating Oil Emulsion and Commercial Miscible Oils Are Recommended

Lafayette, Ind., Oct. 14—San Jose scale, perhaps the worst orchard insect in the Middle West, can be controlled with miscible oils, lubricating oil emulsions and under certain conditions with lime sulphur sprays, according to the findings of a group of entomologists who met recently at Vincennes to go over the experimental results of the past four years on this work in both Indiana and Illinois. Prof. J. J. Davis, head of the entomology department of Purdue University Agricultural Experiment Station; B. A. Porter, government entomologist at the station at Vincennes, W. P. Flint, of Illinois, and A. J. Jackson, of the Arkansas station were present. They found that oil spray has obtained complete control in Southern Indiana when the infestations have been unusually severe and persistent. Growers in Northern Indiana have been successful with lime sulphur when applied thoroughly. The following statement was issued:

"Experiments the past season corroborate former results. Rather general use of lubricating oil sprays recommended by Purdue has given results this year. For scale control on apple trees in Indiana and Illinois the oil sprays applied in the fall or spring when the trees are fully dormant and the temperature about 40 degrees are recommended, spring treatments being preferable.

"The oil sprays found effective are the boiled lubricating oil emulsion and all of the commercial miscible oils that have been tested the miscible oils to be used at the rate recommended by the manufacturers and the lubricating oil emulsion at 2 per cent strength as recommended in the government and state publications. In heavy infestations a 3 per cent emulsion is recommended. The cold mixed oil emulsions have also proven effective but more difficulty has been experienced in making stable emulsions.

"For the control of the scale on peach trees, the results of experiments to date show no injury to trees from dormant applications with 2 or 3 per cent lubricating oil emulsion. The oil sprays alone are ineffective as fungicides and although tests to date indicate the possible value of a combination oil and Bordeaux spray for the control of scale and peach leaf curl, the results are not sufficiently conclusive to permit recommendations. If oil is used on peach the usual lime-sulphur applications for the peach leaf curl should be made in addition to assure complete control. Except where scale is threatening or increasing lime-sulphur is preferable for peach trees because it will usually control light infestations of scale and is effective against peach curl."

For further details for the making of lubricating oil emulsion or other information on the control of the San Jose scale, write the Department of Entomology, Purdue Agricultural Experiment Station, Lafayette, Indiana.

COMMITTEES FOR RUSH COUNTY CORN SHOW

The following committees have been appointed for the annual Rush county corn show to be held in Rushville January 6, 7 and 8, 1925.

Executive—Link Gary, Chairman; Newton Halterman; Hugh Mauzy, Secretary-treasurer.

Corn Show—Newton Halterman, Supt.; Clifford Mauzy, Secretary. Program—John Tisworth, Chairman; Robert Mansfield, Mrs. Earl Matney.

Publicity—Will Feudner, J. M. Culp, Dewey Hagen.

Finance—Hugh Mauzy, Horatio Havens, Jesse Peters.

Ladies—Mrs. Oscar Rees, Mrs. E. C. Davison, Mrs. T. Benton Henley.

Location—Lon Link, Charles Taylor, Sidney Hunt.

Arrangements—Donald Alexander, Chester Jinks, Newton Halterman.

Decorations—Paul Imel, Harry McMillin, Earl Osborn, Paul Allen, Willard Amos.

Boy's Corn Club—Carl Ging, Paul Imel, John Hufferd.

Juggernaut

Frank Bamed, 26, an electrical contractor of London, Ont., is charged with deliberately driving his automobile on a sidewalk at Niagara Falls, Ont., and killing Smyrnie Muirhead. Muirhead and his wife were out walking with Bamed's estranged wife. Bamed escaped and police have failed to find him.

Evansville—Humane officer Eldridge Shrode received a call that a baby had been crying in a home all morning since one o'clock. He found the baby was a parrot.

PURDUE PRODUCES 3 TON LITTERS

An Average of 242½ Pounds at Six Months Made by 30 Pigs in Purdue Ton Litters

HERDSMAN GETS MOST CREDIT

Poland China Litter Gets Credit of Reaching Heaviest Weight Per Pig at 180 Days

An average of 242½ pounds at six months was made by the 30 pigs in three ton litters produced by the Purdue University School of Agriculture during the past season in the Hoosier Ton Litter contest. The total weight of the three litters at 180 days was 7294 pounds. A Chester White litter of nine pigs weighed 2182; a Duroc litter of eleven pigs 2500, and a Poland China litter of ten 2612 pounds.

To Clifford Breedin, herdsman of the Purdue hogs, must go a large part of the credit for sending over the ton mark a litter in three different breeds. During the farrowing season he was at the hog barn almost day and night, caring for the sows and young pigs.

For several days before the farrowing season started last spring Breedin was busy cleaning the farrowing pens and individual houses where the sows and pigs were put after they were taken from the central house. Then followed a thorough disinfecting of the quarters. The sows were clean when they went into the clean farrowing quarters.

From the central farrowing house the sows and their litters were moved out to lots where rye had been planted last fall. Each year at the University Farm the hog lots are cultivated and sown to Dwarf Essex rape in the spring and to rye in the fall, providing fresh pasture for sows and their litters, pasture that is not infected with the parasites and disease germs that kill off or stunt so many pigs, particularly spring pigs.

The sows were fed a ration of corn, shorts, oats, and tankage while they carried their litters last winter. Just before farrowing time the proportion of corn was reduced and some bran was added. After farrowing a limited ration was fed for several days, gradually increasing to about all the sows would eat twice a day by the time the pigs were two weeks old. From that time until weaning the sows were fed a liberal grain ration.

The pigs were started on rolled oats when they were about three weeks old. A week or ten days later a mixture of rolled oats and cracked corn replaced the rolled oats. By the time the pigs were weaned they were on a ration of corn, shorts, and tankage, and of course they had the run of rape pasture.

Up to weaning time all the pigs on

the University Farm were fed alike. From that time on the pigs in the three ton litters were put on a ration of corn, shorts and buttermilk, with the run of rape pasture.

To the Poland China litter must go the credit of reaching the heaviest weight per pig and for the litter at 180 days. But to the Duroc and Chester White litters go credit for coming through in shape to provide good gilts to retain in the University Farm breeding herds, and providing barrows that are being fitted for the International Livestock Exposition in December.

"Our object in producing these litters was to demonstrate that ton litters can be produced from any breed," said Dean J. H. Skinner of the School of Agriculture in commenting upon the litters. "We expect to continue the lines of breeding represented by the litters, and build up breeding herds out of ton litter stock."

HOW TO MANAGE DAIRY BULL IN WINTER TIME

(Agricultural Extension Department Purdue University)

With summer waning, the dairyman must make some decision about caring for the herd sire during the coming winter. Most successful breeders keep the bull away from the herd, but too often he is confined in a dark, dirty stall, without exercise, from the first cold day in fall until the first nice day in April. Such treatment retards the proper growth and development of the younger males and quite often weakens the breeding powers of the more mature sires. Plenty of exercise, protection from changing weather, and a moderate ration will keep the bull in good breeding condition.

Most farmers in Indiana can easily arrange to properly care for their herd sire during the winter. A strong

stall can be built in one corner of the cow barn. Outside the barn a strong paddock can be built, and directly connected with the stall in the barn by means of an open door. In case one does not care to build a paddock a cable can be run from the stall in the barn out through the door to some point about fifty feet from the barn. This cable can be run along the ground or overhead. A short, strong, chain can be run from the ring in the bull's nose to a ring on the cable.

The paddock or cable will allow for plenty of exercise and since it is directly connected with the stall in the barn, the animal can secure protection during the time of inclement weather. One rule to follow in erecting the stall or paddock is to refrain from making the structure solid. Allow the bull an opportunity to see other cattle at all times.

No mature bull should ever be trusted, and it is a mistake to handle

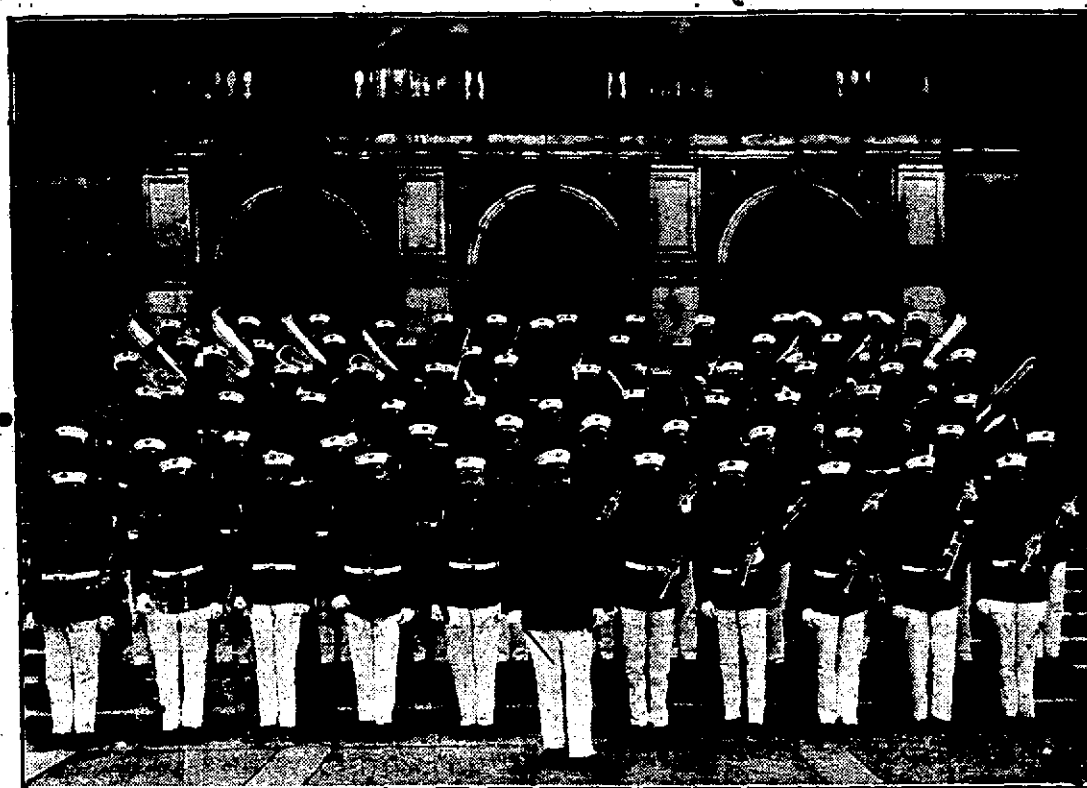

them except when absolutely necessary. When handling, always use a strong staff and never allow the bull to gain the upper hand.

A good ration, consisting of plenty of legume hay, a limited amount of silage, and a small amount of a grain mixture made up of 400 pounds ground corn, 200 pounds ground oats and 100 pounds oil meal, should be fed throughout the winter. Arrangements should also be made to provide plenty of clean, fresh water at all times.

Richmond—"My husband is a forger and he's trying to get me locked up to keep from voting. Am I a Ku Kluxer? I'm not telling you what I am, but if I die, you see they bury me in my white robe. Get me?" These were the instructions that Mrs. Myrtle Charles gave to police chief Everman when arrested on a charge of public intoxication.

THE UNITED STATES MARINE BAND

Sponsored by The Daily Republican. Benefit Rush County Child Welfare & Boy Scouts

The United States Marine Band at the Entrance to the Congressional Library, Washington, D. C.

RUSHVILLE

Memorial Park Coliseum—Matinee and Night

Wednesday, October 29th

3:30 Afternoon.

8:00 Night

Band Rarely Heard Outside National Capitol

Until the Fall of 1911 it was only at intervals of from ten to twenty years that the Band had been heard outside of Washington.

By Courtesy of the President

President Coolidge has granted permission for the present concert tour by the United States Marine Band. Like his predecessors, President Coolidge takes the position that such tours being made at a season of the year when the Band's absence from Washington will not interfere with any of its official duties, afford much pleasure to those citizens who do not have the privilege of hearing their Band in Washington; that the visits of the Band not only promote the patriotic pride of our people, but their concerts are also of educational value.

One of the Greatest Military and Concert Bands in the World

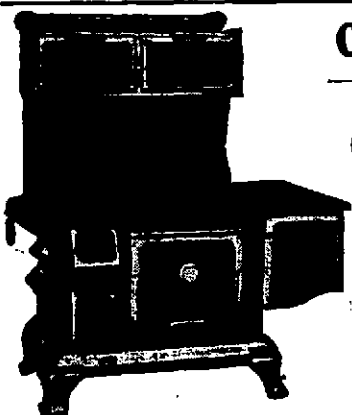

Accepting none but those musicians who can pass successfully the most rigid tests, equipping them with the finest instruments that money can buy, rigidly adhering to Departmental regulations requiring punctual attendance at full two hour rehearsal on five mornings of each week, and with an average term of service of eighteen years for its entire present membership, it is not surprising to hear that many noted Europeans who have heard the Band at the great state functions at the White House, have pronounced our own United States Marine Band one of the greatest military and concert bands in the world.

In Existence 123 Years

Organized in 1801, almost at the birth of the nation, the Band has had in all eight leaders — Tyre, Pons, Scala (who held the position for forty years and firmly established the Band's reputation), Fries, Schneider, Sousa, Fanciulli and finally William H. Santelmann, who has been the conductor since 1898.

Schedule of Prices

Adult, Afternoon Reserved	\$1.25	Adult, Night Reserved	\$1.50
(Only a limited number of reserved seats in the center section are available and those desiring same will exchange their regular tickets at The Daily Republican office by paying the extra charge.)			
Adult, Afternoon or Night, General Admission			\$1.00
School Children, over 5 years old, Afternoon			.35
(School children from the out township schools who can not get in for the afternoon performance will be admitted at night on their 35c tickets.)			
School Children, over 5 years old, Night			.50
Reserved Seats for Children will be sold in a very limited number for both performances. Exchange the regular tickets at The Daily Republican office by paying the extra.

Picturesque Sleeves

THE picturesque sleeves are the most noticeable feature of this brown moire frock. They are of pleated chiffon a few shades lighter than the dress. The chiffon is also introduced in the under panel and the scarf that is a part of the outfit. Two very large buttons of brown composition serve as a trimming and also a fastening. This is a very charming outfit for afternoon tea or the matinee.

ZEPPELIN ZR-3 IS DRAWING HERE

Her Wireless Cracking out Cheer-
ing Messages, Giant Dirigible Con-
tinues Journey Safely

STORMS BREWING IN PATH

Local Tornado Moving Northward
and Trouble is Expected to be
Avoided Successfully

Her wireless cracking out cheer-
ing messages that all aboard are
well, at least three of her four mo-
tors roaring rhythmically and speed-
ing her towards her goal, the Zepp-
elins ZR-3 with four Americans and
28 German officers and men, was
drawing near the United States to-
day.

Storms were brewing in the dirig-
ible's path and a local tornado was
reported by the U. S. Navy weather
service at 3 a. m., but it was pointed
out that the disturbance was moving
northward and that the Zeppelin was
expected to avoid trouble.

At 8 a. m., calculating the ZR-3's
diminished speed, her commander,
Dr. Eckener had cut the airship down
to 40 miles an hour—the dirigible
was approximately 1,000 miles from
America, with some 1,700 miles to
cruise before reaching Lakehurst N.
J.

American warships were scurrying
to positions whence they best could
aid the ZR-3 with reports of weather
conditions, which now are the only
cause of concern. The U. S. Army
transport Henderson and the cruiser
Milwaukee were two which
"spoke" to the Zeppelin after the
North German Lloyd liner Stuttgart,
reported the airship's position.

If nothing occurs to check her
speed, the ZR-3 should arrive at
Lakehurst some time tonight or early
tomorrow morning, according to
calculations.

Washington, Oct. 14—Speeding
from the Azores Islands to Lakehurst,
N. J., the ZR-3 at 8 a. m., today was
1200 miles off New York, according
to estimates of navy department au-
thorities.

Still without direct communication
with the giant dirigible, officers
based their estimates on two long
dispatches received from Captain
Steele, American observer aboard at
4:15 a. m., today via the Boston na-
vy yard.

Steele said the ship had turned
her blunt nose due west after passing
the Azores, eliminating the Bermu-
das from her route and was pushing
her way through the air at a good
speed with three engines. The others
have been cut off to save fuel.

A slight accident gave the crew
a few anxious moments when one of
the gas cells was torn over the Az-
ores but it was speedily repaired,
Steele said. The rip came when the
ship soared down from 5,000 feet to
which it had risen to valve off some
gas. Steele said the tear was due to
descending too rapidly.

TO UNVEIL MEMORIAL

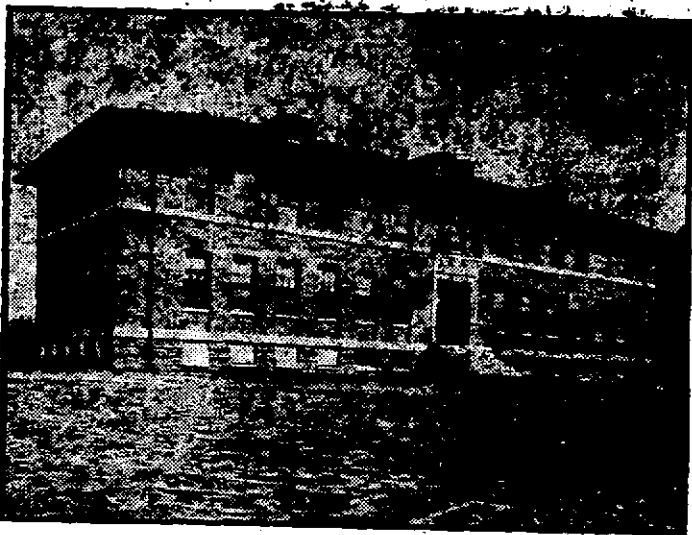

The unveiling of the Gen. Lew
Wallace Memorial will take place at
Brookville next Sunday, according to
a notice that has been received here.
An all day meeting and basket dinner
will be held in the little brick church
in Brookville cemetery, in connection
with the unveiling. The affair will be
held under the auspices of the Ki-
wanis club and Brookville Historical
Society.

Flo's Choice

She's another "most beautiful girl."
Miss Fannie Lupkin, 19-year-old
Helena girl, was selected as Arkan-
sas queen of the Little Rock state fair
at Little Rock.

PROMINENT POULTRY MEN WILL ATTEND DEDICATION AT PURDUE

Lafayette, Ind., Oct. 14—Promi-
nent poultry men from over the
country, in addition to a host of
poultry raisers from over Indiana,
are making plans to attend the ded-
ication of Purdue's "new Poultry
building, one of the finest structures
of its kind in the country, Wednes-
day, October 15. The program for the
dedication has for its principal
speaker Prof. James E. Rice, head of
the poultry department of Cornell
University, whose subject, "Indiana's
Contribution to the Poultry Indus-
try" should be appreciated by Hoos-
ier poultry men.

The program is to open at 1:30 o'-
clock Wednesday afternoon, and will
be called to order by President Ed-
ward C. Elliott, of Purdue, who will
preside. Henry W. Marshall, president
of the board of Trustees of the Un-
iversity, will then make the presen-
tation of the Poultry buildings to the
poultry industry of Indiana. Accept-
ance of the building will be made by
C. L. Manwaring, Mentone, president
of the Indiana State Poultry asso-

ciation. Director George I. Christie
will make the acknowledgement for
the Agricultural Experiment Station;
Dean John H. Skinner for the School
of Agriculture and Prof. A. G. Phil-
lips for the Department of Poultry.

The new poultry building which is
of reinforced concrete and brick has
three floors, including basement, and
contains laboratories, class rooms
and offices for members of the staff.
It was completed recently at a cost
of approximately \$80,000. Situated
only a few feet from the main ser-
vice building on the poultry farm and
near the principal laying and brooder
houses, it offers ideal advantages for
poultry instruction.

The dedication program on October
15, will be the feature of the annual
session in Indiana from October 14
to 16. One of the most complete pro-
grams ever presented at a state
poultry convention has been ar-
ranged for the 1924 meeting, and as
indicated by requests for information
regarding the convention, a banner
attendance has been practically as-
sured.

members of the Walker Township
Girl's Club spent a very busy and
useful summer.

MANILLA SHOW AWARDS MADE

Walker Township Girl's 4-H Club
Held Interesting Exhibit in School
Last Friday

MRS. TAMLIN HOFF IN CHARGE

Class Made Rapid Strides During
Summer Months, as Evidenced by
Grading of Work

The Walker Township Girl's Club
had their display at the school build-
ing at Manilla last Friday afternoon
and evening. This club has been un-
der the direction of Mrs. Tamlin Hoff
this summer. Miss Ruth Grishaw, do-
mestic science teacher in the Rush-
ville high school, judged the exhibit.

Miss Helen Wissing won first on
the same class of fruit and vegeta-
bles that she won first premium with
at the Indiana state fair. She also
took first with her glasses of jellies
which won 5th at the state fair.

Julia Posz won first on a white
cake and Helen Wissing placed sec-
ond.

Doris Brooks won first and Mar-
garet Brooks second with their doil-
ies. Doris Brooks also won first on
pillow cases which were placed 5th
at the Indiana state fair.

Joenita Burd won first in the dis-
play of night dresses.

Caroline Wissing placed first with
a wool dress which she had made
and Doris Brooks won second.

The stories of this year's club
work were ranked in the following
order: (1) Helen Wissing. (2)
Caroline Wissing. (3) Joenita Burd.

The following list gives an idea of
what some of the Walker township
girls have accomplished this summer:

Sewing club: Lorene Krammes
made 2 garments.

Caroline Wissing made 65 pieces.
Joenita Burd made 19 pieces.

Doris Brooks made 12 pieces.

Helen Wissing has made 125 loaves
of bread; 185 cakes; 225 pies; 512
gems; 1475 rolls and 524 biscuits.
Julia Posz has made 555 gems; 18
loaves of bread and 700 rolls.

Helen Wissing has canned 241
quarts of fruit and 689 quarts of
vegetables, or a total of 930 quarts.
From this report it is plain that the

STORING WINTER APPLES

By G. L. Burkholder

Horticultural Extension Staff, Purdue University

Lafayette, Ind., Oct. 14—Apples
cannot be expected to hold their
plump juicy texture and avoid rot-
ting if they are not properly stored.

ture constantly at 129 degrees F.
Mr. Ochs solved this problem very
easily by using the steam heater in
his hog house. It was very easy to
maintain the correct temperature
by the amount of steam injected in-
to the water.

Apples for winter use should never
be allowed to lay in piles in the or-
chard after picking. This treatment
quickly ripens them and makes it
impossible to hold them long after
they are placed in the cellar.

As soon as a few perfect apples
of a variety begin to drop and the
fruit on the tree pulls off, without
breaking the stem, they are ready to
pick. Avoid bruising as a bruise
means a rotten spot regardless of

how the apple is cared for later on.
After picking let the baskets stand
in an open shed or porch over night
and carry into the cellar the first
thing in the morning. Open all doors
and windows of the cellar the pre-
vious night and shut the cellar up
tight as soon as the fruit has been
carried in. Barrels or boxes make
good storage containers. Never lay
the apples on a shelf where they are
exposed to the air of the cellar. Cov-
er the tops of the barrels or boxes
with boards or an old piece of car-
pet. This prevents withering. A few
bushels of the choicest fruit for late
winter use can be wrapped in squares
of newspaper before putting in the
barrel. One rotten apple can't con-
taminate the whole package when
handled in that manner.

If the light temperature is warm
keep all doors and windows tightly
closed day and night. As soon as a
cool night temperature prevails open
all doors and windows before going
to bed and shut the first thing in
the morning. In other words, hold the
cellar temperature as low as pos-
sible at all times. If there is a fur-
nace in the cellar remove a part of
the apples as soon as it is started,
place them in old barrels with burlap
tacked over the tops. Lay these bar-
rels on their sides end to end in the
cellar and cover with heavy layer
of straw and a layer of dirt. When
cold weather sets in increase the
dirt cover. By following these sug-
gestions late varieties of apples can
be held for home use during the en-
tire winter.

Better Seed Corn for 1925

Wouldn't you take just pride in having some-
thing better than any of your neighbors possess?
It might be horses, cattle, sheep, hogs, corn, wheat,
oats, or any other product of the farm.

It would add great interest to your work to have
some superior product on the farm, whatever it
might be. Every farmer ought to have some one
thing better than that possessed by any of his
neighbors.

It lifts farming to the dignity of a profession
when one has something better than anyone
else can produce. It is eminently worth while
to produce something better than one's fellows can achieve, in any any line of endeavor.
Emerson says, "If you produce something better than your neighbor, if it be only a
mousetrap, the whole world will make a beaten path to your door."

RUSH COUNTY HAS 3,000,000 BUSHEL OF CORN

In Rush County, Corn Is King. It Is the Greatest Crop of All

START SORTING AND SAVING SEED CORN NOW

Rush county now has approximately 3,000,000 bushels of 1924 crop corn. At one
dollar per bushel, it would be an asset worth \$3,000,000. At five dollars per bushel, it
would be an asset worth \$15,000,000, a vast sum. Yet, that would be only a fair seed
corn price.

We are on the edge of the greatest seed corn producing region in the world, that com-
prised in the area occupied by Johnson, Shelby, Decatur and Bartholomew counties. The
Corn Kings of the world live there.

Our soil and the intelligence of our growers is equal to that of these other Indiana counties.
We can and should produce just as fine seed corn as they do. Let's begin now. Save seed
corn now. Next Spring will be the greatest seed corn season ever known. Forty Indiana
counties will have no seed corn. Many whole states will have little or none. The demand
has already begun. Why not meet it? LET'S HAVE YOUR HELP.

POULTRY SHORT COURSE NOV. 10

Sixth Annual School Will be Held
at Purdue For Ten Day Period,
According to Plans

IN NEW POULTRY BUILDING

The Course Deals With Raising
Chickens in all Phases, Under Ex-
pert Supervision

The sixth annual Poultry Short Course at Purdue University, Lafayette, Indiana, will be held November 10 to 21, 1924.

The work given in this course deals with all phases of production, marketing, and management and has proved to be one of the best investment of time and money its previous members have ever made. With the enthusiastic support of previous students and the increased facilities offered by the completion of the new Poultry Building at Purdue, a record attendance is anticipated at this course.

The new Poultry Building which cost \$75,000 and measures 42' x 120' has gone far to meet the much needed requirements of this Department for expansion and better administration of work to meet the increasing demands of the poultry interests in Indiana. Indiana now has a Poultry Department equipped better than any other Mid-west Department and equal to the best in the United States or Canada.

The Purdue Poultry Department has stock, building and equipment and a record of service to the poultry business that is equal to the best in any state of the United States.

Lectures, discussions and demonstrations use about half of the classroom time. The balance of the time is spent in direct contact with the Experiment Station flocks and equipment.

For complete information relative to the course address Poultry Department, Purdue University, Lafayette, Indiana.

Portland—Sylvester Franks, farmer near here, lost his faith in dogs. His pet collie got caught in a wire fence. While trying to rescue the dog Sylvester was bit badly on the hand.

HARDY VARIETIES OF PEACHES ARE URGED FOR HOME GARDENS

Many people would like to have a few peach trees in the home fruit garden but feel that it hardly pays to go to the trouble and expense because of the comparatively few crops that can be expected under Indiana weather conditions. One of the most common and well known varieties of peaches is the Elberta. While this peach is fairly good for table use if allowed to ripen on the tree there are a great many other varieties of higher flavor which at the same time much harder in bud. Winter temperature which will kill all the Elberta fruit buds will often leave a portion of buds on some of the other hardy varieties.

A good selection of varieties which ripen over an extended period and which are suggested by C. L. Burkholder of Purdue University are Belle of Georgia, Gold Drop, Lemon Free, Indian Cling or Heath Cling. All of these varieties are hardy in bud than Elberta but of course will not withstand the extremely low temperatures sometimes felt in Indiana.

It is the safest plan to plant peach trees in the spring. After planting it

the best growers give each tree two or three bushels of manure and fork or spade it in around the tree. Never put the manure in about the roots of the trees when planting. Peach trees requires at least some cultivation every year during their entire lifetime. Cultivation is especially necessary the first three or four years after they are planted. After the trees come into bearing a yearly application of three or four pounds of nitrate of soda to the trees, about the time blossom buds are showing pink, is very beneficial. The crystals of the fertilizer should be scattered mostly under the droop of the branches. Purdue Circular 69 on Peach growing in Indiana is free on request to residents of Indiana. The peach tree border is a serious pest of peach trees and is fully described in Purdue Extension Bulletin 114.

Slaughtered

Wholesale slaughter of cattle is going on in Texas now. It is necessary, health officials say, to prevent the spread of the hoof and mouth disease now raging in sections of the state. Steam shovels worked four days digging trenches more than a mile long in which to bury 1900 head of cattle that had to be shot by Texas rangers in the Ellington district alone.

WILL HOLD AUTUMN SOCIAL

Richland People Plan Community
Affair for Thursday Night

An autumn social will be given Thursday evening at the Methodist church in Richland by the Parent-Teacher's association and the township farm bureau. Each one attending is urged to bring or wear a bouquet of autumn flowers or golden rod.

The evening program is looked forward to with interest, and will consist of community singing of old time songs in charge of Omer Truesler and O. P. Wamsley of Rushville. The address of the evening will be delivered by John A. Tisworth an attorney of Rushville. Refreshments will be in charge of the Girl's Sewing Club of the township, and all women of the school organization and farm bureau are urged to bring two pumpkin pies and a dozen doughnuts, to help defray the expenses of the night meeting.

SANITATION TO PLAY BIG PART

Reasonable Sanitary Precautions
One of Most Important Factors
in Raising Ton Litters

SENT OUT QUESTIONNAIRE

Practicing Precautions to Prevent
Loss From Parasites Increased
Size of Litter

By J. R. WILEY

(Agricultural Extension Dept. Purdue University)

Approximately seventy millions of dollars are received annually by Indiana farmers from the hogs produced in the state, about one-fourth of the total cash farm income.

The Hoosier Ton Litter Club was originated and started in Indiana three years ago to help farmers determine and practice the most economical and profitable methods of pork production.

Ninety-seven ton litters were produced the first two years. These litters averaged 10.4 pigs and the average weight at six months was 2199 pounds. This is over twice the average number of pigs raised and marketed per litter; it is about three times the average weight of litters at six months. It is evident that there are some valuable lessons on practical and economical hog production to be gleaned from the methods of breeding, feeding and management practiced in the production of these litters.

Reasonable sanitary precautions to prevent loss from parasites and disease, was one of the most important factors in producing these litters. The following four questions were answered by 90 men who nominated litters for the club awards last spring:

1. Did you clean out the old straw and manure from the farrowing pens before you put the sows into them?
2. Did you disinfect the farrowing pens before sows were put in?
3. Did you wash off sows' udder before putting them into the farrowing pens?
4. Did sows and pigs run in old hog lots and pastures from farrowing to weaning time?

Slightly less than nine pigs per litter was farrowed on the 90 farms. The average litter raised to weaning time was 6.6 pigs, a pig and a half above the state average last spring.

Thirteen of the 90 men cleaned out the old straw and manure; but they did not practice any of the other sanitary precautions. These men raised an average of 5.3 weanling pigs per litter, one and a third pigs less than the average for the 90 men.

Thirty-two of the 90 men disinfected the farrowing pens after they had removed the old straw and manure. They raised an average of 6.2 pigs, somewhat less than the average for the ninety, but a pig more per litter than the average for the state.

Twenty-six men cleaned out the straw and manure, disinfected, and kept the sows and pigs in clean lots and pastures from farrowing to weaning time. They raised an average of seven pigs per litter, two pigs above the state average.

The remaining 13 men washed off the sows' udders as well as practicing the other three sanitary precautions. They raised an average of over eight pigs to the litter.

Practicing these four precautions, to prevent loss from parasites and disease among the young pigs, increased the average size of litter raised fully three pigs. Records kept by Indiana farmers in previous years, shows that it costs twice as much to raise a weanling pig when an average of less than five weanling pigs is raised per litter; than it does when seven or more pigs are raised.

Sanitation was not the only thing that enabled the last group of men to raise an average of eight pigs to the litter. Good management was practiced all the way through. To this was added good feeding and good breeding stock.

Men who produced ten litters in past years have raised an average of seven pigs to the litter for all sows that farrowed on their farms. Their methods of breeding, feeding and management are the ones that bring the greatest economy and profit in the hog business.

Seymour—Seymour has a "belled buzzard." Martin Borsherding, farmer, reports seeing the bird. He says he heard the bell distinctly and believed it was a cowbell hanging from its neck.

Lafayette—Flivvers look alike. Fred Case told Ross Branstetter. Case drove away Branstetter's car by mistake and police asked an explanation.

Carey

ASFALTSLATE SHINGLES

Large Size

The Shingle that never curls

THE pleasing effect of homes roofed with Carey Asfaltslate Shingles (large size) is due, first, to the warm red or cool green crushed slate with which the shingles are surfaced; and second, to the shadow effect which is caused by the extra thickness of the butts. They are laid with a five-inch exposure to the weather which prevents over-formality in appearance.

Carey Asfaltslate Shingles (large size) are much heavier and more enduring than so-called standard shingles. They are water-proof, fire-resisting and have important insulating qualities.

Carey Asfaltslate Shingles never curl, or crack, and they cannot fade. They require no upkeep for either painting or repairs.

Call on us for samples and prices.

Ross McBride and John Knecht went to Osgood last week on business.

Mr. and Mrs. Ed Winkler entertained with a pitch-in dinner Sunday. Those present were Mr. and Mrs. Charles Smith and family, Mr. and Mrs. Oda Winkler and family, Mr. and Mrs. Everett Lee and family, Mrs. Roy Whittaker and family, Miss Dora Winkler and Herschel Hankins. The day was greatly enjoyed by all.

Mr. and Mrs. Dora Ferguson of Rushville spent Saturday and Sunday with Mr. and Mrs. Elmer Porter.

A penny supper will be given at the Jackson township School building Friday night by the ladies of the Farmer's Federation of Jackson township. Everybody is cordially invited.

Miss Marie Haze of Indianapolis spent the weekend with Mr. and Mrs. Doe Kirkpatrick.

Mr. and Mrs. Everett Lee and family spent Tuesday evening with Mr. and Mrs. George Zike.

Mr. and Mrs. Will Wright and family attended the all day meeting and basket dinner at Ben Davis Sunday.

Mr. and Mrs. Dock Kirkpatrick spent Sunday with Mr. and Mrs. Morton Hinchman.

SUPER VALUES IN GROCERIES EVERY DAY

We sell guaranteed groceries at real reductions. Low prices prevail because we do a large volume of business. We have stated in our ads many times that so long as you give us the volume we will be able to make corresponding low prices.

We buy butter, eggs, lard, potatoes, bacon and all kinds of country produce. Our large business in Rushville enables us to dispose of large quantities of these things and we always pay top of the market prices. Call us when you have anything to sell.

Our car of LOYALTY FLOUR has finally arrived. Flour has advanced more than a dollar per barrel since this was bought, but our price is based on the original cost. No finer flour was ever sold in this community than LOYALTY.

LOYALTY FLOUR, bag \$1.20	Enterprise Flour per bag \$1.45
Good Straight Grade Flour, per bag 95c	E. Z. Bake Flour per bag \$1.15
A good Kansas Flour, bag 90c	Purity Flour per bag \$1.15
